GRUNAU COMPANY
PROFIT SHARING & SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

Note 1 DESCRIPTION OF PLAN

The following description of the Grunau Company, Inc. Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

- A. General. The Plan is a defined-contribution plan sponsored by Grunau Company, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company has appointed Marshall & Ilsley Trust Company, N.A. to be the trustee and invest the assets of the Plan.
- B. Contributions and Eligibility. All employees who are not covered by a collective bargaining unit agreement are eligible to participate in the Plan immediately upon their date of hire. Eligible employees have the option to participate in the Plan through optional salary deferral contributions and Company matching and profit sharing contributions. The salary deferral contribution can be any whole percentage of a participant's eligible earnings up to the maximum permitted by law. The Company's matching contribution is equal to the lesser of 2% of the participant's compensation or the amount of the participant's deferrals, as defined in the plan document. The Company will also make a catch-up contribution each quarter for a participant whose average rate of deferrals for the prior quarter(s) in the year was at least 2% and whose rate declined below 2%. In addition, the Company may make discretionary profit sharing contributions. To qualify for the profit sharing contribution, the participant must be a full time employee or a part-time employee who has completed at least 1,000 hours of service and be either employed on the last day of the plan year, or have died or become disabled while employed during the year, or have retired during the year after reaching age 65.
- C. Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts is based on years of continuous service. A participant becomes fully vested when employed at age 65, upon death, or disability preventing the participant from engaging in his or her current or reasonably related occupation for the employer. Termination of employment before any of the above occurs activates the following vesting schedule:

<u>Full Years of Employment</u>	<u>Vested Percentage</u>
1	25%
2	50%
3	75%
4+	100%

Forfeitures are used either to reduce the Company's contributions or, at the discretion of the Company, to pay administrative expenses of the Plan. The balance of unallocated forfeitures was approximately \$26,000 and \$6,000 at December 31, 2009 and 2008, respectively. During the year ended December 31, 2009, no forfeited nonvested accounts were used to reduce the Company's contributions or pay administrative expenses of the Plan.

- D. Participant Accounts. Each participant's account is adjusted for the participant's contributions and withdrawals, the Company's matching contributions, an allocation of the Company's profit sharing contributions, if any, and an allocation of plan earnings, losses and expenses. Allocations are based on

participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

- E. Participant Distributions. Upon retirement, death, termination or disability, a participant's account shall be distributed to the participant or beneficiary in a lump-sum payment as defined in the plan document. The Plan also allows for withdrawals by active participants who have attained the age of 59½ years. These withdrawals are subject to certain limitations. Participant distributions are recorded when paid.
- F. Plan Structure and Investment Options. Marshall & Ilsley Trust Company N.A. (M&I) manages the Plan's assets. Participants are allowed to invest in a variety of investment choices, as more fully described in the Plan's literature. All funds vary in type of investment, rate of return and investment risk. Participants may elect on a daily basis to have all or part of their account balances and future contributions transferred from one fund to another or in any combination, subject to any limitations imposed by the funds.
- G. Participant loans. Participants may apply for loans from the Plan. A participant may only take out one new loan each calendar year and may only have two loans outstanding at any time. The amount of the loans may never exceed the lesser of 50% of the total vested account balance or \$50,000. The term of a loan may not exceed five years, unless the loan qualifies as a "home loan." Outstanding loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator, which ranged from 4.25% to 9.25% at December 31, 2009. Principal and interest are paid ratably through payroll deductions.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of Accounting. The financial statements of the Plan are prepared under the accrual basis of accounting.
- B. Use of Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
- C. Administrative Expenses. Administrative expenses are paid by the Plan, unless the Company elects to pay them as provided in the plan document.
- D. Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Gains and losses on sales of securities are recorded on a trade-date basis, and unrealized gains and losses are recorded based on the fair value at the end of the reporting period. Interest income is recorded on the accrual basis. Divided income is recorded on the ex-dividend date.

Artio International Equity Fund CL A	843,967	*
Neuberger Berman Genesis Fund	*	805,921
	<u>\$10,748,569</u>	<u>\$7,738,368</u>

*Represents less than 5% of the net assets

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,469,454 as follows:

Mutual funds	\$2,358,713
Common collective trusts	110,741
	<u>\$2,469,454</u>

Note 5 FAIR VALUE MEASUREMENTS

The financial statements reflect the adoption of FASB's authoritative guidance, *Fair Value Measurements*. This guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

GRUNAU COMPANY
PROFIT SHARING & SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

The three levels of the fair value hierarchy under this guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- Common Collective Trusts. The common collective trusts are valued at the unit value as reported by the investment manager at year-end based on quoted prices for similar assets or liabilities in active markets. The fund's underlying assets consist of investment contracts and security-backed contracts.
- Mutual Funds. Mutual funds are valued at the net assets value of shares held by the Plan at year end.
- Participant Loans. Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets for a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009.

	Participant Loans

Balance - end of year	<u>\$79,738</u>

Note 6 PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7 INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 5, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Note 8 PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments include interests in common collective trusts and shares of mutual funds managed by Marshall & Ilsley Trust Company N.A. Marshall & Ilsley Trust Company N.A. is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Participant loans and transactions with the sponsor also qualify as party-in-interest transactions.

Note 9 RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities since December 31, 2009, have occurred in the near term and that such changes could have materially affected the amounts reported in the financial statements.

Note 10 FULLY BENEFIT-RESPONSIVE CONTRACTS

The financial statements reflect the adoption of FASB's authoritative guidance regarding *Reporting of Fully Benefit-Responsive Contracts Held By Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*. The Plan adopted the guidance because of its investment in the M&I Stable Principal Fund (the "Fund"). Investments held by a collective investment trust are required to be reported at fair value. However, contract value is the relevant

GRUNAU COMPANY
PROFIT SHARING & SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents investment contracts at fair value as well as an adjustment for fully benefit-responsive contracts from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

The Fund owns traditional and synthetic GIC contracts with various crediting rate formulas. Fixed rate traditional GIC contracts have no reset and are deemed to remain at par. Monthly reset traditional GIC contracts are credited off of one month LIBOR rate and a rolling twelve month Consumer Price Index (CPI). These contracts are reset monthly at a spread to their index. Contracts are deemed to be par. Monthly reset synthetic GIC contracts are credited off the internal rate of return, dollar duration, and dollar weighted duration of an underlying portfolio. The monthly reset contracts are maintained at contract value. The underlying portfolios are priced at market value. As rates rise, the market value falls versus contract value. Crediting rates will rise with a lag due to reinvestment. As rates fall, the market value will rise versus the contract value. Crediting rates will fall with a lag due to reinvestment.

The average yield earned by the entire Fund was 3.78% and 4.25% during the years ended December 31, 2009 and 2008, respectively. This average yield was calculated by dividing the annualized earnings of all investments in the Fund (irrespective of the interest rate credited to participants) by the fair value of all investments in the Fund.

The average yield earned by the entire Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund was 3.36% and 3.28% during the years ended December 31, 2009 and 2008, respectively. This average yield was calculated by dividing the annualized earnings credited to participants in the Fund (irrespective of the actual earnings) by the fair value of all investments in the Fund.

The Fund could be limited in its ability to transact with issuers at contract value if the Fund raises its risk profile or is subjected to an extended period of significant cash outflow. M&I maintains strong risk parameters and works with its issuers before any risk parameter changes are contemplated. The fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Fund manager may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the Fund losing its access to contract value transactions is remote.
