Independent Auditor's Report

To the Trustees
Caesar Creek Software Employee Stock Ownership Plan
Dayton, Ohio

Opinion

We have audited the accompanyingfinancial statements of Caesar Creek Software Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025 (in liquidation) and the related statement of changes in net assets available for benefits for the year then ended (in liquidation), and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Caesar Creek Software Employee Stock Ownership Plan as of December 31, 2025 (in liquidation), and the changes in its net assets available for benefits for the year then ended (in liquidation), in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Caesar Creek Software Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As discussed in Note 7 to the financial statements, the governing body of Caesar Creek Software Employee Stock Ownership Plan approved a plan of liquidation on August 14, 2025, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2024 financial statements to the liquidation basis used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Other Matter - Prior-Year Compiled Statement

We performed a compilation engagement with respect to the statement of net assets available for benefits of Caesar Creek Software Employee Stock Ownership Plan as of December 31, 2024 (ongoing basis), and the related notes to the financial statement, which are prepared for comparative purposes and our report thereon, dated October 5, 2026, stated we did not audit or review those statements and, accordingly, express no opinion or other form of assurance on them.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Caesar Creek Software Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Caesar Creek Software Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of reportable transactions for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to

prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

The following description of Caesar Creek Software Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description or the Plan Document for a more complete description of the Plan's provisions.

General

Caesar Creek Software, Inc. (the Company and Plan sponsor) established the Caesar Creek Software Employee Stock Ownership Plan as of January 1, 2019 as a leveraged employee stock ownership plan (ESOP) under Section 4975(e)(7) of the Internal Revenue Code (IRC). The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a defined contribution plan that covered substantially all employees of Caesar Creek Software, Inc. (the Company and Plan sponsor) who have attained 18 years of age with at least 1,000 hours.

The Plan purchased Company common stock with the proceeds of a note payable to the Company. As principal was repaid through Company contributions, shares were released from collateral and allocated to the participants. Accordingly, the financial statements at December 31, 2024 and for the year ended December 31, 2025, present Allocated and Unallocated net assets separately. All net assets of the Plan were allocated to participant accounts at December 31, 2025. At December 31, 2024, the Plan held 41,151.622 allocated shares and 71,910.378 unallocated shares.

Sale of Company Stock

On August 14, 2025, the Company contributed $607,339 to the Plan to repay the ESOP note payable in full, including principal of $600,198 and accrued interest of $7,141. The remaining 71,910.378 unallocated shares, with a fair value of $22,594,960, were released and allocated to participants in proportion to eligible compensation.

Additionally on August 14, 2025, Cryptic Vector, LLC acquired all of the Company's outstanding common stock, all of which was held by the Plan. The Plan sold its 113,062 shares for consideration of $35,524,689 ($314.21 per share), received in cash at closing. Under the purchase agreement, $4,350,000 of the purchase price was placed into escrow, and the purchase price was subject to a post-closing working capital adjustment. In 2026, the Plan received its pro rata shares of $427,224 from the net working capital adjustment and also received $920,666 from the first escrow release. The Plan expects to receive its pro rata share of the remaining escrow payment of $3,042,058 in February 2027, subject to claims under the purchase agreement. These amounts totaled $4,389,948 and are included in receivables at December 31, 2025. Proceeds from the unallocated shares were allocated to eligible participants in proportion to compensation. At December 31, 2025, the Plan held no Company common stock and had no outstanding debt, and its net assets consist of a money market fund and accrued interest receivable.

Eligibility

Prior to the sale, employees of the Company were eligible to participate in the Plan after they had 1,000 hours of service in a 12 consecutive month period commencing on the date the employee first performed an hour of service. Once they were credited for the 1,000 hours, their eligibility started on January 1 of that current plan year. Employees who did not have at least 1,000 hours of service or were not employed on the last day of the plan year were not eligible for an allocation of Company contributions for such year.

Note 1. Description of the Plan (Continued)

Contributions

Before August 14, 2025, the Company was obligated to make contributions in either cash or Company stock, that together with Plan earnings, were sufficient to pay its regularly scheduled payments of principal and interest due on its term loan. The Company could also make discretionary contributions to the Plan. Employees were not permitted to make contributions. Company contributions for 2025 consisted of the $607,339 contribution used to repay the note payable. The employer stock contribution receivable of $876,249 at December 31, 2024 was settled through a contribution of Company common stock during 2025.

Participant accounts

Each participant's account was credited with Company contributions as of the last day of each plan year with an allocation of shares of the Company's stock released by the Trustee from the unallocated account. Only those participants who were eligible employees of the Company as of the last day of the plan year received an allocation. Allocations were based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings were allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants beginning of the year account balances. Accounts continue to be credited with interest earnings.

Plan freeze and termination

Effective August 14, 2025, the Plan was frozen and no new participants were admitted and no contributions were made after that date. On August 14, 2025, the Company's Board of Directors approved termination of the Plan. Distributions were suspended beginning August 14, 2025 pending completion of the termination process (Note 7).

Payment of benefits

Prior to the sale, distributions due to termination of service due to disability, death, or retirement were made in a lump sum in the Plan year following the event. Distributions for other separations of service commence no later than the end of the sixth Plan Year following the Plan Year following the separation from service and are made in five annual installments.

Under the provisions of the Plan, the Company or the Plan was obligated to repurchase participant shares which have been distributed under the plan at the fair market value as determined by the Trustee of the Plan. During 2025, no shares were repurchased by the Plan. Effective August 14, 2025, distributions were suspended (Note 7).

Voting rights

Before the sale, participants voted the shares allocated to their accounts, and the Trustee voted the unallocated shares.

Note 2. Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Accounting Standards Codification (ASC) as produced by the Financial Accounting Standards Board (FASB) is the sole source of authoritative U.S. GAAP. As a result of the decision to terminate the Plan (Note 7), the Plan changed its basis of accounting from the ongoing plan basis to the liquidation basis effective August 14, 2025. The 2025 statements are presented on the liquidation basis. The statement of net assets available for benefits at December 31, 2024 is presented on the ongoing plan basis. Under the liquidation basis, assets are stated at the amounts estimated to be collected or otherwise realized in liquidation. Liabilities are measured at the amounts expected to be paid.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from estimates as additional information becomes available in the future.

Investment valuation and income recognition

Investments held by the plan are reported at fair value. At December 31, 2025, Plan assets were held in a money market fund, which is included in cash and cash equivalents. Purchases and sales are recorded on a trade-date basis and interest is recorded on the accrual basis. Net appreciation in fair value of investments includes the gain on the August 14, 2025 sale of Company common stock, including amounts receivable from the escrow and working capital adjustment.

At December 31, 2024, Company common stock was valued based on an independent appraisal.

Receivables

Receivables for the net working capital adjustment, escrow releases, and interest are recorded at the amounts expected to be collected. The Plan administrator is not aware of any claims against the escrow as of the date the financial statements were available to be issued. The amount ultimately collected from the remaining escrow may differ from the amount recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses and costs of liquidation

The Company pays the Plan's administrative expenses, including the costs of terminating and liquidating the Plan. Accordingly, no accrual for estimated costs of liquidation has been recorded.

Date of management's review

Subsequent events have been evaluated by management through October 15, 2026, the date the statements were available to be issued.

Note 3. Fair Value Measurement

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

> Company common stock: was valued at fair value based on an independent appraisal using income and market approaches, which incorporate significant unobservable inputs, and was classified within Level 3. No investments were measured at fair value on a recurring basis at December 31, 2025.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2024:

	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$15,721,253	$ 15,721,253

Note 3. Fair Value Measurement (Continued)

The following table sets forth the changes in Level 3 assets for the year ended December 31, 2025:

Balance, December 31, 2024	$ 15,721,253
Shares contributed	876,249
Net appreciation through date of sale	18,927,187
Sale of Company common stock	(35,524,689)
Balance, December 31, 2025	$ -

Note 4. Party-in-Interest Transactions

The Company is a party-in-interest. It provides certain administrative services at no cost to the Plan and pays the Plan's administrative expenses. Party-in-interest transactions during 2025 included the Plan's holding of Company common stock until its sale; repayment in full of the note payable to the Company, using a Company contribution of $607,339; and the contribution of Company common stock in settlement of the 2024 contribution receivable.

The Plan also invested in a money market fund that is managed by an affiliate of the Trustee which is also qualifies as party-in-interest transaction under ERISA.

Note 5. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 19, 2020, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. On November 11, 2025, in connection with the termination of the Plan, the Plan administrator filed Form 5310 requesting a determination letter on the Plan's qualified status upon termination.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Risks and Uncertainties

At December 31, 2024, the Plan's assets consisted primarily of Company common stock, whose value was based on an independent appraisal. At December 31, 2025, the Plan's assets consisted of a money market fund and receivables. Collection of the remaining escrow, and the timing of final distributions, depend on the absence of claims under the purchase agreement and on receipt of the IRS determination letter.

Note 7. Plan Termination

On August 14, 2025, the Company's Board of Directors approved termination of the Plan effective August 14, 2025. As a result of the termination, the Plan adopted the liquidation basis of accounting (Note 2).

No distributions were made from August 15, 2025 through December 31, 2025. On February 24, 2026, the Plan paid initial distributions of $28,448,146, or 80% of participant account balances, to participants who elected them. Remaining balances, including the Plan's share of the remaining escrow will be distributed after the later of the receipt of the IRS determination letter (Note 5) or release of the escrow, both currently expected in March 2027.

Note 8. Reconciliation of Financial Statements to Form 5500

The following reconciles net assets available for benefits per the financial statements to the Form 5500 at December 31, 2025:

Net assets available for benefits per the financial statements	$41,395,303
Less: escrow and working capital receivables not reported on Form 5500	(4,389,948)
Net assets per the Form 5500	$37,005,355
Net increase in net assets per the financial statements	$24,498,681
Gain on sale of Common stock	(4,389,948)
Net income per the Form 5500	$20,108,733
