INDEPENDENT AUDITORS' REPORT

To the Administrators
Chuck Patterson, Inc.
401(k) Profit Sharing Plan
Chico, California

We have audited the accompanying statement of net assets available for benefits of Chuck Patterson, Inc. 401(k) Profit Sharing Plan, as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

During the course of our audit, it was found that valuation techniques used to measure the fair value of plan assets were not disclosed. This is a required disclosure, and its omission is a departure from generally accepted accounting principles.

The plan has not disclosed sufficient information to identify the net assets, significant components of the changes in net assets, and the types of investments for the nonparticipant-directed portions of the plan. This is a required disclosure, and its omission is a departure from generally accepted accounting principles.

In our opinion, except for the omission of valuation techniques used to measure fair value of assets, as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Chuck Patterson, Inc. 401(k) Profit Sharing Plan, as of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO THE FINANCIAL STATEMENTS
Years Ended December 31, 2010 and 2009

1. DESCRIPTION OF PLAN

The following description of the Chuck Patterson, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to $15,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 25% of the first $2,000 of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts: At December 31, 2010 and 2009 forfeited non-vested accounts totaled $12,816 and $6,380 respectively. These accounts will be used to reduce future employer contributions to the plan.

Operating expenses: With the exception of administrative and investment fees, all expenses associated with maintaining the Plan are paid by the Plan Sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements:

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting: The financial statements of the plan are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Reclassifications: Certain reclassifications have been made to the 2009 financial statement presentation to correspond to the current year's format. Total equity and net income are unchanged due to these reclassifications

3. CASH

An analysis of cash at December 31, 2010 and 2009 is as follows:

	2010	2009
Wilmington Trust - non-interest bearing cash	$ -	$ 14,540
Morgan Stanley - non-interest bearing cash	4,751	-
Total Cash	$ 4,751	$ 14,540

4. INVESTMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS (CONTINUED)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Although this is a required disclosure for the years ended December 31, 2010 and 2009, and Plan assets are already reported at fair value, the Plan will not be disclosing the valuation techniques for its assets. With the exception of the Guaranteed Investment Contract, the following is a summary of investments reported at fair value. Investments representing 5 percent or more of the Plan's net assets are separately identified. The following investments were held at December 31, 2010, and 2009 respectively:

	2010	2009
Investments at fair value:		
Interest bearing cash	$ 3,468	$ 7,716
Equity securities	1,733,285	1,578,349
Collective trusts	2,184,155	1,857,107
Guaranteed investment contract, at contract value	308,021	380,970
TOTAL INVESTMENTS	$ 4,228,929	$ 3,824,142

During 2010, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Equity securities	122,455
Collective trust	394,998
NET CHANGE IN FAIR VALUE	$ 517,453

5. GUARANTEED INVESTMENT CONTRACT

The Plan includes a benefit-responsive investment contract with Wilmington Trust Fiduciary Services Company Collective Investment Trust for Employee Benefit Plans (The Trust). The Trust maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As noted above, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by The Trust, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $261,989 and $328,248, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

5. GUARANTEED INVESTMENT CONTRACT (CONTINUED)

Certain events limit the Plan's ability to transact at contract value with The Trust. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with plan participants, is probable.

The guaranteed investment contract does not permit termination of the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings	4.55%	0.62%
Based on interest rate credited to participants	0.75%	0.57%

6. PARTICIPANT LOANS

A summary of participant loans due to the plan at December 31, 2010 and 2009 are as follows:

	2010	2009
Loans to participants	$ 129,815	$ 143,175

7. LIABILITY FOR EXCESS EMPLOYER CONTRIBUTIONS

During the plan year ended December 31, 2008, the plan sponsor over contributed its employer matching contributions by $4,432. The excess contribution for the year will be used to reduce future employer contributions. A summary of liability for excess employer contributions due from the plan at December 31, 2010 and 2009 are as follows:

	2010	2009
Liability for excess employer contributions	$ -	$ 2,981

8. NET ASSETS AVAIALBLE FOR BENEFITS

Net assets available for benefits at December 31, 2010 include $59,263 allocated to the accounts of persons who as of or prior to that date had withdrawn from participating in the earnings and operations of the plan. The $59,263 is payable to the former participants in January of 2011.

9. RELATED PARTY TRANSACTIONS

The following related parties conducted transactions with the Plan during the years ended December 31, 2010 and 2009:

Charles H. Patterson, chairman and majority shareholder of Chuck Patterson, Inc., is a co-administrator and a participant in the Plan. Total payments to Charles H. Patterson for 2010 and 2009 were $35,811 and $27,223, respectively.

Sharon L. Patterson, director of Chuck Patterson, Inc., is a participant in the Plan. Total payments to Sharon L. Patterson for 2010 and 2009 were $2,575 and $2,070, respectively.

Michael Q. Patterson, chief operating officer and director of Chuck Patterson, Inc., is a participant in the Plan. During 2010 and 2009, no payments were made to Michael Q. Patterson.

Patrick C. Patterson, officer and director of Chuck Patterson, Inc., is a co-administrator and participant in the Plan. During 2010 and 2009, no payments were made to Patrick C. Patterson.

10. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions under ERISA.

11. TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor by letter dated March 31, 2008 that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

13. SUBSEQUENT EVENTS

Subsequent events were evaluated through October 14, 2011, which is the date the financial statements were available to be issued.
