Independent Accountants' Report

Plan Administrator
AF Holding Company & Subsidiaries Retirement Plan
Sullivan, Illinois

We have audited the accompanying statements of net assets available for benefits of AF Holding Company & Subsidiaries Retirement Plan (Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of AF Holding Company & Subsidiaries Retirement Plan, as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

AF Holding Company & Subsidiaries Retirement Plan

Notes to Financial Statements

December 31, 2009 and 2008

Note 1: Description of the Plan

The following description of the AF Holding Company & Subsidiaries Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the plan administrator.

General

The Plan is a defined contribution plan covering all full-time employees of AF Holding Company & Subsidiaries (Company) who have at least six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Hartford Life Insurance Company – Retirement Plans Group is the custodian of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 50% of eligible compensation. Employee rollover contributions are also permitted.

Each year, the Company may make matching contributions of up to 5% of the employees' compensation. In 2009 and 2008, the Company contributed 2%. Company profit sharing contributions are equal to 3% of each employees' eligible compensation. Contributions are subject to certain limitations.

Participant Investment Account Options

Participants direct the investment of their contributions as well as the Company's contribution into various investment options offered by the Plan. The Plan currently offers eighteen mutual funds and a common/collective trust fund as investment options for the participants. Each participant has the option of directing all contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, plan earnings, and forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested in the Company contributions after 6 years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are allocated among active participants based upon compensation.

Payment of Benefits

Upon termination of service, participants may elect to receive a lump-sum amount or installments equal to the value of their account. At December 31, 2009 and 2008, there were no Plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $7,332 and $82,781, respectively. These accounts will be used to reduce future employer contributions/reallocated to participants in the same manner as employer contributions. Also, in 2009, employer contributions were reduced by $82,647 from forfeited nonvested accounts.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

AF Holding Company & Subsidiaries Retirement Plan

Notes to Financial Statements

December 31, 2009 and 2008

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end. The Plan's interest in the common/collective trust is valued based on information reported by the investment advisor using the financial statements of the common/collective trust at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Plan Tax Status

The Plan obtained its latest determination letter on October 10, 2007, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2006.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 4: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. For these investments, the inputs used by the pricing service to determine fair value my include, one, or a combination of; observable inputs such as benchmark yields, reported trades, broker/dealer quotes, benchmark securities, bids, offers and reference data market research publications and are classified within Level 2 of the valuation hierarchy. Level 2 investments include the common/collective trust fund. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan has no such investments.

	$ 13,838,238	$ 11,388,867	$ 2,449,371	$ -

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are shares of mutual funds managed by The Hartford Retirement Services, LLC, the custodian of the Plan.

The Plan incurs expenses related to general administration and record keeping. The Company pays these expenses and certain accounting and auditing fees relating to the Plan.

Note 6: Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 7: Plan Amendments

Effective January 1, 2009 the Plan was amended to modify various Plan elements. A participant who is a member of a reserve component of the armed forces of the United States may withdraw all or a portion of his before-tax account and Roth contributions account as a qualified reservist distribution if he has been ordered or called to active duty for a period in excess of 179 days or for an indefinite period. If all or any portion of a distribution during calendar year 2009 is treated as an eligible rollover distribution but would not be so treated if the minimum distribution requirements had applied during calendar year 2009, such distribution shall not be treated as an eligible rollover distribution. A distributee also includes the employee or former employee's nonspouse beneficiary under the Plan. Temporary suspension of required minimum distributions is in effect for calendar year 2009. Minimum distributions for calendar year 2008 shall still be paid, even if paid in calendar year 2009.

Effective January 2010, in the case of an eligible rollover distribution to a nonspouse beneficiary, an eligible retirement plan means an inherited individual retirement account.

Effective January 1, 2008, the Plan was amended to define and address matters relating to the addition of the "Basic Employer Contribution", which is a non-elective contribution paid at an amount equal to 3% of the compensation of each eligible participant. It was also amended to redefine total compensation after severance from employment.

Effective for Plan years beginning after December 31, 2008, "Differential Wage Payments" shall be treated as compensation for purposes of determining Plan benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through July 15, 2010, which is the date the financial statements were available to be issued.
