NOTE 1 DESCRIPTION OF PLAN

The following description of the Signtech 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan's sponsor is Signtech Electrical Advertising, Inc. (the "Company," "Plan Sponsor," or "Employer").

GENERAL

The Plan is a defined contribution plan established and sponsored by the Company. The Plan was established on January 1, 1990 to enable eligible employees to make pre-tax contributions to the Plan; thereby, providing employees with an opportunity to accumulate funds for their retirement. The Plan Trustee has the authority and responsibility for the management and investment of plan assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY

An employee is eligible to participate in the Plan on the first January 1, April 1, July 1, or October 1, following the completion of three consecutive months of service.

CONTRIBUTIONS

Contributions to the Plan are as follows:

1) Participants may elect to make salary deferral contributions to the Plan up to the annual limit ($16,500 in 2010 and 2009) established by the Internal Revenue Service ("IRS"). Participants greater than fifty years old may elect to make catch-up contributions in addition to the above, up to the maximum amount allowed by the IRS ($5,500 in 2010 and 2009).

2) The Plan allows for the participants in a former employer's qualified plan to contribute direct rollovers to this plan.

3) The Company may make matching contributions equal to a percentage of the participants' 401(k) elective deferral contributions. If a matching contribution is made, the Company matches contributions for all persons who were active participants at any time during that payroll period.

NOTE 1 DESCRIPTION OF PLAN (Continued)

4) The Company may also make an additional discretionary contribution which shall be allocated to each eligible participant in proportion to his or her compensation for the period while a participant. A participant is eligible if he or she is an active participant on that date and have 1,000 or more hours of service in the plan year. Discretionary contributions are divided amongst participants eligible for a share on December 31.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution, an allocation of the Company's contributions, the Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balance, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are 100% vested in their deferral contributions and rollover contributions. A participant also attains 100% vesting due to death, permanent disability, or reaching normal retirement age. Employer contributions, including earnings, vest at the following rate:

2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

PARTICIPANT LOANS

A participant may borrow from his/her 401(k) account. The loan is available only from the elective employee contributions. The amount of the loan must be a minimum of $1,000 and may not exceed the lesser of $50,000 or one half of the participant's vested account balance. The loans are secured by the balance in the participants' account and bear interest at a rate for similar loans from commercial lending institutions.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PAYMENT OF BENEFITS

The Plan provides for benefits to be distributed in periodic installments, in a lump sum, or a combination thereof, or may be deferred to a later time. Participants are entitled to receive the full value of their vested benefits when they retire, die, or become permanently disabled. Participants who terminate employment for any other reason are entitled to the value of their vested interest.

Participants may withdraw any or all of their account balances at any time during the Plan year provided certain hardship conditions, as defined in the Plan, have been met.

In the event of a mandatory distribution greater than $1,000, but no more than $5,000, in accordance with the payment provisions of the Plan, if the Participant does not elect to have such distributions paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly under any form of payment allowed under the Plan, then the distribution will be paid in a direct rollover to an individual retirement plan designated by the plan administrator. Mandatory distributions of $1,000 or less will continue to be paid in cash as directed by the plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

ADMINISTRATIVE EXPENSES

Direct fees and expenses related to the operation of the Plan may be paid with forfeitures. Expenses not covered by forfeitures are paid from plan assets.

FORFEITED ACCOUNTS

Non-vested employer contributions forfeited by terminated participants may be used for future employer matching contributions and administrative expenses. During 2010 and 2009, forfeitures totaling $7,247 and $3,972, respectively, were used to reduce employer contributions. At December 31, 2010 and 2009, there was $0 in the forfeiture account.

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee. All earnings and losses are credited directly to the participants' accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investments - Investments are valued at current market value or estimated fair value as certified by the institution that holds the Plan's assets as an investment manager and are under the custody of the Plan's trustee. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contract with Insurance Company - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. During 2010, management reviewed the contracts and it was determined that they were not benefit-responsive. At December 31, 2010, the contracts are reported at fair value. This change had an immaterial effect on the financial statements.

Fair Value Measurement - The Plan follows accounting standards consistent with the FASB codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities.

Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payments of Benefits - Benefits are recorded when paid.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes - The Plan is tax exempt under the Internal Revenue Code Section 401(A) and consequently pays no income tax.

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan follows accounting standards for uncertainty in income taxes recognized in the Plan's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or to be taken in a tax return. As of December 31, 2010 and 2009, the Plan has not accrued interest or penalties related to uncertain tax positions. The Plan files tax return is U.S. Federal jurisdiction and is not subject to examination by U.S. tax authorities for the tax years priors to 2007.

Change in Accounting Principle - The Plan has adopted ASU 2010-25 related to the Plan Accounting-Defined Contribution Plans ASC 962, reporting loans to participants by defined contribution pension plans. The purpose of the update was to clarify that participant loans should be measured and presented on the statement of net assets available for benefits as receivables rather than investments. The amendment is effective for years ending on or after December 15, 2010, and has been applied retrospectively.

Reclassifications - Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements. The reclassifications did not cause any changes to the net assets available for plan benefits.

NOTE 3 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all employees to account balances accrued to the date of the termination are fully vested and non-forfeitable.

NOTE 4 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan's investments are held by an independent administered trust fund. All the Plan's investments are held in self-directed accounts. The following is a summary of the fair value of investments that were certified by Principal Life Insurance Company, the trustee of the Plan.

NOTE 5 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 6 INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan has investment contracts with the Custodian for the guaranteed interest account. During 2009 and prior, these contracts were considered benefit-responsive. The Custodian maintains Plan contributions in an unallocated account which is part of the general assets of the Custodian. The contract is included in the financial statements at contract value as reported to the Plan by the Custodian which is substantially the same as fair value at December 31, 2009. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals or transfer of all or a portion of their investments at contract value less a surrender charge when withdrawn prior to their maturity. Total contract value at December 31, 2009 was $335,969. Total fair value at December 31, 2009 was $332,155, and is included in investments in the accompanying Statements of Assets Available for Plan Benefits.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contracts at December 31, 2009 was $335,969. The average yield of the guaranteed interest account was approximately 3.16% during the year ended December 31, 2009. The crediting interest rate was 2.75% at December 31, 2009. The crediting interest rate is based on the rate in effect when money is deposited in the account.

NOTE 6 INVESTMENT CONTRACTS WITH INSURANCE COMPANY (Continued)

During 2010, management reviewed the contracts and it was determined they were not benefit-responsive and the contracts will be reported at fair value. This had an immaterial effect on the financial statements. At December 31, 2010, the fair value of the contract was $335,405.

NOTE 7 FAIR VALUE MEASUREMENT

The Plan adopted the methods of fair value measurement to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels has been established, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Mutual Funds: Mutual fund shares are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Guaranteed Interest Account: The guaranteed interest contract with an insurance company is not actively traded and significant other observable inputs are not available and are classified as Level 3 investments. Thus, the fair value of the guaranteed interest investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

NOTE 7 FAIR VALUE MEASUREMENT (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's investments on the statement of net assets available for plan benefits measured at fair value on a recurring basis by level within the valuation hierarchy as of December 31, 2010.

	Level 1	Level 2	Level 3	Total

The 2010 and 2009 payments for excess contributions were made in March, 2011 and February, 2010, respectively.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Custodian which qualifies these transactions as party-in-interest transactions. Administrative fees incurred by the Plan to the Custodian totaled $16,165 and $10,661 for the years ended December 31, 2010 and 2009. The Company pays certain administrative fees of the Plan, which are not reimbursed. In addition, the Company provides administrative services to the Plan at no cost to the Plan.
