STANDARD SUPPLY AND DISTRIBUTING COMPANY, INC.
THE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2009

Note 1. Description of Plan

The following description of the Standard Supply and Distributing Company, Inc. (Company) The Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan, a 401(k) Plan, is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective July 1, 1997.

Contributions. Each year, participants may contribute from 1-100% of pretax annual compensation, not to exceed the annual limitations as established by the IRS. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50% of the first 4% of base compensation that a participant contributes to the Plan. The matching Company contribution is invested directly in the participants' portfolio of investments. Contributions are subject to certain limitations.

Effective January 1, 2008, the Plan was amended to permit participants to designate a part of their salary deferral as Roth after-tax contributions. Roth deferrals are matched by the Company at the same rate as the pretax deferrals are matched. If these deferrals are withdrawn after the five (5) taxable year beginning with the taxable year in which the Roth deferral account is first established, and the withdrawal is made after age 59 1/2, or on account of death or disability, there are no taxes on the accumulated amounts, including earnings.

Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years on continuous service. A participant is 100% vested after six years of credited service.

Participant Loans. Participant loans receivable are stated at cost, which approximates fair value. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. All loans must have a definite repayment period and the term of the loan may not exceed 5 years. However, if a loan is used to acquire a principal residence, the repayment may be a reasonable time that may be longer than 5 years. The loans are collateralized by the balance in the participant's account and bear reasonable interest rates ranging from 5.25% to 10.25%, which are commensurate with local prevailing rates charged by financial institutions.

Payment of Benefits. There is one form of payment under the Plan, a lump-sum distribution. Distributions are in the form of a lump-sum distribution of the total participant account balance. Unless the participant elects to defer receipt of a distribution, the Plan must begin payments within 60 days after the close of the Plan year following the latest of: (a) the date which the participant reached normal retirement age; (b) the 10th anniversary the participant became a participant in the Plan; or (c) the date the participant terminated employment. Under certain circumstances, IRC requires distributions to participants begin no later than April 1 of the year following the date a participant reaches age 70-1/2.

Operating Expenses. Certain administrative expenses are paid by the Plan Sponsor.

Forfeited Accounts. At December 31, 2009 and 2008, forfeited non-vested accounts totaled $1,887 and $2,012, respectively. These amounts will be used to reduce future administrative expenses, with any remaining amounts used to reduce future employer contributions. Also, in 2009, administrative expenses in the amount of $125 were paid from forfeited non-vested accounts.

Note 2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through July 6, 2010, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Income and expense are recorded in the period earned and incurred, respectively.

Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits.

Benefit payments are recorded in the period in which they are distributed.

Note 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	Fair Value	Fair Value Measurement at Reporting Date Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurement at Reporting Date Using: Significant Unobservable Inputs (Level 3)
December 31, 2009			
Mutual funds	$ 3,787,070	$ 3,787,070	$ -
Guaranteed interest accounts	353	-	353
Participant loans	102,003	-	102,003
Total	$ 3,889,426	$ 3,787,070	$ 102,356
December 31, 2008			
Mutual funds	$ 2,420,351	$ 2,420,351	$ -
Guaranteed interest accounts	181	-	181
Participant loans	92,474	-	92,474
Total	$ 2,513,006	$ 2,420,351	$ 92,655

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consist of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The guaranteed interest contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurement Using Significant Unobservable Inputs (Level 3)

	Guaranteed Interest Contract	Participant Loans	Total
December 31, 2009			
Beginning balance	$ 181	$ 92,474	$ 92,655
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	-	-
Purchases, sales, issuances and settlements (net)	172	9,529	9,701
Ending balance	$ 353	$ 102,003	$ 102,356
December 31, 2008			
Beginning balance	$ 48	$ 121,390	$ 121,438
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-	-	-
Purchases, sales, issuances and settlements (net)	133	(28,916)	(28,783)
Ending balance	$ 181	$ 92,474	$ 92,655

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

Note 4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31, 2009	December 31, 2008
JH Lifestyle Growth	$ 921,776	$ 578,172
JH Lifestyle Balanced	488,727	340,590

Note 5. Information Prepared and Certified by the Custodian (Unaudited)

Investment Income:	
Net appreciation in fair value of investments	$ 884,934
Interest income from participants' loans	7,743
Interest income from guaranteed interest accounts	7
Total investment income	$ 892,684

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedules.

Note 6. Party-In-Interest Transactions

John Hancock Life Insurance Company, who is the Custodian of the Plan, manages certain Plan investments comprised of shares of mutual funds and receives fees for the services provided. Therefore, these transactions qualify as party-in-interest transactions. The fees paid by the Plan for these investment management services amounted to approximately $20,307 for the year ended December 31, 2009. All Plan assets are held by John Hancock Life Insurance Company.

Actuaries & Associates, the Third Party Administrator for the Plan, provides administrative and accounting services for the Plan. Fees paid by the Plan for these services amounted to approximately $4,282 for the year ended December 31, 2009.

Note 7. Excess Contributions Payable

Benefits distributed of $131,206 for the Plan year ended December 31, 2009, include payments of $64,936 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9. Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated September 18, 2001, that the Plan's prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's Sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 10. Risks and Uncertainties

The Plan provides for various investment options in mutual funds and cash equivalents. These types of investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, including those held by the Plan, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

ERISA regulations requires that all pension plans, including 401(k) plans, be insured by an ERISA bond that has a payout equal to 10% of plan assets or $500,000, whichever is less. As of December 31, 2009, the Plan had the required bond.
