Independent Auditor's Report

To the Trustees of
Span Construction & Engineering, Inc.
401(k) Retirement Plan and Trust
Madera, California

We were engaged to audit the accompanying statements of net assets available for benefits of Span Construction & Engineering, Inc. 401(k) Retirement Plan and Trust as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in notes C and D, which was certified by Principal Financial Group, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A. Description of Plan

The following description of the Span Construction & Engineering, Inc. (the company) 401(k) Retirement Plan and Trust (the plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the plan's provisions.

1. *General*

The plan is a defined contribution plan covering substantially all full-time employees of Span Construction and Engineering, Eagle Building Systems, King Curb and Freedom Management (all of which are wholly owned by Firoz Husein) who have twelve months of service with greater than or equal to one-thousand hours and are age twenty-one or older on the first day of the plan year. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company's former Profit Sharing Plan has been converted into the current plan, with all assets of the Profit Sharing Plan intact.

2. *Contributions*

Participant contributions are subject to specific dollar limitations as set forth in the Internal Revenue Code. Participants who attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from qualified defined benefit or defined contribution plans.

Participants direct the investment of their contributions into various mutual fund options offered by the Principal Financial Group.

The Company may make discretionary matching contributions to the plan on behalf of each participant. In 2010, the Company made a $50,000 contribution to the plan.

On January 1, 2009 the plan was amended to allow for Qualified Non-Elective Contributions made by the company for employees who perform services under the Costco Prevailing Wage agreement. Under the agreement, employees generally receive $1 per hour for each hour of service worked on qualifying Costco Prevailing Wage jobs. Employees that work on qualifying Costco Prevailing Wage jobs located in California or Washington shall receive employer contributions at rates of $4.22, $2.44, $1.33 and $1.00 per hour for those earning wages of $18.00, $19.78, $20.89 and $22.00 an hour, respectively. In 2010 the Company made Prevailing Wage Contributions of $163,077 to the plan.

A. Description of Plan (Continued)

3. *Participants' Accounts*

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant vested account balances in proportion to the balances of all participants' accounts.

4. *Vesting*

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested in the profit sharing contribution portion of their account after six years of credited service. A participant is vested immediately in the employer Qualified Non-Elective Contributions made under the Costco Prevailing Wage agreement.

5. *Notes Receivable from Participants*

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 6.75 percent to 8.00 percent. Principal and interest is paid ratably through weekly payroll deductions.

6. *Payment of Benefits*

On termination of service for any reason, a participant may elect to receive an amount equal to the value of the participant's vested interest. Upon termination of employment, the non-vested portion of a participant's employer account will be forfeited and remain in the plan.

7. *Forfeited Accounts*

At December 31, 2010 and 2009 forfeited nonvested accounts totaled $1,318 and $120 respectively. These accounts may be used to reduce future employer contributions.

B. Summary of Significant Accounting Policies

1. *Basis of Accounting*

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. *Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

4. *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

5. *Payment of benefits*

Benefits are recorded when paid.

B. Summary of Significant Accounting Policies (Continued)

6. Operating Expenses

Third party administration fees and audit fees (required under the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA)) are paid by the company.

Investment advisory fees and commissions are paid by the plan.

7. Subsequent Events

The plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

C. Investments

The following presents investments that represent five percent or more of the plan's net assets.

	December 31,	
	2010	2009
Principal Global Investors Money Market Fund	$396,368	$423,692
Principal Lifetime 2030 Fund	220,247	-
Principal Global Investors Large-Cap Index Fund	219,215	162,873
Goldman Sachs/LA Capital Mgmt. Mid-Cap Fund	139,564	112,687
Turner/Mellon Cap. Mgmt. Mid-Cap. Gr. III Fund	176,995	126,463
Principal Global Investors Intl. Emerge. Mkt. Fund	364,805	292,928

During 2010, the plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $284,385.

D. Fair Value Measurement

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
	If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

- *Guaranteed Investment Contracts:* Valued at fair value, which is the value of the accounts when funds are paid prior to the contract maturity date (note E).
- *Mutual Funds:* Valued at the net asset value (NAV) of shares held by the plan at year end.

D. Fair Value Measurement (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at fair value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

Level 3 gains and losses

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2010.

	Level 3 assets Year ended December 31, 2010	
	Guaranteed Investment Contract	Total
Balance, beginning of year	$99,403	$99,403
Purchases, sales, issuances, and settlements (net)	(9,658)	(9,658)
Interest income	2,747	2,747
Total Assets at fair value	$92,492	$92,492

E. Guaranteed Investment Contracts with Principal Financial

The plan has several benefit-responsive guaranteed investment contracts with Principal Financial Group ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was $92,492 and $99,403, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

F. Related Party Transactions

1. *Trustee*

   Certain plan investments are shares of mutual funds managed by the Principal Financial Group. The Principal Financial Group is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for investment management services amounted to $21,818 for the year ended December 31, 2010.

2. *Plan Sponsor*

   The company paid $6,257 in 2010 on behalf of the plan for audit services required under the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

G. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of the plan's termination, participants will become 100 percent vested in the plan's assets.

H. Tax Status

Although the plan has not requested a determination letter from the Internal Revenue Service, the plan has been based on a prototype, and the employer believes the plan is designed and is currently being operated in compliance with the applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

I. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
