Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Merrick & Company 401(k) and Employee Stock Ownership Plan
Aurora, Colorado

We were engaged to audit the statements of net assets available for benefits of Merrick & Company 401(k) and Employee Stock Ownership Plan (the "Plan") as of March 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended March 31, 2011, and the supplemental schedule as of March 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of March 31, 2011 and 2010, and for the year ended March 31, 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of the Plan

The following description of Merrick & Company 401(k) and Employee Stock Ownership Plan (the "Plan") provides only general information. Participants and all others should refer to the Summary Plan Description or Plan document for a more complete description of the Plan's provisions.

General

The Plan was established by Merrick & Company (the "Company"), effective April 1, 1983, and amended and restated effective April 1, 2007, for the benefit of its employees and their beneficiaries under Section 401(a) of the Internal Revenue Code ("IRC"). Substantially all Company employees are eligible to participate in the Plan on the first day of the month following their date of hire or the first day of employment if it coincides with the first day of the month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Directors of the Company has appointed a Board of Trustees to administer the Plan and act as trustee. Charles Schwab Trust Company ("Schwab") provides custodial and accounting services. Accounting and recordkeeping for participant accounts are performed by Milliman, Inc. ("Milliman"). Cook Street Consulting provides investment consulting services and considers itself a co-fiduciary to the Plan.

Effective April 1, 2009, the Plan was amended. The amendment changed the Plan in several respects. First, it changed the employer matching formula to be 100% of participants' elective deferrals up to 3% of each participant's compensation. Secondly, it allowed the matching source, for matching contributions made after March 31, 2009, to invest in Company common stock and be directed by the Company. The amendment also included updated participant account descriptions to reflect certain operational updates and definitions.

The Plan was amended on October 27, 2010, to include a Roth 401(k) investment option for participants effective January 1, 2011. These amendments to the Plan also added some technical language changes to comply with the provisions of the Pension Protection Act of 2006; the Heroes Earnings Assistance and Relief Tax Act of 2008; and the Worker, Retiree, and Employer Recovery Act of 2008.

ESOP Contributions, Vesting, and Distributions

The ESOP portion of the Plan is a non-contributory plan that is funded by the Company with discretionary contributions of cash, Company common stock, or both. The amount of the contribution is determined annually by the Company's Board of Directors.

Allocation of ESOP contributions to participants is determined, at the discretion of the Board of Trustees, either (i) pro rata based on total eligible compensation, as defined in the Plan document, or (ii) per capita based on equal dollar amounts. Forfeitures of non-vested ESOP contributions may be added to the Company's non-elective ESOP contribution for the Plan year in which the forfeiture occurred. Forfeitures are allocated to the remaining active participants in the same manner as ESOP contributions. Forfeited amounts allocated to participants totaled $84,332 for the year ended March 31, 2011. The Plan holds unvested funds for a terminated employee up to five years after his termination date. After the five-year period, the funds are forfeited and available for allocation to remaining participants.

Note 1 - Description of the Plan (continued)

ESOP Contributions, Vesting, and Distributions (continued)

Amounts contributed by the Company to the ESOP portion of the Plan, including reallocated forfeitures, if any, vest according to the following schedules:

For any employee who first became a participant prior to April 1, 2007, the following vesting schedule shall apply:

Years of Service	Vested Interest
Less than 5	0%
5	100%

For any employee who first became a participant (or any participant who is employed) on or after April 1, 2007, the following vesting schedule shall apply:

Years of Service	Vested Interest
Less than 3	0%
3	100%

In accordance with applicable requirements of the IRC, ESOP contributions made after 1986, which are solely invested in Merrick & Company common stock and its earnings, are paid in cash to terminated employees prior to the end of the sixth Plan year following separation of service at the fair value at the time of payment. Terminated employees with vested balances between $1,000 and $5,000 will be required to take a full distribution into an Individual Retirement Account ("IRA"), unless they elect to receive such distribution in cash. Terminated employees with vested balances less than $1,000 are required to take a cash distribution, unless a rollover to an IRA or qualified retirement plan is elected. Participants who are at least age 55 and complete 10 years of participation in the Plan also qualify for an in-service diversification option. All other investments in the ESOP contribution account will be payable upon attainment of normal retirement age (age 65), disability, or death.

401(k) Contributions and Vesting

For the 401(k) portion, participants are automatically enrolled at 4% salary deferral contributions, but may elect contributions ranging from 0% to 100% of their compensation, not to exceed the Internal Revenue Service's ("IRS") determined maximum deferral for the Plan year. Deferral contributions to the Plan are made through regular payroll deductions and are deposited into the investment options selected by the participant on a bi-weekly basis. Participants may also contribute rollover contributions from other qualified plans or rollover IRAs.

Note 1 - Description of the Plan (continued)

401(k) Contributions and Vesting (continued)

For the year ended March 31, 2011, the Company matched 100% of the first 3% of participant deferrals. The Plan also provides for discretionary matching contributions by the Company, determined annually. For the year ended March 31, 2011, the Company did not contribute a discretionary matching contribution. Participants are 100% vested in their 401(k) contributions, Company matching contributions, and earnings on both at all times.

401(k) Investment Options

Investments in Plan participants' salary deferral accounts and contributions to the matching accounts made prior to April 1, 2009, are held and custodied by Schwab and are invested in one or more of various available funds based on election by the participants. If a participant fails to make an investment election, he is invested in the Plan's default fund. Investment options offered by the Plan are selected by the Plan's Board of Trustees based on the recommendations of the Plan's investment consultant, Cook Street Consulting, in accordance with the Plan's investment policy. Investment amounts within each fund are at the discretion of each participant who may access his account and change future investment allocations or reallocate current investments by calling a telephone hotline or logging on to the Plan's website maintained by Milliman.

401(k) Loans to Participants

Participants may borrow from their salary deferral accounts, contributions to the matching accounts made prior to April 1, 2009, and rollover accounts, if any, a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Loans are permitted for a term of up to 5 years, or up to 15 years if used to acquire, construct, or substantially rehabilitate the participant's principal residence, with a maximum of two active loans allowed. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1% at the inception of the loan. Interest rates on loans outstanding as of March 31, 2011, ranged from 4.25% to 9.25%, and maturity dates range from April 2011 through November 2025. Principal and interest are paid ratably through bi-weekly payroll deductions.

401(k) Distributions to Participants

Distributions are available upon retirement, disability, death, attainment of age 59 1/2, or termination of employment. Distributions from accounts involving employer securities are subject to certain limitations and restrictions. See the Plan's distribution policy for details. In addition, financial hardship distributions are permitted, subject to certain restrictions. Distributions are payable in lump sum only and are recorded when paid.

Note 1 - Description of the Plan (continued)

Voting Rights

With respect to any corporate matter which involves the voting of shares held in the Plan's trust at a shareholder meeting and which constitutes a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business or similar transaction specified in regulations under Section 409(e)(3) of the IRC, each participant will be entitled to direct the Board of Trustees with respect to the vote of the shares of Company stock allocated to his or her account. For all other purposes, all shares of Company stock held in the Plan's trust shall be voted in a manner determined by the Board of Trustees.

Put Options

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. The Company is permitted to make ESOP distributions in the form of cash rather than Company stock subject to a put option in light of the ownership restriction in the Company's Articles of Incorporation and the Company's bylaws limiting ownership of shares of Company stock primarily to employees and the ESOP.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. A participant who is at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of his account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his account. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may transfer the proceeds from their stock into one or more of the investments offered in the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts shall become 100% vested and payable in one lump sum in cash or stock.

Subsequent Events

The Plan has evaluated all subsequent events from March 31, 2011 through October 7, 2011, which is the date the Plan financial statements were available to be issued.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Recent Accounting Pronouncements

In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which requires participant loans to be classified as loans receivable and measured at unpaid principal balance plus accrued but unpaid interest. Previously, these participant loans were classified as Plan investments and were subject to the fair value measurement and disclosure requirements of Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures*. As permitted under ASU No. 2010-25, the Plan has retrospectively adopted ASU No. 2010-25 for the Plan years ending March 31, 2011 and 2010. The adoption of ASU No. 2010-25 did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued ASU No. 2010-06, *Improving Disclosures about Fair Value Measurements*. This guidance requires additional disclosure of transfers of assets and liabilities between Levels 1 and 2 of the fair value hierarchy and disclosure of activities on a gross basis including purchases, sales, issuances, and settlements in the reconciliation of the assets and liabilities measured under Level 3 of the fair value hierarchy. This standard also clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. ASU No. 2010-06 was effective for the Plan's year ended March 31, 2011, except for the disclosure requirements on Level 3 activity that will be effective for the Plan's year ending March 31, 2012. The adoption of this standard did not have a material impact on the Plan's financial statements.

Valuation of Investments

The Plan's investments in mutual and money market funds are stated at fair value based on quoted closing market prices. Investment transactions are recorded on a trade-date basis. The net appreciation or depreciation in the fair value of investments includes both realized and unrealized gains and losses. Dividends are recorded on the ex-dividend date.

Note 2 - Significant Accounting Policies (continued)

Valuation of Investments (continued)

As prescribed by the guidance of the FASB, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts as the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. The Plan invests in investment contracts through the Schwab Stable Value Fund, a common and collective trust fund. Contract value for this common and collective trust fund is based on the net asset value of the fund, as reported by Schwab, the Plan's custodian. The accompanying statements of net assets available for benefits presents fair value of the investment contracts. At March 31, 2011 and 2010, because the fair value approximates contract value, the adjustment of the fully benefit-responsive investment contracts from fair value to contract value was not presented.

The Company stock held by the Plan is presented at fair value at the financial statement dates as determined by an independent appraiser. The Plan held 177,881 shares at March 31, 2011 and 2010. The price per share for sale and repurchase is established by an independent appraiser and is approved by the Plan's Board of Trustees annually. The fair value per share presented in the accompanying financial statements was $69.40 and $53.95 at March 31, 2011 and 2010, respectively.

Fair Value Accounting

The Plan follows GAAP guidance related to fair value measurements, which establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of March 31, 2011 and 2010.

Ending balance	$ 12,344,941

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments which are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Because of the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Additionally, certain investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Administrative Fees

Plan provisions provide that the Company may, at its sole discretion, pay any or all administrative fees of the Plan. During the year ended March 31, 2011, all fees customarily allowed by law were paid from Plan assets.

Note 3 - Information Certified by the Custodian

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing such information to information included in the accompanying financial statements and supplemental schedule.

The Plan administrator has obtained a certification from Schwab as of March 31, 2011 and 2010, and for the year ended March 31, 2011, as to the completeness and accuracy of investments and certain other assets, along with the income earned thereon, as reflected in the accompanying financial statements and supplemental schedule, except for the Company common stock, which was valued by an independent third party as discussed in Note 2.

The fair value of investments greater than 5% of net assets available for benefits at March 31, 2011, (excluding loans and receivables) were as follows:

Merrick & Company Common Stock	$ 12,344,941	*
Europacific Growth Fund R4	4,509,295	
Vanguard 500 Index Signal	4,158,249	
PIMCO Total Return Institutional Fund	3,897,934

Davis New York Venture A Fund	2,847,782	
All other investments - individually less than 5%	12,584,230	
	$ 46,380,851	

The fair value of investments greater than 5% of net assets available for benefits at March 31, 2010, (excluding loans and receivables) were as follows:

Merrick & Company Common Stock	$ 9,596,680	*
Europacific Growth Fund R4	4,159,344	
PIMCO Total Return Institutional Fund	3,794,958

	$ 38,565,153	

* Non-participant-directed investment

Note 4 - Tax Status

The Plan has received a tax determination letter dated October 7, 2010, from the IRS. This letter states that the Plan, as amended, is qualified and the trust established under the Plan is tax-exempt, under appropriate sections of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The statute of limitations in closed for the Plan's U.S. federal annual tax returns for fiscal years ending on or before March 31, 2007.

Note 5 - Differences Between Financial Statements and Form 5500

Receivables, employee contributions, employer contributions, and distributions to participants for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended March 31, 2011. These differences are due to certain accruals of receivables paid to the Plan subsequent to year-end and benefits payable on the Form 5500 which are not accrued under GAAP.

Note 6 - Party-in-Interest Transactions

Plan investments include a money market fund and a common and collective trust fund managed by Schwab. Schwab serves as the custodian; therefore, transactions in these investments qualify as party-in-interest transactions. In addition, Plan investments include shares of the Company's common stock. The Company is the Plan's sponsor; therefore, these transactions qualify as party-in-interest transactions.
