The Plan Administrator
Dean Baldwin Painting 401(k) Profit Sharing Plan:

We were engaged to audit the accompanying statement of net assets available for benefits of the Dean Baldwin Painting 401(k) Profit Sharing Plan as of December 31, 2010, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and the supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2009, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the other auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by Transamerica Financial Life Insurance Company, the custodian of the Plan. Their report, dated October 12, 2010, indicated that (a) because of the significance of the information they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) for the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Financial Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the 2010 financial statements and the supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the 2010 information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and the supplemental schedules taken as a whole. The form and content of the information included in the 2010 financial statements and the supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of plan

The following description of the Dean Baldwin Painting 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan which was adopted to provide retirement benefits for employees of Dean Baldwin Painting, LP (the "Plan Sponsor"). The Plan covers substantially all full-time employees, except union members and non-resident aliens, who are age eighteen or older and have completed three months of service ("participants"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Participants may voluntarily make qualified retirement contributions up to 100% of their eligible compensation, as defined in the plan agreement, up to the maximum amount allowable under the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan also provides that the Plan Sponsor may contribute each year an amount authorized by the Plan Sponsor's Board of Directors; however, an annual profit-sharing contribution by the Plan Sponsor is not required. Participants must have one year of service to qualify for the contribution. Participants must also be employed on the last day of the Plan's year to receive a profit-sharing contribution, except in the event of the participant's death, disability, or retirement. No profit-sharing contributions were made by the Plan Sponsor during 2010.

(c) Participant accounts

Each participant's account is credited (charged) with the participant's contributions, and allocations of Plan Sponsor contributions, plan earnings (losses), and administrative expenses. Allocations are based on participant compensation or account balance as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their elective salary deferral plus actual earnings (losses) thereon. Vesting in the Plan Sponsor's profit-sharing contribution is based on years of continuous service. Participants vest 20% in year two and 20% each year thereafter until fully vested after six years of credited service.

(e) Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at fixed rates ranging from 4.25% to 6.00%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are collected ratably through payroll deductions.

(f) Payment of benefits

On termination of service including death, permanent disability, or retirement, a participant may elect to receive either a lump-sum payment, an annual installments over a specified period or a partial withdrawal equal to his or her entire account. For termination of service due to other reasons, a participant will be entitled to receive only the vested interest in his or her account as a lump-sum distribution.

(g) Forfeited accounts

Forfeitures are created when participants terminate employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures reduce the Plan Sponsor's contributions to the Plan.

(h) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's salary deferral account balance, including rollovers if the participant is younger than age 59½. If the participant has attained age 59½, hardship withdrawals may be distributed from the participant's entire account balance.

(i) Administrative expenses

Certain Plan administrative expenses are paid by the Plan while all other expenses are paid by the Plan Sponsor.

(j) Amendments

No significant amendments were made to the Plan during 2010 and 2009.

(k) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(2) Summary of significant accounting policies

(a) Recently adopted accounting standards

In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. The Plan adopted the amendments in ASU 2010-25, which have been applied retrospectively throughout the Plan's financial statements. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 clarified that disclosures should be presented separately for each class of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. The Plan adopted ASU 2010-06 for the Plan year ending December 31, 2010 which did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

(b) Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

(c) Investment valuation and income recognition

Investments are stated at fair value as reported by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

(d) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(e) Payment of benefits

Benefits are recorded when paid.

(f) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(g) Reclassifications

Certain items in the 2009 financial statements have been reclassified to conform to the presentation of the 2010 financial statements. These reclassifications had no effect on net assets available for benefits or changes therein, as previously reported.

(h) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2010 and October 14, 2011, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by custodian

The following information was certified as complete and accurate by Transamerica Financial Life Insurance Company, custodian, as of December 31, 2010 and 2009, and for the year ended December 31, 2010.

	2010	2009
Investments, at fair value	$ 285,196	$ 292,598
Net change resulting from investment activity	$ 27,974	

Notes receivable from participants and interest income from notes receivable from participants were not included in the custodian's certification.

(4) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset's at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

(i) *Pooled separate accounts*: Valued at net asset value, which is based on the market value of the underlying investments held by the pooled separate account at year end. The net asset value is not a publicly-quoted price in an active market. Each pooled separate account provides for daily redemptions by the Plan at reported net asset values per share with no advance notice requirement.

(ii) *Investment contract*: Valued at contract value, which approximates fair value, based on the amount the Plan Sponsor would receive if the contract was terminated as of the reporting date, which is book value less an early withdrawal charge, discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The investment contract provides for daily redemption. See Note 6 for additional contract provisions of the investment contract.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Fair Value Measurements as of December 31, 2010 using the following inputs			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Large/mid growth equity	$ -	$ 5,034	$ -	$ 5,034

Total	$ -	$ 262,577	$ 30,021	$ 292,598

The following table provides a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
Balance at December 31, 2009	$ 30,021
Unrealized gains relating to instruments still held at the reporting date	647
Purchases, sales, issuances and settlements, net	9,605
Balance at December 31, 2010	$ 40,273

(5) Investments and investment income

The fair value of investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009 are as follows:

	2010	2009
Transamerica Stable Value Advantage Fund	$ 40,273	$ 30,021
SSgA Bond Index	**	$ 15,522
Vanguard Target Retirement 2010 Fund	**	$ 16,066
Vanguard Target Retirement 2040 Fund	$ 15,658	$ 15,921
Transamerica AA - Moderate Fund	$ 95,301	$ 79,584
Transamerica AA - Moderate Growth Fund	$ 18,791	$ 28,917
Transamerica AA - Growth	$ 22,969	**

** Investment does not represent 5% or more of the Plan's net assets for the respective year.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	$ 27,327
Investment contract	$ 647

(6) Investment contract with insurance company

The Plan has entered into a benefit-responsive investment contract with an insurance company, Transamerica Financial Life Insurance Company. The insurance company maintains the Plan's contributions in a pooled account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value, which approximates fair value, of the investment contract was $40,273 and $30,021 as of December 31, 2010 and 2009, respectively. The average yield and crediting interest rate were approximately 2.97% and 3.45% for 2010 and 2009, respectively.

The earnings of the investment contract are based on the interest rate applied to each participant's outstanding balance. The interest rates are reviewed and are reset by the insurance company quarterly. The establishment of the guaranteed interest rate requires estimation of the future earnings rates, the rate at which existing investments mature, and future cash flow.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(7) Income tax status

The Plan Sponsor adopted a prototype plan, which received a favorable opinion letter from the Internal Revenue Service ("IRS") on May 30, 2008, which stated that the prototype plan was designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS stating that the Plan is qualified under Section 401(a) of the IRC. However, the plan administrator believes that the adopted prototype plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and is therefore, qualified and exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(8) Untimely remittance of participant contributions

The Plan Sponsor is required by Department of Labor regulation to remit participant contributions and participant loan repayments as soon as practicable, but by no later than the fifteenth business day following the end of the month in which the amounts were withheld from wages. For certain contributions withheld in 2010, the funds were not remitted timely. Interest income applicable to these contributions has been calculated and contributed to the Plan in 2010.

(9) Related party transactions

Certain Plan investments are units of pooled separate accounts and an investment contract managed by Transamerica Life Insurance Company, the custodian of the Plan and qualify as party-in-interest transactions. In 2010, fees of $8,825 were paid by the Plan to Transamerica Financial Life Insurance Company.

(10) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	$ 308,828	$ 302,451
Less - difference in notes receivable from participants	(239)	(2,923)
Less - miscellaneous difference	-	(107)
Net assets available for benefits per the Form 5500	$ 308,589	$ 299,421

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010:

Change in net assets available for benefits per the financial statements	$ 6,377
Differences in notes receivable from participants	2,791
Change in net assets available for benefits per the Form 5500	$ 9,168

(11) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(12) Subsequent event

Effective October, 2011, the Plan merged into the 401(K) Advantage 401K Plan.
