We were engaged to audit the financial statements of S.S. White Employees 401(k) Savings Plan as of December 31, 2010 and 2009, and for the years then ended, and the supplemental schedule as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010, and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN:

The following brief description of the S.S. White Employees 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General:

The Plan is a defined contribution plan that covers all eligible employees. The Plan was established by S.S. White Technologies, Inc. and Subsidiaries (the "Company") to provide supplemental retirement benefits to its employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

All employees of the Company are eligible to participate in the Plan as of the first day of the month following 90 days of service. The Company has automatic enrollment in the Plan with 3% contributed each payroll period on behalf of the participant. Funds are invested in a targeted retirement portfolio based on projected retirement at 65 and can be changed at the participant's discretion.

B. Contributions:

Participants may contribute a percentage of their pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Matching contributions are at the discretion of the Board of Directors. From January 1, 2009 through April 22, 2009, the Company matched 12.5% of employee contributions. From April 22, 2009 through November 11, 2010, the Company suspended matching employee contributions. From November 11, 2010 through December 31, 2010, the Company matched 12.5% of employee contributions.

The Company may also make an additional discretionary profit-sharing contribution to the Plan for those employees with at least 1,000 hours of service and are employed on the last day of the plan year. For the years ended December 31, 2010 and 2009, the Company made no additional discretionary contributions.

C. Participant Accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

NOTE 1 - DESCRIPTION OF PLAN: (Continued)

D. Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions and discretionary profit sharing contribution, if any, are based on years of continuous service as follows:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years, but less than 3	20%
3 years, but less than 4	40%
4 years, but less than 5	60%
5 years, but less than 6	80%
6 years or more	100%

E. Notes Receivable from Participants:

Participants may borrow from their vested account balance. The loan amount may not exceed the lesser of one-half of the vested balance or $50,000, with a minimum loan amount of $1,000. Loans must be repaid in equal installments consisting of principal and interest over a period not to exceed five years, unless the loan is used to purchase a primary residence, in which case the term is longer as determined at the time the loan is made.

The loans are secured by the participant's vested account balance and currently bear interest at the prime rate plus 1%. Rates ranged from 4.25% to 6.25% and 4.25% to 10% at December 31, 2010 and 2009, respectively.

F. Payment of Benefits:

Upon retirement, disability or termination of service, a participant with a vested balance in excess of $5,000 may elect to receive a lump-sum distribution, substantially equal installments, a partial withdrawal, an annuity, or to rollover the balance to another retirement plan. If no election is made, the Plan administrator may automatically distribute balances below $1,000 to the participant in a lump-sum, or rollover balances between $1,000 and $5,000 to an individual retirement account.

G. Forfeitures:

Forfeitures from non-vested participant accounts are used to pay any outstanding administrative expenses and then reduce future Company contributions. During the years ended December 31, 2010 and 2009, forfeitures of $4,147 and $0, respectively, were used to reduce the Company's contributions. At December 31, 2010 and 2009, the Plan had forfeitures of $7,334 and $10,475, respectively, available to offset administrative expenses or reduce future Company contributions.

NOTE 1 - DESCRIPTION OF PLAN: (Continued)

H. Administrative Expenses:

It is expected that the Company will provide direct payment of substantially all administrative expenses of the Plan that are not covered by forfeited account balances. However, certain asset-based, distribution and loan origination fees, shown as administrative expenses on the financial statements, are deducted from participant account balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Basis of Accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as one and the same, see Note 5.

B. Use of Estimates:

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, additions to net assets and deductions from net assets. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

C. Investment Valuation and Income Recognition:

The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

D. Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

E. Payment of Benefits:

Benefits are recorded when paid.

F. Subsequent Events:

The Plan has evaluated all events and transactions that occurred after December 31, 2010 for potential recognition or disclosure through October 14, 2011, the date the financial statements were available to be issued. Financial statements are considered available to be issued when they are complete in a form and format that complies with generally accepted accounting principles and all approvals necessary for issuance have been obtained.

G. Financial Statement Reclassification:

Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2010-25 was issued in September 2010 and requires that loans to participants be classified as notes receivable from participants rather than as investments, as previously required. As a result, loans to participants and applicable interest income have been reclassified from investments and net investment income in the prior year financial statements in order to be in conformity with the current year presentation.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009; the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009; Note 4 - Investments; and the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2010, except for participant loans.

NOTE 4 - INVESTMENTS:

The following presents investments that represent 5% or more of that Plan's net assets:

	2010	2009
Transamerica Stable Value Advantage Option	1,517,943	1,508,999
Vanguard Target Retirement 2020 Ret Opt	287,894	237,712
Vanguard Target Retirement 2035 Ret Opt	322,645	255,938
Janus Adviser International Growth Ret Opt	307,107	248,950

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan entered into a benefit-responsive investment contract with Transamerica Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in a general account. The account is credited with contracted interest rate and is a general obligation of Transamerica and is therefore considered fairly valued at contract value. The contract is included in the statements of net assets available for benefits at fair value which is equivalent to contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2010 and 2009 was $1,517,943 and $1,508,999, respectively. The average yields for this investment contract for the years ended December 31, 2010 and 2009 is as follows:

	2010	2009
Based on Actual Earnings	3.15%	3.49%

The crediting interest rate is based on a formula agreed upon with the issuer, but there is no stated minimum or maximum. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Transamerica. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009. The following methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment Contract with Insurance Company - The stable value advantage option is backed by the general account of the issuer. The account is credited with contracted interest and is a general obligation of Transamerica and is therefore considered fairly valued at contract value. The issuer guarantees that all qualified participant withdrawals will occur at contract value (principal plus accrued interest) (see Note 5).

Pooled Separate Accounts - The value of the units held in pooled separate accounts are based on quoted market prices of the underlying investments and are based on the net asset value of the shares held by the Plan at year end.

NOTE 6 - FAIR VALUE MEASUREMENTS: (Continued)

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE 7 - RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of pooled separate accounts managed by Transamerica Retirement Services. Transamerica Life Insurance Company is the trustee of the Plan and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment management services amounted to $20,344 and $19,858 for the years ended December 31, 2010 and 2009, respectively.

NOTE 8 - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 - TAX STATUS:

The Internal Revenue Service ruled on March 31, 2008 that the Non-Standardized prototype plan of Transamerica Financial Life Insurance Company, qualifies under Section 401(a) of the Internal Revenue Code ("IRC") and the related trust is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. The Plan has submitted a request for its' own determination letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 10 - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
