General

The Plan is a defined contribution plan, covering all full time employees of the Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a safe harbor plan and all employees are eligible to participate upon hire.

Contributions

Participants may elect to defer income and contribute up to the maximum amount allowed under the Internal Revenue Code. Matching contributions equal to a percentage of participant contributions are made by the Corporation up to a maximum of 4%. The Corporation's matching contribution was \$563,171 for the period ended October 5, 2009. The Corporation may also elect to contribute a discretionary contribution each year to the Plan as determined by its Board of Directors. There was no Corporation discretionary contribution for 2009. The combined maximum addition to a participant's account cannot exceed the lesser of 100% of the participant's compensation or \$49,000 for 2009. Rollover contributions from other qualified plans are permitted by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's matching contribution and an allocation of (a) the Corporation's discretionary contribution (if any) and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participant accounts are self directed.

Participants are vested immediately in their contributions plus actual earnings thereon. In addition, participants are also immediately vested in the employer matching contributions.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or annual installments over the life expectancy of the participant.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Merger

On September 30, 2009, the Board of Directors of Prologic, Inc., approved the merger of this Plan into the Ultra Plan 401(k) Profit Sharing Plan, effective October 1, 2009. As a result, all investments in mutual funds were transferred from the Plan into the Ultra Plan on October 5, 2009.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. The net appreciation (depreciation) in the market value of investments is based on the beginning of the year market value or value at the time of purchase during the year and is included in the statement of changes in net assets available for benefits.

All Plan assets were transferred to the Ultra Plan on October 5, 2009.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Substantially all operating expenses of maintaining the plan are paid by the Corporation.

Subsequent Events

Management has evaluated subsequent events through July 27, 2010, the date which the financial statements were available to be issued.

NOTE 4. TAX STATUS

The Internal Revenue Service has determined and informed the Corporation by a letter dated November 19, 2001, that the Plan as then designed is in compliance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value at December 31, 2008.

Mutual funds: Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to
