## 1. Description of Plan

The following description of the Matagrano Inc. (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

*General* – The Plan is a 401(k) defined contribution plan covering employees who have completed three months of service and have also attained age 18. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

*Contributions* – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company contributes an amount equal to 100% of each participant's elective deferrals not exceeding 3% of the participant's compensation, plus an additional amount with the total contributed not to exceed 5% of the participant's compensation. Additionally, the Company makes a discretionary contribution for the plan year which is allocated based on assigned Allocation Groups as of the last day of the plan year.

*Participant Accounts* – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

*Vesting* – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested after four years of credited service.

1. **Description of Plan** – (continued)

*Participant Loans* – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.50%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

*Payment of Benefits* – On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. These benefits shall be paid as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

*Forfeited Accounts* – At December 31, 2009 and 2008, forfeited nonvested accounts totaled $744 and $6,763, respectively. These accounts will be used to reduce future employer contributions. In 2009, forfeitures from nonvested accounts were used to reduce employer contributions by $6,085.

2. **Summary of Significant Accounting Policies**

*Basis of Accounting* – The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. **Summary of Significant Accounting Policies** – (continued)

*Use of Estimates* – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

*Investments Valuation and Income Recognition* – Investments are reported at fair value except for its benefit-responsive investment contract, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

*Payment of Benefits* – Benefits are recorded when paid.

*Operating Expenses* – All expenses of maintaining the Plan are paid by the company.

3. **Fair Value Measurements**

FASB ASC 820-35-5, *Fair Value Measurements,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

*Level 1 Fair Value Measurements* – The fair values of mutual funds are based on the net asset value (NAV) of shares held by the Plan at year end.

3. **Fair Value Measurements** – (continued)

*Level 2 Fair Value Measurements* – The Plan did not hold any level 2 investments.

*Level 3 Fair Value Measurements* -

Participant loans are valued at amortized cost, which approximates fair value.

The guaranteed investment contract with a bank is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

4. **Unaudited Information Certified by the Plan Trustee**

The December 31, 2009 and 2008 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009 and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $5,474,316 and $3,644,935, respectively, and related income of $1,046,866 for the year ended December 31, 2009.

4. **Unaudited Information Certified by the Plan Trustee** – (continued)

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by American Trust & Savings Bank and Citigroup Institutional Group Trust Company, regarding the current value of assets held at December 31, 2009 and 2008, and transactions entered into for the year ended December 31, 2009, was used in the preparation of the accompanying financial statements and supplemental schedule. The following table includes the fair values of investments that represent 5% or more of the Plan's net assets at December 31:

| | 2009 | 2008 |
|---|---|---|
| American Trust Large Cap Core | $ 740,364 | $ 497,569 |
| T Rowe Large Cap Growth | 633,337 | 386,786 |
| Templeton Foreign Equity | 586,879 | 299,145 |
| American Trust Intermed Bond | 499,150 | 289,573 |
| Vanguard Wellington | 494,053 | 512,703 |
| Pimco Total Return INSTL | 410,696 | - |
| American Beacon Large Cap Val | 365,449 | 240,220 |
| American Trust Stable Value | - | 484,740 |

During 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $1,120,225 as follows:

| | |
|---|---|
| Mutual Funds | $ 1,046,866 |
| Participant Loan Interest | 10,925 |
| Dividends | 62,434 |
| | $ 1,120,225 |

## 5. Investment Contract with Bank

The Plan has a benefit responsive investment contract with Invesco Stable Value Trust (Invesco). Invesco maintains the contributions in a common collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administration expenses. The contract is included in the financial statements at contract value as reported to the Plan by Invesco. Contract value represents contributions made under the contract, plus earning, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Invesco, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $231,132 and $0, respectively. The crediting interest rate is based on agreed upon formula with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Invesco. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the plan's ability to transact at contract value with plan participants, is probable.

5. **Investment Contract with Bank** – (continued)

The guaranteed investment contract does not permit the trust to terminate the agreement prior to the scheduled maturity date.

| | 2009 | 2008 |
|---|---|---|
| Average Yields: | | |
| Based on Actual Earnings | 3.96% | N/A |
| Based on Interest Rate credited to participants | 3.96% | N/A |

6. **Related Party Transactions**

Certain Plan investments were managed by the trustees, custodian and record-keepers of the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of the party-in-interest transactions under ERISA. Fees paid by the Plan for the investment management services amounted to $5,800 for the year ended December 31, 2009.

7. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

8. **Tax Status**

The Plan obtained its latest determination letter dated May 19, 1998, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

## 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## 10. Subsequent Events

Management has evaluated subsequent events through July 7, 2010, the date which the financial statements were available to be issued, and determined there were no reportable events.
