General
The Plan is a defined contribution retirement plan, which provides for the participation of substantially all employees of Herring Bank and subsidiaries and other companies under controlled group rules (the Company) who have completed 6 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is intended to qualify under Section 401(k) of the Internal Revenue Code (IRC). Under the Plan, each participant has an account for his/her salary deferral contributions, any Company matching contributions and any Company discretionary contributions.

Nationwide Trust Company, FSB (Nationwide) serves as the Plan's investment custodian and is responsible for executing all investment transactions.

Contributions
Participants may make salary deferral contributions on a tax-deferred basis through payroll deductions of up to 100% of their compensation (limited to certain amounts allowed under the IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, the Company makes matching contributions at 50% of employee contributions up to 5% of eligible compensation (as defined), which are applied to eligible participants who made salary deferral contributions to the Plan during the year. The Company may also make additional discretionary contributions. Participant and Company contributions are subject to the provisions of the IRC and related regulations.

Participant Accounts
Each participant's account is credited with the participant's contributions and allocations of (a) Company matching and discretionary contributions, if any, and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (continued)

Participant Loans
The Plan allows participants to obtain loans from their accounts, which may not exceed the lesser of one half of the participant's vested interest in the Plan or $50,000. Participant loans are maintained and serviced by the Plan's custodian as assets of the Plan. Participants should refer to the separate loan policy of the Plan for further information. Principal and interest is paid ratably through payroll deductions. Interest rates are based on prime rate plus 1.00%, which ranged from 4.25% to 6.00% as of December 31, 2010.

Vesting
Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Participants become immediately 100% vested in employer matching contributions upon death or disability. Normal vesting in the Company's matching contribution, and any discretionary contribution plus actual earnings thereon based on the following schedule:

Years of service	Vesting percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Forfeited Accounts
At December 31, 2010 and 2009, forfeited nonvested accounts totaled $3,060 and $6,478, respectively. Forfeited balances of terminated participants' nonvested accounts are first made available to reinstate the accounts of terminated employees that return to employment status and have their accounts reinstated, then may be used as a reduction of employer matching contributions the year the forfeitures occur. During the year, the Plan utilized $9,846 of forfeitures to reduce employer matching contributions.

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his/her account. Distributions may be deferred until the participant reaches the age of 70½ or retires. Current Plan provisions do allow for withdrawals by active employees for certain hardship occurrences as allowed under the Internal Revenue Code.

Investment Options
Upon enrollment, a participant may direct their contributions in whole percentages to any of the investments selected by the Company's Trustee Committee or individually allocated annuity contracts. Participants have the option to change their investment allocations daily via phone or internet access to Nationwide.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events
The Plan Administrator has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

Changes in Financial Presentation
In September 2010, the Financial Accounting Standards Board issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU Topic 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $52,709 from investments to notes receivable as of December 312009. There was no impact to the net assets available for benefits as of December 31, 2010 or 2009, as a result of the adoption.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition
Investments in registered investment companies are valued based on quoted market prices. Investments in the insurance company guaranteed investment accounts are reported at fair value as determined by Nationwide Life Insurance Company. In accordance with stating investments at fair value, net unrealized appreciation or depreciation is reflected for the year on the Statement of Changes in Net Assets Available for Benefits. See Note 9 for disclosure of fair value measurements.

Gains or losses on investment transactions are recorded as the difference between proceeds received and the carrying value of the investments.

Purchases and sales of investments are recorded on a trade-date basis. Income from investments is recorded on the accrual basis. Investment dividends and interest received are reinvested in the corresponding accounts.

The Plan was amended during 2009 to allow participants to invest a portion of their account balance in individual allocated annuity contracts. During 2010, participants transferred $765,600 of their account balances to individual allocated annuity contracts held by insurance companies. For the year ended December 31, 2010 and 2009, the contract values of these individual allocated annuity contracts were $1,142,859 and 377,259, respectively, and total estimated fair value of these individual allocated annuity contracts totaled $1,065,559 and $401,300 at December 31, 2010 and 2009, respectively. As allowed in the AICPA Audit and Accounting Guides for Employee Benefit Plans, these allocated contracts have been excluded from Plan assets in the accompanying financial statements.

Benefit Payments
Benefits are recorded when paid.

Administrative Fees
The Plan pays investment management fees from Plan assets. Third party investment management fees are elective by the participant and are charged directly to the participants' account. All other costs of the Plan are paid by the Plan's sponsor and are not reflected in these financial statements.

Guaranteed Investment Account
Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The fair market value for the contract is equal to the contract value, less any contingent deferred sales charge. The GIC contract is not subject to a contingent deferred sales charge, and therefore, the fair market value and contract value for the years ending December 31, 2010 and 2009 are equal. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 3 - INFORMATION CERTIFIED BY NATIONWIDE TRUST COMPANY

The following is a summary of the Plan's investment information as of December 31, 2010 and 2009 included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following investments at fair value:

	2010	2009
Pooled separate accounts	$ 2,891,709	$ 1,629,644
Guaranteed investment account	$ 1,075	$ 1,164

Nationwide Trust Company also certified to the completeness and accuracy of $250,333 of net appreciation in fair value of investments and $38,646 of interest and dividends related to the aforementioned assets for the year ended December 31, 2010.

NOTE 4 - INVESTMENTS

NOTE 5 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan offers a non-fully benefit-responsive investment contract with Nationwide Trust Company, FSB. Nationwide maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract is contractually obligated to repay the principal and a specified interest that is guaranteed to the Plan.

As described in Note 2, contract value is the relevant measurement attribute for that portion of the Net Assets Available for Benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Nationwide, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on the three year Treasury note yield adjusted for constant maturity as reported by the Federal Reserve Board. Such interest rates are reviewed on a quarterly basis for resetting. At December 31, 2010 and 2009, the guaranteed crediting interest rate was approximately 0.00% and 0.09%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the plan documents, (2) changes to plan's prohibition on competing investment options or deletion of equity wash provision, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the Nationwide Trust Company to terminate the agreement prior to the scheduled maturity date.

Average yields:	**2010**	**2009**
Based on actual earnings	0.00%	0.08%
Based on interest rate credited to participants	0.00%	0.08%

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants will become 100% vested in their accounts and the Plan assets will be distributed in a manner approved by the Internal Revenue Service.

NOTE 7 - TAX STATUS

The Plan has not received a determination letter on their adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2003-6, the Plan administrator has chosen to rely on the opinion letter, dated March 31, 2008, that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions during 2010 and concluded that the Plan had maintained its tax exempt status and has taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

NOTE 8 - TRANSACTIONS WITH PARTIES IN INTEREST

At December 31, 2010, the Plan held investments in pooled separate accounts, notes receivable from participants and a guaranteed investment contract with a current value of $341,031 which are managed by Nationwide. Thus, transactions within these investment funds qualify as party-in-interest transactions as defined by ERISA.

NOTE 9 - FAIR VALUE MEASUREMENTS

The Plan complies with ASC Topic 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles. ASC 820-10 applies to all financial assets and liabilities that are being measured and reported on a fair value basis. As defined in ASC 820-10, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities. Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data. Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3: Unobservable inputs that are not corroborated by market data. Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).
