Independent Auditor's Report

To The Plan Administrator and Participants
New York Blower Company Profit Sharing Plan and Trust

We were engaged to audit the financial statements of the New York Blower Company Profit Sharing Plan and Trust (Plan) as of December 31, 2010 and 2009, and for the years then ended and the supplemental schedule as of December 31, 2010 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Orchard Trust Company, LLC, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following description of the New York Blower Company Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Effective December 29, 2010 the assets of the TLT-Babcock, Inc. 401(k) Plan and Trust, and the Leitner Fabrication, LLC 401(k) Plan were transferred to this Plan in connection with plan mergers. The assets transferred to the Plan totaled $15,596,253.

(a) General

The Plan is a defined contribution plan covering all full-time non-union, salaried or clerical employees of The New York Blower Company, NYB Process Fans, Inc., Mechanovent Corporation, TLT Babcock, Inc., MAS Air Systems, LLC, and Leitner Fabrication, LLC (collectively Company) who have met the eligibility requirements set forth in the Plan. Entry into the plan is on the first day of the calendar quarter after becoming eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is a "safe harbor" 401(k) plan.

(b) Contributions

Participants may elect to contribute a portion of their compensation on a pre-tax and/or after-tax (i.e. Roth) basis in accordance with Internal Revenue Code Section 401(k). Participants may also contribute rollover distributions from other qualified benefit plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Voluntary pre-tax and after-tax employee contributions are matched ("safe harbor" match) by the Company at a rate of 100 percent for the first four percent of employee compensation contributed and 50 percent of the next two percent.

The Plan also provides for discretionary profit sharing and matching contributions, in excess of "safe harbor" matching contributions, by the Company to the Plan.

(c) Participant Accounts

To the extent any of the following occur, each participant's account is credited with the participant's contribution, employer "safe harbor" and discretionary matching contributions and an allocation of (a) the Company's discretionary profit sharing contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. To be eligible to receive an allocation of any discretionary profit sharing contribution from the Company, the participant must be employed with the Company on the last day of each calendar quarter. Also, the participant must have completed one month of service as defined by the Plan.

(d) Investment Options

Participants direct the investment of their contributions and the Company contributions into various investment options offered by the Plan. Participants can also elect to invest a portion of their assets into a self-directed brokerage account that provides access to a wide array of individual stocks, bonds, and mutual funds.

(e) Payment of Benefits

Upon termination of service, a participant or beneficiary may elect to receive either a lump-sum amount equal to the value of his or her vested interest in their account, various annuities or installments over a period not exceeding the life expectancy of the participant or joint lives of the participant and beneficiary. In-service distributions of all or part of a participant's vested account balance is allowed after attaining age 59 ½. If the value of the vested benefit does not exceed $1,000, the Plan may distribute the participant's vested benefit without the participant's consent. Effective December 29, 2010 under certain conditions as defined in the Plan participants may receive a hardship distribution from employee deferrals and earnings thereon.

(f) Vesting

Participants are immediately vested in their voluntary pre-tax and after-tax contributions, rollover contributions and employer safe harbor and other discretionary matching contributions plus actual earnings thereon. Vesting in Company discretionary profit sharing contributions plus earnings thereon is based on years of continuous service. A participant vests 20% per year and is 100 percent vested after five years of service, upon retirement at or after age 65, death or total disability. A year of service is earned in years in which at least 1,000 hours are worked.

(g) Notes Receivable from Participants

Participant may borrow from their account balance a minimum of $1000 up to the maximum equal to the lesser of $50,000 or 50 percent of their aggregate vested balance. Loans are collateralized by the balance in the participant's account and bear interest at rates that range from 3.25% to 9.00%. The interest rate charged to new loan participants is prime + 1%. Each loan shall have a repayment period of 12-60 months unless the loan is used to purchase a principal residence which can have repayment period of up to 180 months. Principal and interest is paid ratably through payroll deductions. If the participant terminates employment, the balance of the outstanding loan will become due and payable immediately. In the event the loan is not repaid, it will be treated as a taxable distribution to the participant.

(h) Forfeitures

Forfeited accounts are first made available to reinstate previously forfeited account balances for former participants. The remaining forfeitures are to be allocated to participant's accounts as additional Company discretionary contributions. At December 31, 2010 and 2009, unallocated forfeitures totaled approximately $2,300 and $36,200 respectively. Approximately $ 44,000 and $66,000 of forfeitures were allocated to participants during the years ended December 31, 2010 and 2009, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) New Accounting Pronouncements

During 2010, the Plan adopted the Financial Accounting Standards Board (FASB) guidance on Reporting Loans to Participants by Defined Contribution Pension Plans, which requires that participant loans be classified as notes receivable and be measured at unpaid principal balance plus accrued but unpaid interest. Previously participant loans were classified as plan investments, and were subject to certain fair value measurement and disclosure requirements, now no longer required. Participant loans in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

(c) Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts in common/collective trust funds and group annuity contracts held by a defined contribution plan are required to be reported at fair value. However, for group annuity contracts which are fully benefit responsive and for common/collective funds which hold fully benefit responsive investment contracts, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value is the invested principal plus accrued interest.

The 2009 statement of net assets available for benefits presents the fair value of the common/collective trust fund as well as the adjustment of the fully benefit-responsive investment contracts held in that fund from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis. As the fair value of the group annuity contract approximates contract value there is no adjustment from fair value to contract value in the 2010 statement of net assets available for benefits.

A fully benefit responsive investment contract is a contract between an insurance company, a bank, a financial institution, or any financially responsible entity, with a plan or common/collective trust fund owned by a plan that provides for a stated return on principal invested over a specific period and that permits withdrawals at contract value for benefit payments, loans, or transfers to other investment options offered to the participant by the Plan. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Average yields for the group annuity contract for the year ended December 31, 2010 are as follows:

	2010
Based on interest rate credited to participants	2.490%
Based on actual earnings	2.530%

Average yields for the common/collective trust fund for the year ended December 31, 2009 are as follows:

	2009
Based on interest rate credited to participants	3.887%
Based on actual earnings	3.099%

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company.

(g) Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after that date (that is, non-recognized subsequent events).

The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued, and determined that there were no significant non-recognized subsequent events through that date.

(3) Tax Status

The Company adopted a Volume Submitter Profit Sharing Plan from Orchard Trust Company, LLC. This plan received a determination letter from the Internal Revenue Service on March 31, 2008 stating that the plan as then designed, was in compliance with applicable requirements of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net income or loss to the date of termination, less any distribution expenses and liquidation costs, shall be distributed proportionately to the participants' accounts and participants shall become 100% vested in and be entitled to receive the value of their respective accounts. The Company can elect, upon termination of the Plan, to continue the plan trust and make distributions to participants until all such distributions are made.

(5) Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Orchard Trust Company, LLC (Trustee) has certified that the Plan's investments, notes receivable from participants, interest and dividends, interest on notes receivable from participants, and net appreciation in fair value of investments as reported to the Plan and included in the accompanying financial statements and supplemental schedule are complete and accurate as of December 31, 2010 and 2009 and for the years then ended.

(6) Investments

The individual investments which represent 5% or more of the Plan's net assets as of December 31 are as follows:

		2010	2009	
American Funds Growth Fund of America	$	3,029,189	2,641,467	
Pimco Total Return Adm Fund		3,048,683	1,729,959	
Pioneer Cullen Value Fund A		2,713,429	1,667,512	
Great West Group Annuity Contract – Key Guaranteed Portfolio Fund		7,575,890	*	
Davis NY Venture Fund		*	2,327,560	
Invesco IRT Stable Value Fund		*	3,730,248	**
Thornburg International Value Fund		*	1,291,385	
Royce Micro Cap, Inv		*	1,195,078	

* Less than 5% of Plan's net assets

** Contract value

The net appreciation in fair value of investments of $1,776,423 and $3,667,655 in 2010 and 2009, respectively, is entirely attributable to mutual funds held by the Plan.

(7) Fair Value Measurements

Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trust fund: Valued using the net asset value (NAV) as provided by the fund administrator. The NAV is calculated by dividing the total value of the underlying assets held by the fund, minus its liabilities, by the total number of shares outstanding of the fund. Synthetic guaranteed investment contracts are portfolios of securities (debt securities or units of collective trusts) owned by the trust fund with wrap contracts associated with the portfolios. The value of debt securities and units of collective trusts are described below. The fair value of wrap contracts is determined based on the change in the present value of the contract's replacement cost. Short-term securities held by the trust fund are valued at amortized cost. Investments in affiliated and unaffiliated collective trusts are valued at the respective NAV's as reported by such trusts. Debt securities are valued on the basis of valuations provided by an independent pricing service.

Group Annuity Contract: The group annuity contract is an investment contract with an insurance company that is fully benefit responsive. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Self-directed brokerage accounts: Valued at quoted fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the market value of investment securities will occur in the near term and that such changes could be material to the amounts reported in the statements of net assets available for benefits.

(9) Related Party Transactions

Certain plan investments are managed by Great West Life and Annuity Insurance Company, an affiliate of Orchard Trust Company, LLC, the trustee and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

(10) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2010 and December 31, 2009:

		2010	2009

The New York Blower Company Profit Sharing Plan and Trust
EIN: 36-1545150

Plan Year Ended: December 31, 2010
Filing ID Number (Ack ID): 20111014182201P030149373153001

To Whom it May Concern:

This letter is being provided in response to the Notice of Rejection of the Form 5500 Annual Report for the above referenced plan dated December 7, 2011. The Notice indicates that our filing was rejected due to the Accountant's Opinion, audited financial statements and accompanying footnotes (the "audit report") not being included with the filing.

We completed the required audit of the above referenced plan in advance of the filing and attempted to attach a .pdf copy of the audit report with our filing. We initially experienced difficulties in getting the EFAST2 system to accept our filing, and we suspect that the modifications to our electronic filing made to facilitate acceptance by the EFAST2 system in some way deleted this attachment.

We have re-filed the Form 5500 Annual Report, including the audit report, within the required timeframe as specified in the Notice.

Sincerely,

Frederick Prohammer
The New York Blower Company
