Plan Administrator
The Hunt Corporation Retirement Savings Plan
Scottsdale, Arizona

We were engaged to audit the accompanying statements of net assets available for benefits of The Hunt Corporation Retirement Savings Plan ("Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company and Merrill Lynch Trust Company FSB, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions as of and for the year ended December 2009 and from October 1, 2008 to December 31, 2008, and that Merrill Lynch Trust Company FSB held the Plan's investment assets and executed investment transactions for the period January 1, 2008 to September 30, 2008. The Plan Administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, and for the period January 1, 2008 to September 30, 2008, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of The Hunt Corporation Retirement Savings Plan (Plan) provides only general information. Participants and others should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Hunt Corporation (the Company, Plan Sponsor and Plan Administrator) established the 401(k) Profit Sharing Plan for qualifying employees effective July 1, 1998. The Plan was amended and restated effective January 1, 2001. The Plan Administrator has appointed an Advisory Committee to assist in the administration of the Plan. The purpose of the Plan is to provide retirement income and other benefits to eligible employees of the Company. Any salaried employee of the Company or a participating employer and any hourly employee of the employer or a participating employer who is classified as an office and/or field engineer hourly employee, but excluding a craft hourly employee is eligible to participate in the Plan. Eligible employees may participate in the Plan on the first day of the month following employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 75 percent of their pretax annual compensation as defined in the Plan, limited to a maximum as established by the Internal Revenue Code. Participants may also contribute amounts representing qualified rollovers from other qualified plans. The Company may match all or a portion of the participants' pretax contributions through employer matching contributions up to the first 2 percent of the participant's eligible compensation. The Company may also make discretionary contributions to the Plan. These contributions are allocated based on a formula derived from age, years of vested service and compensation. These contributions are subject to certain limitations under the federal tax law.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, allocations of employer discretionary contributions and allocations of the Plan's earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled, is the benefit that can be provided from the participant's vested account. All amounts in the participant accounts are participant-directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and discretionary portion of their accounts is based on years of service. For matching contributions, participants become 20 percent vested after two years service, 40 percent vested after three years service, 60 percent vested after four years service and 100 percent vested after five years service. For discretionary contributions, participants become 100 percent vested after five years of service.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Participant Loans

A Plan participant may apply for a loan from the amounts held in the participant's account attributable to the participant's vested contributions. The loan request must qualify according to guidelines outlined in the Plan, and loan repayments are required to be made by payroll deductions. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through semi-monthly and bi-weekly payroll deductions.

Forfeitures

Forfeited non-vested accounts are used by the Company to reduce matching contributions.

Payments of Benefits

Upon termination of service, death, disability or retirement, a participant may receive a lump sum amount equal to the vested value of his or her account. Normal retirement age under the Plan is 62 years or 5 years of service, whichever is later.

Investment Funds

Participants may direct their investments in the Plan to various mutual funds.

Administrative Expenses

All of the Plan's administrative expenses are paid by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Contributions

Participant contributions are recorded as additions to net assets available for benefits when withheld from the employees' earnings. The discretionary employer contributions are recorded as additions to net assets available for benefits when the amount is determined to be payable. Forfeited nonvested amounts are used to reduce future employer contributions.

Recently Adopted Accounting Principle

Effective January 1, 2008, the Plan adopted the "Fair Value Measurements" accounting standard which provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. In April 2009, the FASB amended the requirements to provide additional guidance on disclosure requirements related to major categories of debt and equity securities. In September 2009, the FASB issued Accounting Standards Update 2009-12, *Fair Value Measurements and Disclosures – Investment in Certain Estimates that Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). The update provides guidance on estimating the fair value when an investment in an investment company does not have a readily determinable fair value; ASU 2009-12 permits the use of the investment's net asset value as a practical expedient to determine fair value. ASU 2009-12 also requires additional disclosures regarding the investments. The adoption did not have a material impact on the Plan's financial statements and all applicable disclosures are included in these financial statements.

New Accounting Pronouncement

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities, and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 31, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years with early adoption permitted. Management of the Plan does not believe the adoption of this guidance will impact the financial statement amounts; however, additional disclosures may be required.

Subsequent Events

Management evaluated subsequent events through July 21, 2010, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Total investments as shown in the accompanying statements of net assets available for benefits of \$41,756,479 and \$29,387,375 as of December 31, 2009 and 2008, respectively.
- b. Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of \$8,491,424 and \$(12,143,681) for the years ended December 31, 2009 and 2008, respectively.

The fair value of individual investments that represent 5 percent or more of the fair market value of the Plan's net assets available for benefits are as follows:

	<u>2009</u>	<u>2008</u>
Davis New York Venture CI A Fund	\$3,335,092	\$2,487,697
Fidelity Retirement Money Market Trust	5,729,113	6,045,270
Fidelity Independence Fund	5,927,140	3,897,600
Fidelity International Discovery Fund	3,656,442	2,655,826
Pimco Total Return Inst CI	2,729,783	2,051,752
Morgan Stanley Institutional Fund Trust:		
MidCap Growth	7,304,946	4,142,720

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – FAIR VALUE MEASUREMENTS

The fair value measurements framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the nature and risks of the categories of assets by major security type.

Bond funds: Includes investments in various bond strategies chosen by the participant including fixed-income securities that increase coupon and/or principal payments at the rate of inflation, average maturities of 3.5 to 6 years, and lower quality bonds with higher yields.

Balanced funds: Provides both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. Moderate allocation balanced funds have a higher concentration in stocks, and conservative allocation balanced funds have higher concentration in bonds and cash.

Large cap funds: These investments seek to provide long-term growth of capital and income through primarily investing in common stocks. Blend funds contain investments representative of the overall stock market in size, growth rates, and price. Value funds focus on investing in big companies that are less expensive or growing more slowly than other stocks. Growth funds invest in big companies that are projected to grow faster than other large-cap stocks.

Mid cap funds: These investments seek capital appreciation primarily through investing in medium-sized companies or a combination of stocks from companies of all sizes. Blend funds contain investments of various sizes and characteristics and typically avoid high-priced growth stocks. Value funds focus on investing in stocks that are less expensive or growing more slowly than other stocks. Growth funds invest in stocks that are projected to grow faster than other large-cap stocks.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Small cap funds: This category includes investments in stocks of small companies and seeks long-term capital growth. The funds aim to replicate the results of indices such as the S&P Small Cap 600 Index or Russell 2000 Index.

International funds: These primarily invest in securities of issuers in Europe and the Pacific Basin that the advisor believes has potential for growth. Most funds divide their assets among a dozen or more developed markets, and the remainder in emerging markets.

Target date funds: Provides diversified exposure to stocks, bonds, and cash for those investors who have a specific retirement date in mind. These portfolios aim to provide investors with an optimal level of return and risk, based solely on the target date. These portfolios get more conservative as the goal date approaches by investing more in bonds and cash.

Fixed account: This is an interest earning investment option, secured by the custodian's general account assets. The fund is guaranteed to earn interest at the fund's stated rate. Participants may transfer any amount from the fixed account, but may only transfer funds into the fixed account every 90 days.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5 – FORFEITURES

Forfeitures were \$216,979 and \$64 for the years ended December 31, 2009 and 2008, respectively.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan's Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of whole or partial Plan termination, participants would become fully vested as to the amount credited to their account after deductions for estimated liquidation and distribution expenses.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 8, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RELATED PARTY TRANSACTIONS

Some of the Plan's investments are mutual funds or money market funds managed by Fidelity Management Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Administrative expenses for accounting, record keeping, and other services rendered by parties-in-interest are paid by the Plan Sponsor.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

This information is an integral part of the accompanying financial statements.

Plan Administrator
The Hunt Corporation Retirement Savings Plan
Scottsdale, Arizona

We were engaged to audit the accompanying statements of net assets available for benefits of The Hunt Corporation Retirement Savings Plan ("Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company and Merrill Lynch Trust Company FSB, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions as of and for the year ended December 2009 and from October 1, 2008 to December 31, 2008, and that Merrill Lynch Trust Company FSB held the Plan's investment assets and executed investment transactions for the period January 1, 2008 to September 30, 2008. The Plan Administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, and for the period January 1, 2008 to September 30, 2008, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of The Hunt Corporation Retirement Savings Plan (Plan) provides only general information. Participants and others should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Hunt Corporation (the Company, Plan Sponsor and Plan Administrator) established the 401(k) Profit Sharing Plan for qualifying employees effective July 1, 1998. The Plan was amended and restated effective January 1, 2001. The Plan Administrator has appointed an Advisory Committee to assist in the administration of the Plan. The purpose of the Plan is to provide retirement income and other benefits to eligible employees of the Company. Any salaried employee of the Company or a participating employer and any hourly employee of the employer or a participating employer who is classified as an office and/or field engineer hourly employee, but excluding a craft hourly employee is eligible to participate in the Plan. Eligible employees may participate in the Plan on the first day of the month following employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 75 percent of their pretax annual compensation as defined in the Plan, limited to a maximum as established by the Internal Revenue Code. Participants may also contribute amounts representing qualified rollovers from other qualified plans. The Company may match all or a portion of the participants' pretax contributions through employer matching contributions up to the first 2 percent of the participant's eligible compensation. The Company may also make discretionary contributions to the Plan. These contributions are allocated based on a formula derived from age, years of vested service and compensation. These contributions are subject to certain limitations under the federal tax law.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, allocations of employer discretionary contributions and allocations of the Plan's earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled, is the benefit that can be provided from the participant's vested account. All amounts in the participant accounts are participant-directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and discretionary portion of their accounts is based on years of service. For matching contributions, participants become 20 percent vested after two years service, 40 percent vested after three years service, 60 percent vested after four years service and 100 percent vested after five years service. For discretionary contributions, participants become 100 percent vested after five years of service.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Participant Loans

A Plan participant may apply for a loan from the amounts held in the participant's account attributable to the participant's vested contributions. The loan request must qualify according to guidelines outlined in the Plan, and loan repayments are required to be made by payroll deductions. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through semi-monthly and bi-weekly payroll deductions.

Forfeitures

Forfeited non-vested accounts are used by the Company to reduce matching contributions.

Payments of Benefits

Upon termination of service, death, disability or retirement, a participant may receive a lump sum amount equal to the vested value of his or her account. Normal retirement age under the Plan is 62 years or 5 years of service, whichever is later.

Investment Funds

Participants may direct their investments in the Plan to various mutual funds.

Administrative Expenses

All of the Plan's administrative expenses are paid by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Contributions

Participant contributions are recorded as additions to net assets available for benefits when withheld from the employees' earnings. The discretionary employer contributions are recorded as additions to net assets available for benefits when the amount is determined to be payable. Forfeited nonvested amounts are used to reduce future employer contributions.

Recently Adopted Accounting Principle

Effective January 1, 2008, the Plan adopted the "Fair Value Measurements" accounting standard which provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. In April 2009, the FASB amended the requirements to provide additional guidance on disclosure requirements related to major categories of debt and equity securities. In September 2009, the FASB issued Accounting Standards Update 2009-12, *Fair Value Measurements and Disclosures – Investment in Certain Estimates that Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). The update provides guidance on estimating the fair value when an investment in an investment company does not have a readily determinable fair value; ASU 2009-12 permits the use of the investment's net asset value as a practical expedient to determine fair value. ASU 2009-12 also requires additional disclosures regarding the investments. The adoption did not have a material impact on the Plan's financial statements and all applicable disclosures are included in these financial statements.

New Accounting Pronouncement

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities, and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 31, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years with early adoption permitted. Management of the Plan does not believe the adoption of this guidance will impact the financial statement amounts; however, additional disclosures may be required.

Subsequent Events

Management evaluated subsequent events through July 21, 2010, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Total investments as shown in the accompanying statements of net assets available for benefits of \$41,756,479 and \$29,387,375 as of December 31, 2009 and 2008, respectively.
- b. Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of \$8,491,424 and \$(12,143,681) for the years ended December 31, 2009 and 2008, respectively.

The fair value of individual investments that represent 5 percent or more of the fair market value of the Plan's net assets available for benefits are as follows:

	<u>2009</u>	<u>2008</u>
Davis New York Venture CI A Fund	\$3,335,092	\$2,487,697
Fidelity Retirement Money Market Trust	5,729,113	6,045,270
Fidelity Independence Fund	5,927,140	3,897,600
Fidelity International Discovery Fund	3,656,442	2,655,826
Pimco Total Return Inst CI	2,729,783	2,051,752
Morgan Stanley Institutional Fund Trust:		
MidCap Growth	7,304,946	4,142,720

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – FAIR VALUE MEASUREMENTS

The fair value measurements framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the nature and risks of the categories of assets by major security type.

Bond funds: Includes investments in various bond strategies chosen by the participant including fixed-income securities that increase coupon and/or principal payments at the rate of inflation, average maturities of 3.5 to 6 years, and lower quality bonds with higher yields.

Balanced funds: Provides both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. Moderate allocation balanced funds have a higher concentration in stocks, and conservative allocation balanced funds have higher concentration in bonds and cash.

Large cap funds: These investments seek to provide long-term growth of capital and income through primarily investing in common stocks. Blend funds contain investments representative of the overall stock market in size, growth rates, and price. Value funds focus on investing in big companies that are less expensive or growing more slowly than other stocks. Growth funds invest in big companies that are projected to grow faster than other large-cap stocks.

Mid cap funds: These investments seek capital appreciation primarily through investing in medium-sized companies or a combination of stocks from companies of all sizes. Blend funds contain investments of various sizes and characteristics and typically avoid high-priced growth stocks. Value funds focus on investing in stocks that are less expensive or growing more slowly than other stocks. Growth funds invest in stocks that are projected to grow faster than other large-cap stocks.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Small cap funds: This category includes investments in stocks of small companies and seeks long-term capital growth. The funds aim to replicate the results of indices such as the S&P Small Cap 600 Index or Russell 2000 Index.

International funds: These primarily invest in securities of issuers in Europe and the Pacific Basin that the advisor believes has potential for growth. Most funds divide their assets among a dozen or more developed markets, and the remainder in emerging markets.

Target date funds: Provides diversified exposure to stocks, bonds, and cash for those investors who have a specific retirement date in mind. These portfolios aim to provide investors with an optimal level of return and risk, based solely on the target date. These portfolios get more conservative as the goal date approaches by investing more in bonds and cash.

Fixed account: This is an interest earning investment option, secured by the custodian's general account assets. The fund is guaranteed to earn interest at the fund's stated rate. Participants may transfer any amount from the fixed account, but may only transfer funds into the fixed account every 90 days.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5 – FORFEITURES

Forfeitures were \$216,979 and \$64 for the years ended December 31, 2009 and 2008, respectively.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan's Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of whole or partial Plan termination, participants would become fully vested as to the amount credited to their account after deductions for estimated liquidation and distribution expenses.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 8, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RELATED PARTY TRANSACTIONS

Some of the Plan's investments are mutual funds or money market funds managed by Fidelity Management Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Administrative expenses for accounting, record keeping, and other services rendered by parties-in-interest are paid by the Plan Sponsor.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

This information is an integral part of the accompanying financial statements.

Plan Administrator
The Hunt Corporation Retirement Savings Plan
Scottsdale, Arizona

We were engaged to audit the accompanying statements of net assets available for benefits of The Hunt Corporation Retirement Savings Plan ("Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company and Merrill Lynch Trust Company FSB, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions as of and for the year ended December 2009 and from October 1, 2008 to December 31, 2008, and that Merrill Lynch Trust Company FSB held the Plan's investment assets and executed investment transactions for the period January 1, 2008 to September 30, 2008. The Plan Administrator has obtained certifications from the trustees as of and for the years ended December 31, 2009 and 2008, and for the period January 1, 2008 to September 30, 2008, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of The Hunt Corporation Retirement Savings Plan (Plan) provides only general information. Participants and others should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Hunt Corporation (the Company, Plan Sponsor and Plan Administrator) established the 401(k) Profit Sharing Plan for qualifying employees effective July 1, 1998. The Plan was amended and restated effective January 1, 2001. The Plan Administrator has appointed an Advisory Committee to assist in the administration of the Plan. The purpose of the Plan is to provide retirement income and other benefits to eligible employees of the Company. Any salaried employee of the Company or a participating employer and any hourly employee of the employer or a participating employer who is classified as an office and/or field engineer hourly employee, but excluding a craft hourly employee is eligible to participate in the Plan. Eligible employees may participate in the Plan on the first day of the month following employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 75 percent of their pretax annual compensation as defined in the Plan, limited to a maximum as established by the Internal Revenue Code. Participants may also contribute amounts representing qualified rollovers from other qualified plans. The Company may match all or a portion of the participants' pretax contributions through employer matching contributions up to the first 2 percent of the participant's eligible compensation. The Company may also make discretionary contributions to the Plan. These contributions are allocated based on a formula derived from age, years of vested service and compensation. These contributions are subject to certain limitations under the federal tax law.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, allocations of employer discretionary contributions and allocations of the Plan's earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled, is the benefit that can be provided from the participant's vested account. All amounts in the participant accounts are participant-directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and discretionary portion of their accounts is based on years of service. For matching contributions, participants become 20 percent vested after two years service, 40 percent vested after three years service, 60 percent vested after four years service and 100 percent vested after five years service. For discretionary contributions, participants become 100 percent vested after five years of service.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Participant Loans

A Plan participant may apply for a loan from the amounts held in the participant's account attributable to the participant's vested contributions. The loan request must qualify according to guidelines outlined in the Plan, and loan repayments are required to be made by payroll deductions. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through semi-monthly and bi-weekly payroll deductions.

Forfeitures

Forfeited non-vested accounts are used by the Company to reduce matching contributions.

Payments of Benefits

Upon termination of service, death, disability or retirement, a participant may receive a lump sum amount equal to the vested value of his or her account. Normal retirement age under the Plan is 62 years or 5 years of service, whichever is later.

Investment Funds

Participants may direct their investments in the Plan to various mutual funds.

Administrative Expenses

All of the Plan's administrative expenses are paid by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Contributions

Participant contributions are recorded as additions to net assets available for benefits when withheld from the employees' earnings. The discretionary employer contributions are recorded as additions to net assets available for benefits when the amount is determined to be payable. Forfeited nonvested amounts are used to reduce future employer contributions.

Recently Adopted Accounting Principle

Effective January 1, 2008, the Plan adopted the "Fair Value Measurements" accounting standard which provides a comprehensive framework for measuring fair value and expands disclosures which are required about fair value measurements. In April 2009, the FASB amended the requirements to provide additional guidance on disclosure requirements related to major categories of debt and equity securities. In September 2009, the FASB issued Accounting Standards Update 2009-12, *Fair Value Measurements and Disclosures – Investment in Certain Estimates that Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). The update provides guidance on estimating the fair value when an investment in an investment company does not have a readily determinable fair value; ASU 2009-12 permits the use of the investment's net asset value as a practical expedient to determine fair value. ASU 2009-12 also requires additional disclosures regarding the investments. The adoption did not have a material impact on the Plan's financial statements and all applicable disclosures are included in these financial statements.

New Accounting Pronouncement

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities, and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 31, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years with early adoption permitted. Management of the Plan does not believe the adoption of this guidance will impact the financial statement amounts; however, additional disclosures may be required.

Subsequent Events

Management evaluated subsequent events through July 21, 2010, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Total investments as shown in the accompanying statements of net assets available for benefits of \$41,756,479 and \$29,387,375 as of December 31, 2009 and 2008, respectively.
- b. Net investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of \$8,491,424 and \$(12,143,681) for the years ended December 31, 2009 and 2008, respectively.

The fair value of individual investments that represent 5 percent or more of the fair market value of the Plan's net assets available for benefits are as follows:

	<u>2009</u>	<u>2008</u>
Davis New York Venture CI A Fund	\$3,335,092	\$2,487,697
Fidelity Retirement Money Market Trust	5,729,113	6,045,270
Fidelity Independence Fund	5,927,140	3,897,600
Fidelity International Discovery Fund	3,656,442	2,655,826
Pimco Total Return Inst CI	2,729,783	2,051,752
Morgan Stanley Institutional Fund Trust:		
MidCap Growth	7,304,946	4,142,720

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – FAIR VALUE MEASUREMENTS

The fair value measurements framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the nature and risks of the categories of assets by major security type.

Bond funds: Includes investments in various bond strategies chosen by the participant including fixed-income securities that increase coupon and/or principal payments at the rate of inflation, average maturities of 3.5 to 6 years, and lower quality bonds with higher yields.

Balanced funds: Provides both capital appreciation and income by investing in three major areas: stocks, bonds, and cash. Moderate allocation balanced funds have a higher concentration in stocks, and conservative allocation balanced funds have higher concentration in bonds and cash.

Large cap funds: These investments seek to provide long-term growth of capital and income through primarily investing in common stocks. Blend funds contain investments representative of the overall stock market in size, growth rates, and price. Value funds focus on investing in big companies that are less expensive or growing more slowly than other stocks. Growth funds invest in big companies that are projected to grow faster than other large-cap stocks.

Mid cap funds: These investments seek capital appreciation primarily through investing in medium-sized companies or a combination of stocks from companies of all sizes. Blend funds contain investments of various sizes and characteristics and typically avoid high-priced growth stocks. Value funds focus on investing in stocks that are less expensive or growing more slowly than other stocks. Growth funds invest in stocks that are projected to grow faster than other large-cap stocks.

THE HUNT CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Small cap funds: This category includes investments in stocks of small companies and seeks long-term capital growth. The funds aim to replicate the results of indices such as the S&P Small Cap 600 Index or Russell 2000 Index.

International funds: These primarily invest in securities of issuers in Europe and the Pacific Basin that the advisor believes has potential for growth. Most funds divide their assets among a dozen or more developed markets, and the remainder in emerging markets.

Target date funds: Provides diversified exposure to stocks, bonds, and cash for those investors who have a specific retirement date in mind. These portfolios aim to provide investors with an optimal level of return and risk, based solely on the target date. These portfolios get more conservative as the goal date approaches by investing more in bonds and cash.

Fixed account: This is an interest earning investment option, secured by the custodian's general account assets. The fund is guaranteed to earn interest at the fund's stated rate. Participants may transfer any amount from the fixed account, but may only transfer funds into the fixed account every 90 days.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5 – FORFEITURES

Forfeitures were \$216,979 and \$64 for the years ended December 31, 2009 and 2008, respectively.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan's Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of whole or partial Plan termination, participants would become fully vested as to the amount credited to their account after deductions for estimated liquidation and distribution expenses.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 8, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 – RELATED PARTY TRANSACTIONS

Some of the Plan's investments are mutual funds or money market funds managed by Fidelity Management Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Administrative expenses for accounting, record keeping, and other services rendered by parties-in-interest are paid by the Plan Sponsor.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

This information is an integral part of the accompanying financial statements.
