We were engaged to audit the accompanying statements of net assets available for benefits of the LDI Mechanical, Inc. 401(k) Retirement Savings Plan (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules as listed in the table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Hartford Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy to the best of their knowledge, of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2010 and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, except for the omission of the information discussed in the preceding paragraph, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarifies how loans to participants should be classified and measured by defined contribution pension plans. This Update was retrospectively applied to December 31, 2009.

Note 1. Plan Description

The following description of the LDI Mechanical, Inc. 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, established on September 1, 2005, is a single-employer, defined-contribution 401(k) plan covering substantially all employees of LDI Mechanical, Inc. (the Company) who have attained the minimum age of 18 years and who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has been amended at various times to comply with the laws and regulations of the Internal Revenue Service (IRS), the U.S. Department of Labor (DOL) and other tax legislation.

Contributions: Each year, participants may make salary deferral contributions up to the maximum percentage allowable under the Internal Revenue Code (IRC), and as defined in the Plan. The Plan also provides for a discretionary Company matching contribution. Participants may roll over amounts representing distributions from other qualified plans. No discretionary Company matching contributions were made during the year ended December 31, 2010.

Participant accounts: Each participant's account is credited with the participant's deferrals and allocations of (1) the Company's matching contribution, (2) Plan earnings and (3) Plan expenses. Allocations are based on eligible participant compensation or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are fully vested in their contributions and the earnings thereon. Vesting in employer contributions is based on years of continuous service. Participants are 100 percent vested in employer contributions after one year of credited service.

Payment of benefits: If a participant's employment ceases as a result of retirement (as defined by the Plan), death or disability, the participant or the participant's beneficiaries are entitled to the entire account balance. If a participant terminates for any other reason, the participant is entitled to receive only the vested percentage of the account. Benefits to which a participant is entitled under the Plan will be distributed as follows: vested account balances in excess of $5,000 will have distributions as soon as administratively feasible following the participant's employment termination date with the optional forms of payment available: (a) a lump-sum distribution of the entire vested account balance, (b) a single-sum distribution of a portion of the vested account balance or (c) installments for a specified term. Vested account balances of $5,000 or less will have distribution made in a lump sum as soon as administratively feasible following the participant's employment termination date.

Forfeitures: Forfeitures are first used to pay for Plan administrative expenses. Any remaining forfeitures are then used to reduce employer contributions to the Plan. There were approximately $14,000 and $23,000 of unallocated forfeitures remaining as of December 31, 2010 and 2009, respectively. Approximately $53,000 of forfeitures were used to pay Plan expenses during 2010.

Note 1. Plan Description (Continued)

Participant loans: Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years, or for a period up to 30 years if the loan proceeds are used to purchase a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Participants' investment options: Participants must direct their salary deferral contributions and their share of the Company's contributions into various investments as made available and determined by the Plan Administrator, which are more fully described in the Plan's literature.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Plan termination: Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

New accounting pronouncements: In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (Accounting Standards Update (ASU) 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $139,107 from investments to notes receivable as of December 31, 2009. There was no impact to the net assets as of December 31, 2010 or 2009 as a result of the adoption.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06 (ASU 10-06), *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements.* ASU 10-06 requires an entity to disclose separately the amounts of significant transfers in and out of Level 1 and 2 fair value measurements, and describe the reason for the transfers. Also, it requires additional disclosure regarding purchases, sales, issuances and settlements of Level 3 measurements. ASU 10-06 is effective for interim and annual periods beginning after December 15, 2009, except for the additional disclosure of Level 3 measurements, which is effective for fiscal years beginning after December 15, 2010. With respect to matters other than Level 3 measurements, the amendment was effective and it did not have a material impact on the Plan's financial statements. The adoption of the guidance related to Level 3 measurements is not expected to have a material impact on the Plan's disclosures.

Note 2. Summary of Significant Accounting Policies (Continued)

Valuation of investments and income recognition: Investments in insurance company pooled separate accounts are reported at a value which represents the estimated fair market value as reported to the Plan by the Plan's asset custodian, Hartford Life Insurance Company (Hartford).

Common collective trust funds are reported at estimated fair value, which has been determined based on the unit value of the funds, determined by the sponsor of the trust, using the fair value of the underlying assets.

Fair value measurements: The authoritative guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- Level 1: Quoted prices in active markets for *identical* assets or liabilities.
- Level 2: Inputs other than Level 1 that are observable, either directly or indirectly; such as quoted prices for *similar* assets or liabilities, quoted prices in markets that are not active; or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of the Plan's financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Hartford

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified or provided by the custodian, Hartford, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedules.

The Plan has investment contracts with Hartford who held contributions in pooled separate accounts. The accounts were credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses by Hartford.

The information in the following table for participant-directed investments included in these financial statements at fair value was certified by the custodian as complete and accurate to the best of its knowledge. Investments that represent 5 percent or more of the Plan's net assets as of December 31 are separately identified.

	2010	2009
Pooled separate accounts, at estimated fair value:		
American Funds Cap Wld Gr & Inc	$ 293,846	$ 367,530
The Hartford Money Market	506,445	293,890
Pimco Total Return	241,174	349,093

Participant notes receivable	112,377	139,107
	$ 2,641,028	$ 2,851,797

Hartford also certified the completeness and accuracy of $189,935 of net appreciation in fair value of investments, $57,165 of interest related to the aforementioned investments, and $7,674 of interest on participant notes receivable for the year ended December 31, 2010 to the best of its knowledge, based on the records Hartford maintains.

There were no transfers in or out of Level 1, 2 or 3 during the year ended December 31, 2010 and 2009. Participant loans totaling $139,107 were reclassified from investments to notes receivable as of December 31, 2009. As such, participant loans are not included in the tables above as of December 31, 2010 or 2009.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: The valuation of shares of pooled separate accounts are based primarily on underlying securities that have observable Level 2 pricing inputs, including quoted prices for similar assets in active or nonactive markets.

Common/collective trusts: Investments in common/collective trusts consist of assets of the SSGA S&P 500 Index Fund. SSGA S&P 500 Index Fund invests all of its investible assets in interests in the State Street 500 Index Portfolio.

Note 3. Information Certified or Provided by Hartford (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future net values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2010:

(a) This category seeks current income and capital appreciation appropriate for the asset allocation associated with its target retirement date. The Underlying Fund invests in Investment Company Funds in proportions that are balanced to meet the current target of the Fund, which will move toward preservation of capital and production of income as the target retirement date approaches. The target of the Fund changes over time, so the mix of fixed income funds and equity funds will change to reflect the periodic modifications in the Fund's target.

(b) This category invests in funds that seek a high level of current income consistent with a high-quality portfolio. Investments include investment-grade, publicly traded debt securities, and U.S. government and agency securities, including mortgage-backed securities and zero coupon securities.

(c) This category seeks long-term growth by investing in common stocks of non-U.S. companies. Investments are normally diversified across different countries and regions of the world.

(d) This category primarily invests in equity securities of U.S. companies with large market capitalization. Selected funds within this category may invest in stocks of foreign companies, convertible debt securities and real estate investments funds.

(e) This category seeks long-term growth by primarily investing in U.S. equity securities of companies with midsize market capitalization. Selected funds within this category may invest in stocks of foreign companies, U.S. and foreign preferred stocks, convertible debt securities, equity-equivalent securities, nonleveraged stock index futures and options notes, bonds and other debt securities.

Note 3. Information Certified or Provided by Hartford (Continued)

(f) This category seeks long-term growth by primarily investing in U.S. equity securities of companies with small-size market capitalization. Selected funds within this category may invest in stocks of foreign companies, U.S. and foreign preferred stocks, convertible debt securities, equity-equivalent securities, nonleveraged stock index futures and options notes, bonds and other debt securities.

(g) The investment objective of this category is to seek maximum current income consistent with liquidity and preservation of capital. This category consists entirely of cash, cash equivalents and quality debt securities.

(h) This category seeks high total return through growth of capital and current income. This category normally invests at least 80 percent of assets in securities of real estate and real estate-related companies, including real estate investment trusts (REIT). It primarily invests in equity securities. This category may invest in equity and debt securities of issuers unrelated to the real estate industry that the portfolio managers believe are undervalued and have potential for growth of capital. It may invest in non-investment grade debt securities of real estate and real estate-related issuers.

Note 4. Tax Status

On January 1, 2009, the Plan adopted a volume submitter 401(k) savings plan sponsored by Hartford, which received an IRS opinion letter dated March 31, 2008, regarding the qualification under the applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC, subject to the correction for certain operational defects discussed below, and will take all reasonable actions to maintain the Plan's qualified status.

As discussed in Notes 6 and 7, the Company filed a Voluntary Correction Program (VCP) application with the IRS, seeking relief for operational defects related to Plan operations covering 2006 through 2009 Plan years.

Note 5. Related-Party Transactions

Certain Plan investments are units of pooled separate accounts managed by Hartford. The transactions qualify as exempt party-in-interest transactions.

Note 6. Voluntary Correction and Subsequent Events

During 2010 the Plan Administrator became aware of certain possible defects in the Plan's operations involving compensation subject to 401(k) deferral withholdings, contribution limitations related to nondiscrimination testing, and early entry of participants to the Plan. The Plan Administrator submitted for relief under the VCP with the IRS in December 2010. On September 28, 2011, the Plan Administrator received an approval of substantially all of the correction methods proposed. This resulted in no changes to any prior years' financial statements.

Note 7. Nondiscrimination Testing Failures and Corrections

The Plan Administrator also discovered in 2010 that the Plan failed certain nondiscrimination tests during multiple Plan years. As a result, the Plan should have refunded certain amounts to highly compensated participants within 12 months of the year in which the tests were failed. During 2010 the Plan Sponsor made corrective distributions to all affected highly compensated participants for all prior years, which was approved by the IRS in connection with the VCP filing discussed in Note 6. The Plan has accrued $264,188 at December 31, 2010 and 2009 for corrective contributions receivable due from the Plan sponsor, which will be deposited to the Plan in 2011 and allocated to non-highly compensated participants' accounts to complete the corrections as approved by the IRS.

Note 8. Prohibited Transactions

During 2009, 2008, 2007, 2006 and 2005, the Plan Sponsor inadvertently failed to deposit certain participant deferrals within the time frame required by DOL regulations. The DOL considers late deposits to be prohibited transactions. The Plan Sponsor filed Form 5330 and paid applicable excise tax in 2011 on the lost earnings related to these late deposits. The excise tax payments were made from the Plan Sponsor's assets and not from assets of the Plan. Additionally, lost earnings totaling $3,453 on the late deposits were deposited to the Plan in October 2010.

Independent Auditor's Report

To the Plan Administrator
LDI Mechanical, Inc. 401(k)
Retirement Savings Plan
Corona, CA

We were engaged to audit the accompanying statements of net assets available for benefits of the LDI Mechanical, Inc. 401(k) Retirement Savings Plan (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedules as listed in the table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Hartford Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy to the best of their knowledge, of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2010 and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, except for the omission of the information discussed in the preceding paragraph, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarifies how loans to participants should be classified and measured by defined contribution pension plans. This Update was retrospectively applied to December 31, 2009.

Note 1. Plan Description

The following description of the LDI Mechanical, Inc. 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, established on September 1, 2005, is a single-employer, defined-contribution 401(k) plan covering substantially all employees of LDI Mechanical, Inc. (the Company) who have attained the minimum age of 18 years and who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has been amended at various times to comply with the laws and regulations of the Internal Revenue Service (IRS), the U.S. Department of Labor (DOL) and other tax legislation.

Contributions: Each year, participants may make salary deferral contributions up to the maximum percentage allowable under the Internal Revenue Code (IRC), and as defined in the Plan. The Plan also provides for a discretionary Company matching contribution. Participants may roll over amounts representing distributions from other qualified plans. No discretionary Company matching contributions were made during the year ended December 31, 2010.

Participant accounts: Each participant's account is credited with the participant's deferrals and allocations of (1) the Company's matching contribution, (2) Plan earnings and (3) Plan expenses. Allocations are based on eligible participant compensation or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are fully vested in their contributions and the earnings thereon. Vesting in employer contributions is based on years of continuous service. Participants are 100 percent vested in employer contributions after one year of credited service.

Payment of benefits: If a participant's employment ceases as a result of retirement (as defined by the Plan), death or disability, the participant or the participant's beneficiaries are entitled to the entire account balance. If a participant terminates for any other reason, the participant is entitled to receive only the vested percentage of the account. Benefits to which a participant is entitled under the Plan will be distributed as follows: vested account balances in excess of $5,000 will have distributions as soon as administratively feasible following the participant's employment termination date with the optional forms of payment available: (a) a lump-sum distribution of the entire vested account balance, (b) a single-sum distribution of a portion of the vested account balance or (c) installments for a specified term. Vested account balances of $5,000 or less will have distribution made in a lump sum as soon as administratively feasible following the participant's employment termination date.

Forfeitures: Forfeitures are first used to pay for Plan administrative expenses. Any remaining forfeitures are then used to reduce employer contributions to the Plan. There were approximately $14,000 and $23,000 of unallocated forfeitures remaining as of December 31, 2010 and 2009, respectively. Approximately $53,000 of forfeitures were used to pay Plan expenses during 2010.

Note 1. Plan Description (Continued)

Participant loans: Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years, or for a period up to 30 years if the loan proceeds are used to purchase a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Participants' investment options: Participants must direct their salary deferral contributions and their share of the Company's contributions into various investments as made available and determined by the Plan Administrator, which are more fully described in the Plan's literature.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Plan termination: Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

New accounting pronouncements: In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (Accounting Standards Update (ASU) 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $139,107 from investments to notes receivable as of December 31, 2009. There was no impact to the net assets as of December 31, 2010 or 2009 as a result of the adoption.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06 (ASU 10-06), *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements.* ASU 10-06 requires an entity to disclose separately the amounts of significant transfers in and out of Level 1 and 2 fair value measurements, and describe the reason for the transfers. Also, it requires additional disclosure regarding purchases, sales, issuances and settlements of Level 3 measurements. ASU 10-06 is effective for interim and annual periods beginning after December 15, 2009, except for the additional disclosure of Level 3 measurements, which is effective for fiscal years beginning after December 15, 2010. With respect to matters other than Level 3 measurements, the amendment was effective and it did not have a material impact on the Plan's financial statements. The adoption of the guidance related to Level 3 measurements is not expected to have a material impact on the Plan's disclosures.

Note 2. Summary of Significant Accounting Policies (Continued)

Valuation of investments and income recognition: Investments in insurance company pooled separate accounts are reported at a value which represents the estimated fair market value as reported to the Plan by the Plan's asset custodian, Hartford Life Insurance Company (Hartford).

Common collective trust funds are reported at estimated fair value, which has been determined based on the unit value of the funds, determined by the sponsor of the trust, using the fair value of the underlying assets.

Fair value measurements: The authoritative guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- Level 1: Quoted prices in active markets for *identical* assets or liabilities.
- Level 2: Inputs other than Level 1 that are observable, either directly or indirectly; such as quoted prices for *similar* assets or liabilities, quoted prices in markets that are not active; or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of the Plan's financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Hartford

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified or provided by the custodian, Hartford, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedules.

The Plan has investment contracts with Hartford who held contributions in pooled separate accounts. The accounts were credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses by Hartford.

The information in the following table for participant-directed investments included in these financial statements at fair value was certified by the custodian as complete and accurate to the best of its knowledge. Investments that represent 5 percent or more of the Plan's net assets as of December 31 are separately identified.

	2010	2009
Pooled separate accounts, at estimated fair value:		
American Funds Cap Wld Gr & Inc	$ 293,846	$ 367,530
The Hartford Money Market	506,445	293,890
Pimco Total Return	241,174	349,093

Participant notes receivable	112,377	139,107
	$ 2,641,028	$ 2,851,797

Hartford also certified the completeness and accuracy of $189,935 of net appreciation in fair value of investments, $57,165 of interest related to the aforementioned investments, and $7,674 of interest on participant notes receivable for the year ended December 31, 2010 to the best of its knowledge, based on the records Hartford maintains.

There were no transfers in or out of Level 1, 2 or 3 during the year ended December 31, 2010 and 2009. Participant loans totaling $139,107 were reclassified from investments to notes receivable as of December 31, 2009. As such, participant loans are not included in the tables above as of December 31, 2010 or 2009.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: The valuation of shares of pooled separate accounts are based primarily on underlying securities that have observable Level 2 pricing inputs, including quoted prices for similar assets in active or nonactive markets.

Common/collective trusts: Investments in common/collective trusts consist of assets of the SSGA S&P 500 Index Fund. SSGA S&P 500 Index Fund invests all of its investible assets in interests in the State Street 500 Index Portfolio.

Note 3. Information Certified or Provided by Hartford (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future net values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2010:

(a) This category seeks current income and capital appreciation appropriate for the asset allocation associated with its target retirement date. The Underlying Fund invests in Investment Company Funds in proportions that are balanced to meet the current target of the Fund, which will move toward preservation of capital and production of income as the target retirement date approaches. The target of the Fund changes over time, so the mix of fixed income funds and equity funds will change to reflect the periodic modifications in the Fund's target.

(b) This category invests in funds that seek a high level of current income consistent with a high-quality portfolio. Investments include investment-grade, publicly traded debt securities, and U.S. government and agency securities, including mortgage-backed securities and zero coupon securities.

(c) This category seeks long-term growth by investing in common stocks of non-U.S. companies. Investments are normally diversified across different countries and regions of the world.

(d) This category primarily invests in equity securities of U.S. companies with large market capitalization. Selected funds within this category may invest in stocks of foreign companies, convertible debt securities and real estate investments funds.

(e) This category seeks long-term growth by primarily investing in U.S. equity securities of companies with midsize market capitalization. Selected funds within this category may invest in stocks of foreign companies, U.S. and foreign preferred stocks, convertible debt securities, equity-equivalent securities, nonleveraged stock index futures and options notes, bonds and other debt securities.

Note 3. Information Certified or Provided by Hartford (Continued)

(f) This category seeks long-term growth by primarily investing in U.S. equity securities of companies with small-size market capitalization. Selected funds within this category may invest in stocks of foreign companies, U.S. and foreign preferred stocks, convertible debt securities, equity-equivalent securities, nonleveraged stock index futures and options notes, bonds and other debt securities.

(g) The investment objective of this category is to seek maximum current income consistent with liquidity and preservation of capital. This category consists entirely of cash, cash equivalents and quality debt securities.

(h) This category seeks high total return through growth of capital and current income. This category normally invests at least 80 percent of assets in securities of real estate and real estate-related companies, including real estate investment trusts (REIT). It primarily invests in equity securities. This category may invest in equity and debt securities of issuers unrelated to the real estate industry that the portfolio managers believe are undervalued and have potential for growth of capital. It may invest in non-investment grade debt securities of real estate and real estate-related issuers.

Note 4. Tax Status

On January 1, 2009, the Plan adopted a volume submitter 401(k) savings plan sponsored by Hartford, which received an IRS opinion letter dated March 31, 2008, regarding the qualification under the applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC, subject to the correction for certain operational defects discussed below, and will take all reasonable actions to maintain the Plan's qualified status.

As discussed in Notes 6 and 7, the Company filed a Voluntary Correction Program (VCP) application with the IRS, seeking relief for operational defects related to Plan operations covering 2006 through 2009 Plan years.

Note 5. Related-Party Transactions

Certain Plan investments are units of pooled separate accounts managed by Hartford. The transactions qualify as exempt party-in-interest transactions.

Note 6. Voluntary Correction and Subsequent Events

During 2010 the Plan Administrator became aware of certain possible defects in the Plan's operations involving compensation subject to 401(k) deferral withholdings, contribution limitations related to nondiscrimination testing, and early entry of participants to the Plan. The Plan Administrator submitted for relief under the VCP with the IRS in December 2010. On September 28, 2011, the Plan Administrator received an approval of substantially all of the correction methods proposed. This resulted in no changes to any prior years' financial statements.

Note 7. Nondiscrimination Testing Failures and Corrections

The Plan Administrator also discovered in 2010 that the Plan failed certain nondiscrimination tests during multiple Plan years. As a result, the Plan should have refunded certain amounts to highly compensated participants within 12 months of the year in which the tests were failed. During 2010 the Plan Sponsor made corrective distributions to all affected highly compensated participants for all prior years, which was approved by the IRS in connection with the VCP filing discussed in Note 6. The Plan has accrued $264,188 at December 31, 2010 and 2009 for corrective contributions receivable due from the Plan sponsor, which will be deposited to the Plan in 2011 and allocated to non-highly compensated participants' accounts to complete the corrections as approved by the IRS.

Note 8. Prohibited Transactions

During 2009, 2008, 2007, 2006 and 2005, the Plan Sponsor inadvertently failed to deposit certain participant deferrals within the time frame required by DOL regulations. The DOL considers late deposits to be prohibited transactions. The Plan Sponsor filed Form 5330 and paid applicable excise tax in 2011 on the lost earnings related to these late deposits. The excise tax payments were made from the Plan Sponsor's assets and not from assets of the Plan. Additionally, lost earnings totaling $3,453 on the late deposits were deposited to the Plan in October 2010.

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C*, this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan's product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction. Of this amount, our records indicate that Hartford Life Insurance Company received **$5,948.70** . Please review your records to determine what other service providers (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, plan auditor) received all or any portion of the remaining amount.

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Hartford Life Insurance Company are the net result of aggregating direct compensation after the effects of adjustments processed in 2010, some of which may have pertained to prior years.

2. Indirect Compensation

Float compensation **$36.47**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.1415% for 2010) earned on the bank accounts and investment associated with the short-term investment pool for the 2010 calendar year multiplied by an estimate of the assets related to uncashed checks. This estimate does not include float earned for any other reason (e.g., if amounts remitted to Hartford cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.
