The Plan is a defined contribution profit-sharing plan with 401(k) option covering all employees of the Company who have completed a consecutive three-month period of service, except for those subject to a collective bargaining agreement, certain non-resident aliens and residents of Puerto Rico. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan year which began June 1, 2010 and ended May 31, 2011 is referred to herein as the 2010 Plan year. Similarly, the Plan year which began June 1, 2009 and ended May 31, 2010 is referred to as the 2009 Plan year.

Contributions

Each year, participants may contribute the lesser of 50% of their eligible compensation or the maximum amount allowed by law ($16,500 for 2010) of pretax annual compensation, as defined in the Plan. Participants may designate some or all of their contributions as Roth deferrals. Once designated as Roth deferral, this election is irrevocable and cannot be changed back to pretax contribution. This Plan also allows for catch-up contributions for participants over 50 years of age. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or contribution plans. The Company may make annual discretionary contributions in an amount determined at each plan year end by the 401(k) Management Committee. To be eligible for the discretionary contribution, a participant must work at least 1,000 hours annually and must be employed on the last day of the Plan year. The Company contribution is invested pro-rata with the participant contributions. Contributions are subject to certain limitations. For 2010, the Company elected to make no discretionary contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions and the Companies' contribution into various investment options offered by the Plan. The Plan currently offers the flexibility of 38 different investment options.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000, or 50% of their account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates which are commensurate with prevailing rates as determined by the Plan administrator. All Plan notes receivable must be repaid in 5 years, except those that are used for the purchase of a principal residence in which case the notes receivable repayment period can be extended for 10 years. In most cases, repayment of the notes receivable will be made through after-tax payroll deductions.

Plan Expenses
Certain expenses of operating and maintaining the Plan have been paid by the Company and through utilization of forfeited accounts. In the event the Company does not continue to pay the Plan expenses, the Plan expenses will be paid by the Plan and charged on a pro-rata basis to the value of the participants account balances.

Forfeited Accounts
At May 31, 2011 and 2010, forfeited non-vested accounts totaled $121,886 and $95,802, respectively. These accounts may be used to reduce future Plan administrative expenses and employer contributions. In the 2010 Plan year, $14,064 of forfeited non-vested account balance was utilized to pay administrative expenses.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service as summarized as follows:

Years of Service	Vested Percentage
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years or more	100%

Payment of Benefits
Benefits become available to participants on the earliest of four events: (1) termination of employment, (2) death of the participant (benefits are payable to the participants spouse or beneficiary), (3) upon the participant's retirement, or (4) disability.

If the terminating participant's account balance exceeds $1,000 the participant may choose to keep the funds in the Plan, request a direct rollover to another qualified plan, or take a lump sum distribution (with consent of the participants spouse, if applicable). If the participant's account balance is $1,000 or less the funds cannot remain in the Plan, in which case the Plan Administrator may direct the Trustee to distribute via lump sum distribution without participant's consent.

On termination of service due to death prior to retirement, 100% of the Company contributions become immediately vested. The account balance is paid to the participant's spouse or beneficiary in a lump sum.

On termination of service due to retirement after age 59 ½, 100% of the Company contributions become immediately vested. The account balance is paid to the participant in a lump sum. However, should a participant reach age 59 ½ and not elect to terminate employment, the participant can take an in-service distribution from the vested account balance.

If the participant becomes disabled and is eligible for Social Security disability benefits, or is determined disabled by a physician selected by the Plan Administrator, the full value of the participant's account becomes 100% vested.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Distributions During Employment
As a general rule, a participant's contributions will remain in the Plan as long as the participant remains employed by the Company. The Plan does provide exceptions to this rule for withdrawals of the participant's contributions under certain circumstances (subject to the satisfaction of the Plan Administrator) that include the following:

- Medical expenses,
- Purchase of a principal residence,
- Post secondary education for participant or their dependents,
- To prevent eviction from or foreclosure on the participants principal residence.
- Burial expenses for dependents,
- Expenses for the repair of damage to a participant's principal residence that would qualify for the casualty deduction under the Internal Revenue Code (determined without regard to whether the loss exceeds 10% of adjusted gross income).

NOTE B-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The accompanying financial statements have been prepared in accordance with the accounting principles generally accepted in the United States of America ("US GAAP").

Reclassifications
Certain prior year amounts have been reclassified to conform with the current year presentation.

Use of Estimates
The preparation of financial statements in conformity with US GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Income Recognition
The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments, which consists of realized gains or losses and the unrealized appreciation or depreciation on those investments. Purchases and sales of securities are recorded on a settlement date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment Valuation
Investments are reflected in the accompanying statements of net assets available for benefits at their estimated fair values. Fair value at May 31, 2011 and 2010, as determined by the Trustee, is based primarily on the quoted market prices of the underlying securities. Money market investments are valued at cost plus accrued earnings, which approximates fair value, as determined by the Trustee. Because of the inherent uncertainty of these valuations, the estimated values may differ from the actual fair values that may or may not be ultimately realized.

Risks and Uncertainties
The assets of the Plan consist primarily of investments held at fair value. These investments are subject to market risks and are influenced by such factors as investment objectives, interest rates, stock market performance, economic conditions, and world affairs. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events
The Company evaluates events that occur subsequent to the balance sheet date of periodic reports, but before financial statements are issued for periods ending on such balance sheet dates, for possible adjustment to such financial statements or other disclosure. This evaluation generally occurs through the date at which the Company's financial statements are electronically prepared for filing with Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. For the financial statements as of and for the period ending May 31, 2011, this date was December 22, 2011.

Recently Issued Pronouncements
In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. This classification of participant loans has been retroactively applied to the accompanying financial statements.

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, to substantially converge the guidance in U.S. GAAP and IFRS on fair value measurements and disclosures. ASU No. 2011-04 clarifies the application of existing fair value measurement and disclosure requirements. ASU No. 2011-04 is effective for nonpublic entities for years ending after December 15, 2011, with early adoption permitted. The Plan has retroactively applied this new standard in the accompanying financial statements.

During the 2010 Plan year, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,532,758, as follows:

Mutual funds	**$ 3,532,758**

The Plan's investments are primarily invested in mutual funds held by the Plan's trustee. The mutual funds apply a daily management fee to the assets under management in the mutual funds. This fee is deducted from the mutual funds prior to determining net appreciation in the fair value of investments.

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments, as shown in the Statements of Net Assets Available for Benefits, as of May 31, 2011 and 2010.
b. Net appreciation in fair value of investments, dividends and interest, as shown in the Statement of Changes in Net Assets Available for Benefits, for the year ended May 31, 2011.
c. The Schedule of Assets Held for Investment Purposes at End of Year as of May 31, 2011, as shown in the attached schedule at pages 12 and 13.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE D-FAIR VALUE MEASUREMENTS

ASC Topic 820, Fair Value Measurement and Disclosures, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy which requires classification based on observable and unobservable inputs when measuring fair value. The fair value hierarchy distinguishes between assumptions based on market data (observable inputs) and an entity's own assumptions (unobservable inputs). The hierarchy consists of three levels:

- Level one — Quoted market prices in active markets for identical assets or liabilities;
- Level two — Inputs other than level one inputs that are either directly or indirectly observable; and
- Level three — Unobservable inputs developed using estimates and assumptions, which are developed by the reporting entity and reflect those assumptions that a market participant would use.

The following tables represent the Plan's fair value hierarchy for its investments measured at fair value on a recurring basis as of May 31, 2011 and 2010:

Investments	May 31, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

The prices for these instruments are obtained through the Plan asset custodian with whom the Company has historically transacted both purchases and sales of investment securities. Prices obtained from these sources include market quotations and matrix pricing. The fair value measurements consider observable data that may include market quotes, market spreads and cash flows, among other things. Management reviews the data and assumptions used in pricing the securities by its third party providers to ensure the lowest level of significant input is market observable data.

NOTE E-NONPARTICIPANT-DIRECTED INVESTMENTS

The Plan's participants direct all investments. There are no non-participant directed investments as of May 31, 2011 and 2010.

NOTE F- PARTY-IN-INTEREST TRANSACTIONS

Certain Plan expenses totaling $14,064 during the 2010 Plan year for administrative fees and other charges were paid by the Plan to Fidelity Management Trust Company (the Plan Trustee) by the Company.

NOTE G-SEPARATED PARTICIPANTS WITH VESTED BALANCES

At May 31, 2011 and 2010, net assets available for benefits includes $765,648 and $378,858, respectively, allocated to the accounts of persons who as of or prior to that date had withdrawn from participating in the earnings and operations of the Plan.

NOTE H-TAX STATUS

The Plan obtained its latest determination letter, dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE I-FIDELITY BOND

The Plan was covered by a $500,000 fidelity bond during the 2010 Plan year.

NOTE J-PROHIBITED TRANSACTIONS

During the 2009 Plan year, the Plan Sponsor failed to remit certain participant contributions in a timely manner. The Plan Sponsor identified ten instances for a total of $410,371 where participant contributions were remitted to the Plan in violation of Department of Labor (DOL) regulations. The $410,371 of participant contributions was funded to the Plan in the 2009 Plan year. The missed earnings and interest, totaling $271, have been calculated and submitted outside of the DOL's Voluntary fiduciary Correction Program ("VFCP") to the Plan in November 2010.

During the 2009 Plan year, the Plan Sponsor failed to exclude fringe benefits, which is not a part of eligible compensation as defined in the Plan, from the calculation of discretionary Company contributions. The Plan Sponsor identified a series of instances where fringe benefits were included in the calculation for discretionary Company contributions. The Plan Sponsor corrected the excess contribution amounts, calculated as $713, outside the DOL's VFCP, in November 2010.
