SERVICE PROCESS OVERVIEW

How will our firm interact with . . .

Those charged with Governance – We will communicate the results of our audit procedures at the conclusion of the engagement along with the required correspondence related to the audit. We will apprise you of any issues warranting their attention as they may arise during the course of our examination and process and procedures review, as applicable. In accordance with auditing standards, we may contact those charged with governance via phone or e-mail to discuss areas that may affect the design of our audit procedures. We are certainly available to meet with those charged with governance at their request.

Management and Accounting Staff – We look forward to working directly with the management and staff of Bank of Holly Springs to help us gain a further understanding of your operations as we work towards the preparation of audited financial statements and any recommendations or results from our process and procedures review. Our interaction will be courteous and professional with the goal of performing an efficient and productive engagement. During the audit, if we encounter any matters or internal control concerns, those will be discussed with management at that time. If we have formal recommendations, we will first provide a draft of those comments to management to ensure that all relevant facts are accurate. We will then distribute the comments to those charged with governance. Once all parties have seen a copy of the financial statements and management letter, we would like to answer any questions that may arise. Results of our process and procedures review, as well as any recommendations, will be discussed with management before any communications with those charged with governance.

PROCESS AND TIMING

Audit Engagement

We anticipate the employee benefit plan audit being performed from July to August with drafts of the financial statements delivered to management by September 15, 2026 or a timeline preferred by you.

The key factors affecting the audit timeline are the receipt of information from the Third-Party Administrator (TPA), the timing and accuracy of census information provided, the time it takes to gather information for testing and the response time of our audit inquiries.

Planning Phase – Gaining a thorough understanding of plan operations and internal control structures, by:

- Interviewing personnel
- Read Plan Document and prototype plan adoption agreement
- Review SOC1 reports
- Identify areas of significant risk.
- Design audit procedures based on the knowledge from our operations analysis and risk assessment to comply with the requirements established by the DOL for ERISA audits.
- Select samples for participant testing and request relevant information from human resources to perform testing.

We will send our samples selections to you within a week of receiving both the annual trust reports from the TPA and the census data which has been reconciled to your payroll records.

Fieldwork – We can expect fieldwork to commence approximately 2-3 weeks after providing you with our sample selections for participant testing and other documents, which we will require as part of our audit, to allow you sufficient time to gather the information we have requested. Key areas of audit focus will be participant data, compliance with plan documents, contributions at the plan and participant level, and benefits and expenses paid out of the plan.

Review – Our review process commences as soon as all inquiries have been resolved, workpapers have been completed, the financial statements drafted and the 5500 received from the TPA. This process usually takes approximately one week to complete, and the financial statements will then be sent to you for final approval.

In summary, we expect to complete the audit approximately six weeks after receiving the census data from you and the audit package from the TPA based on the assumption that all information requested, and questions noted during the audit are received and resolved on a timely basis.

Exit Conference **–** The engagement team will meet with management and discuss all correspondence to be issued in connection with the audit for approval.

Resolution of Engagement Issues

During the performance of our professional services, we may encounter accounting and financial reporting, as well as tax compliance and reporting issues. As these issues arise, the engagement team will discuss the issue with management and perform the appropriate research to support any proposed resolutions. We are bound by the professional standards and regulatory guidance that governs our profession. Uncorrected deviations from those standards may result in modifications to our opinion. We will work diligently to resolve any issue in the best interest of all parties involved.

Client Satisfaction

Our firm utilizes a customer satisfaction survey after each engagement to measure the engagement teams' performance and identify areas for improvement. The survey is administered on-line through Survey Monkey.

Technology

Our audit practice uses paperless audit software, as well as certain computer-assisted auditing techniques (CAAT) that enable us to be more efficient and effective. We have aggressively pursued ways to improve efficiency through technology by incorporating remote access to the office for our staff in the field and using cloud-based applications to ensure access to up-to-date reference materials. We also utilize a secure client portal system for the transmission of data between the firm and our clients.

Firm wide, we use a paperless document management system to allow easy retrieval and archiving of documents. We employ two full time IT personnel to oversee the firm's internal data security as well as monitoring daily redundant backups of firm data to remote locations.

FEES

Proposed fees are based on our estimate of the time required to perform the engagements. Since this is the initial audit of the plan, we will perform compliance testing with a lookback of at least three years of certifications and participant accounts.

Fees are as follows:

Audit for year ended December 31, 2025	$17,500

Fee estimates assume that we will be auditing a "clean" set of books and that minimal adjustments will be necessary. Fee estimates also assume your personnel will prepare certain schedules and assist us in locating records and other documents necessary for the completion of our audit.

Should we encounter unforeseen circumstances or technical issues requiring additional time, you will be notified promptly, and fee adjustments will be negotiated. We intend to absorb certain first-year transition time as an investment in our relationship.

In the event your organization requires services beyond the scope of the audit, our personnel are available for consultation. We will only charge for additional consultation related to specific projects or requested research. ***General questions will be fielded and answered in connection with the basic audit fees.*** Any additional charges for services will be discussed before incurred.

Our fees will be billed as work progresses with final billings being done upon completion of the engagement.
