INDEPENDENT AUDITORS' REPORT

Mr. Jerry Ivy, Trustee of
Auto-Chlor System, Inc.
Profit Sharing and 401(k) Plan
Mountain View, California

We were engaged to audit the accompanying statements of net assets available for benefits of Auto-Chlor System, Inc. Profit Sharing and 401(k) Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental Schedule H, line 4i–Schedule of Assets (Held at End of Year) as of the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Charles Schwab Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Auto-Chlor System, Inc. Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a salary deferral arrangement established under Section 401(k) of the Internal Revenue Code. The Plan was originally established by Auto-Chlor System of Washington, Inc. (the Company) in January 1969. The Plan was amended and restated effective May 1, 2002. The employers are referred to herein as Auto-Chlor.

All employees, excluding leased employees and union employees, who have reached the age of 18 and who have completed three months of service with Auto-Chlor are eligible for participation in the 401(k) portion of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and certain provisions of the Internal Revenue Code (IRC).

Plan Administration

The Company used a third party administrator, The Standard from January 1, 2010 through June 9, 2010, and Riversedge from June 10, 2010 through December 31, 2010, to assist with record keeping and administration of the Plan, including the authority and responsibility to invest, manage, and control the assets of the Plan specifically allocated to the custodian. Charles Schwab Trust Company was the appointed custodian for the Plan in 2010 and 2009, and acted at the direction of the Plan's administrator. The Company paid the majority of all necessary and proper expenses incurred in the administration of the Plan. Such expenses are primarily comprised of legal fees, auditing fees, and expenses relating to the maintenance of the Plan's records.

Contributions

Auto-Chlor may make elective profit sharing contributions to the Plan. If any such contributions are made, the Trustees allocate them among various investment choices, including mutual funds, common collective funds, money market funds, real estate, and mortgage notes receivable. Participants are prohibited from selling investments made with profit sharing contributions while they are employed by the Company unless the participant is required to take a mandatory distribution, is approved for hardship withdrawal, or takes a loan from their account. In 2010, the Company made an elective profit sharing contribution in the amount of $1,910,399. Participants are eligible for the profit sharing contribution once they have attained the age of 20 1/2 and completed six months of service prior to the first day of the Plan year, are employed on the last day of the Plan year, and have completed one year of service, defined as 1,000 hours of service.

Continued

1. Description of Plan, continued

Contributions, continued

Each year, participants may voluntarily contribute to the Plan a minimum of a portion of their annual eligible compensation, up to the maximum amount allowable under current income tax regulations which was $16,500 for 2010. Participants may also contribute amounts rolled over from other qualified plans, and if the participants are 50 or older, they may elect to defer additional amounts (called catch-up contributions) to the Plan. The catch-up contributions may be deferred regardless of any other limitation on the amount that a participant may defer to the Plan. The maximum catch up contribution for 2010 was $5,500.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of Auto-Chlor's discretionary profit-sharing contribution, participant rollovers, and Plan earnings and losses thereon. Plan earnings are allocated based upon each participant's account balance. Employer discretionary profit-sharing contributions are allocated based upon the greater of a discretionary percentage of each participant's eligible compensation or a discretionary minimum dollar value per eligible pay period.

Certain investment fees are charged to the mutual funds and corporate equities and are offset against Plan investment income and losses as presented on the Statement of Changes of Net Assets Available for Benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Vesting

Participant contributions, rollovers, and net earnings on these contributions, are fully vested when made or earned.

Discretionary employer contributions, if any, as well as all earnings on these contributions vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note receivable terms range from one to five years or longer as permitted by the Plan administrator for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear a reasonable rate of interest as determined by Plan management at the time of note receivable origination. Interest rates on outstanding notes receivable ranged from 5% to 10.25% per annum at December 31, 2010. Principal and interest are paid in equal installments through payroll deductions. Any outstanding notes receivable will become due and payable upon termination of employment.

Participants may pay the balance of the note receivable directly by writing a check payable to the Plan for the balance of the note receivable plus any accrued interest. If the note receivable is not repaid in this fashion, the balance of the note receivable plus any accrued interest will be deducted from the participant's distribution from the Plan.

Payment of Benefits

On termination of service for reasons other than death, a participant will receive an amount equal to the value of the Participant's vested interest in his or her account. If vested balance is more than $5,000, the participant may elect distribution under any of the following methods: (a) lump sum, (b) part lump sum and part installments, or (c) installment payments (annually, quarterly, or monthly) over a specified period of time, not to exceed the participant's life expectancy, or the joint life expectancy of the Participant and the Participant's designated beneficiary. For termination of service due to death, the participant's beneficiary will receive the value of the vested interest in the participant's account in a lump-sum cash distribution. If the vested interest in the account does not exceed $5,000, then a lump-sum distribution will be made as soon as administratively practicable following the termination of employment. However, the participant may elect whether to receive the distribution or to roll over the distribution to another retirement plan such as an individual retirement account (IRA). If the amount of the distribution is more than $1,000 and the participant does not elect either to receive or to roll over the distribution, then under the law of 401(a)(31)(B) of the Internal Revenue Code the distribution must be rolled over to an IRA. The IRA provider will invest the rollover funds in a type of investment designed to preserve principal and provide a reasonable rate of return and liquidity. The Plan's normal retirement age is 62.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in percentage increments into a series of mutual funds and a money market fund offered by the Plan. Participants may change their investment options at any time.

Forfeitures

On or before each anniversary date any forfeiture may be made available to reinstate previously forfeited account balances of former participants, used toward any employer discretionary contribution, or used to pay any administrative expenses of the Plan. Forfeited balances of terminated participants' nonvested accounts are allocated based on participant groups as if the forfeitures were additional employer contributions.

At December 31, 2010 and 2009, forfeited nonvested accounts totaled approximately $151,600 and $155,800, respectively. During the year 2010, forfeited funds in the amount of $41,254 were allocated to participants in accordance with Plan guidelines.

2. Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts, which also approximates the contract value of the investment contracts. As such, there is no adjustment of the fully benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and changes in net assets available for benefits. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Information Certified by the Custodian

Charles Schwab Trust Company has prepared and certified as complete and accurate the Plan's schedule of investment assets, transactions, and net realized and unrealized gains and losses on investments, and interest and dividend income, which was used to prepare the accompanying financial statements and supplemental schedule.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires additional disclosure related to the three-level fair value hierarchy. Entities are required to disclose significant transfers in and out of Levels 1 and 2 of the fair value hierarchy. We adopted the amendments in ASU 2010-06 effective January 1, 2010. The Plan had no significant transfers between Level 1 or 2 for the period ended December 31, 2010.

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined-contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. The Plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $535,732 and $356,912 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

Reclassification

Certain reclassifications have been made to the prior year's numbers in order to conform to the presentation in the current period.

3. Fair Value Measurement

Accounting Standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under accounting standards are described below:

Level 1–Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2–Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3–Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Guaranteed investment contract: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Notes receivable, secured by first deeds of trust: Valued based on estimated realizable value, which approximates fair value.

Corporate equities: Valued at the closing price reported on the active market on which the individual securities are traded.

Continued

3. Fair Value Measurement, continued

Limited partnership: Valued based on the partnership financial statements.

Commercial rental real estate: Valued based upon an independent valuation of the rental property during June 2010. Rental income is recorded when earned.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

4. Nonparticipant-Directed Investments

Nonparticipant-directed investments are funded by Plan sponsor discretionary profit sharing contributions. As described in Note 1, participants are restricted in their ability to sell or transfer any portion of their share of the nonparticipant-directed investments while they are employed by the Company.

Information about the nonparticipant-directed net assets is presented in the accompanying financial statements. The significant components of the changes in net assets relating to the nonparticipant-directed investments for the year ended December 31, 2010 were as follows:

Changes in net assets for the year ended December 31, 2010:

Employer contributions	$ 1,910,399
Net appreciation in fair value of investments	1,741,390
Interest and dividends	56,489
Rental income–commercial real estate	63,000
	$ 3,771,278

5. Investment Information Prepared and Certified by the Custodian (unaudited)

*Nonparticipant-directed

During 2010, the Plan's nonparticipant-directed investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,552,218 as follows:

Notes receivable	$ 2,400
Commercial rental real estate	30,000
Corporate equities	87,331
Mutual funds	2,462,487
	$ 2,552,218

7. Commercial Real Estate

The Plan holds commercial real estate located in Philomath, Oregon. The building is leased to the U.S. Postal Service. The original lease expired on December 31, 2001. The U.S. Postal Service timely exercised the second of its four options to extend its lease for five years under each option. Under this option exercise, the lease was extended for five years, effective January 1, 2007, and it is to expire on December 31, 2011 with two five-year renewal options remaining. As of December 31, 2010, future noncancelable lease payments to be made is $63,000.

8. Notes Receivable and Limited Partnership

As of December 31, 2010, the Plan had investments in two separate notes receivable; interest rates ranged from 10% to 11% per annum; notes receivable were secured by first deeds of trust on commercial, investment, and personal residence real estate in California. The notes require monthly interest-only payments with principal due on various maturity dates. Notes have matured as of December 31, 2009, and no interest was received in 2010. Due to un-collectability of interest, no accrued interest has been recorded and principal of notes receivable has been adjusted to reflect fair value, the estimated realizable value. One of the properties securing a note receivable held in 2009 was transferred and put into a single asset LLC, where the Plan is now named as a member of the LLC and the principal of the note receivable was converted into a capital contribution. As such, the Plan now holds an investment in a limited partnership.

9. Investment Contract with Insurance Company

The Plan holds a benefit-responsive investment contract with MetLife Insurance Company (MetLife). The assets are invested in a MetLife separate account. MetLife will guarantee principal and accrued interest based on credited interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. The minimum interest credit rating is 0%. MetLife resets the rate quarterly by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

	2010	2009
Average yields:		
Based on actual earnings	7.59%	11.21%
Based on interest rate credited to participants	3.32%	3.42%

10. Party-in-Interest Transactions

Certain Plan investments in mutual funds are managed by Charles Schwab Trust Company, the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

11. Risk and Uncertainties

The Plan provides for various investment options in any combination of mutual funds and other investment securities, nonparticipant-directed notes receivable and commercial real estate offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks will occur in the near term that could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes of Net Assets Available for Benefits.

12. Tax Status

The Plan uses a prototype plan document sponsored by SunGard Corbel LLC. SunGard Corbel LLC received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provisions for income tax have been included in the Plan's financial statements.

Continued

13. Plan Termination

Although the Company has not expressed intent to do so, the Company has the right under the Plan's provisions to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants who are not already fully vested will become fully vested in their accounts.

14. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through October 12, 2011, the date which these financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2010 that requires recognition or disclosure in such financial statements.
