Plan Administrator
Mike Erdman Motors 401(k) Savings Plan
Merritt Island, Florida

We were engaged to audit the accompanying statement of net assets available for benefits of Mike Erdman Motors 401(k) Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held At End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian of the Plan, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN AND OTHER MATTERS

The following brief description of Mike Erdman Motors 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Mike Erdman Motors, Inc. (the Company) who have completed 1,000 hours of service, have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to defer not less than 1%, but not more than the dollar amount permissible by law. Participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an investment contract with an insurance company as investment options for participants. The Company may make a discretionary matching contribution equal to a uniform percentage of participant's salary deferral. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms cannot be longer than five years. The loans are secured by the balance in the participant's account and bear various interest rates, which are commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or select annuity payment options as defined in the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, or continue to participate in the Plan's investments to provide benefits upon retirement or death.

Forfeited Accounts

At December 31, 2010 and 2009, there were no forfeited non-vested accounts. Forfeitures may first be used to pay Plan expenses. Any forfeitures left after paying Plan expenses are reallocated.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100 percent vested in their employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Operating Expenses

Significant administrative expenses incurred by the Plan are paid by the plan sponsor.

Payment of Benefits

Benefits are recorded when paid.

Change in Accounting Principle

In accordance with generally accepted accounting principles (GAAP), the Plan is now required to classify participant loans as notes receivable from participants instead of as investments. This change is effective for years ending on or after December 15, 2010, and was applied retrospectively.

Reclassification

Certain 2009 amounts have been reclassified to conform with the 2010 financial reporting presentation.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

3. INVESTMENTS

The Plan's investments are held by Principal Trust Company (Principal). The following presents investments that represent five percent or more of the Plan's net assets:

	2010	2009
Contract with insurance company	$ 426,090	$ 292,834
Pooled separate accounts:		
Principal Money Market Sep Acct	548,307	549,239
Principal Govt & HQ Bond Sep Acct	162,481	N/A
Principal U.S. Property Sep Acct	N/A	121,396
Principal LifeTime 2030 Sep Acct	321,097	264,403
Principal Large Cap Growth Sep Acct	127,754	N/A
Others under five percent	409,262	675,733
	$ 1,994,991	$ 1,903,605

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $119,378 as follows:

Pooled separate accounts	$ 124,833
Contract with insurance company	(5,455)
	$ 119,378

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a flexible investment annuity contract with Principal, a related party. Principal maintains the contributions in general accounts. The accounts are credited with actual earnings on the underlying investments and charged for participant withdrawals and administration expenses. The contracts are included in the financial statements at fair market value as reported to the Plan by Principal. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, the guaranteed interest accounts are not considered benefit-responsive. The average yield and crediting interest rates were 2.27% and 3.45% for 2010 and 2009, respectively. The rate credited is the rate in effect on the day when each deposit is directed to the accounts. To simplify reporting to Plan participants, all rates credited during the 12-month 'deposit year' are averaged into a single composite rate.

5. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end for which public quotations are not available but are priced by third-party pricing services or internal models using observable inputs.

Contract with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 4).

Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at Fair Value as of December 31, 2010

6. ASSETS HELD BY THE PLAN'S CUSTODIAN

Principal, the custodian of the Plan's assets, has certified to the accuracy of the following amounts that are included in the financial statements:

	2010	2009
Statement of Net Assets Available for Benefits		
Participant directed investments, at fair value	$ 1,994,991	$ 1,903,605
Notes receivable from participants	84,604	-

Net appreciation in fair value of investments	119,378	N/A
Interest and dividends	9,103	N/A
Interest income on notes receivable from participants	3,800	N/A

7. EXCESS CONTRIBUTION

Excess contributions for 2010 and 2009 of $12,844 and $24,091, respectively, were returned to the employees in 2011 and 2010, respectively, in order to satisfy the provisions of the Plan. These amounts are included as liabilities on the statement of net assets available for benefits.

8. RELATED-PARTY TRANSACTIONS

Principal manages certain Plan investments. Principal is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative fees of $1,461 were paid by the Plan to Principal for the year ended December 31, 2010.

Continued

9. INCOME TAX STATUS

The Internal Revenue Service (IRS) has ruled that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and is therefore not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan Administrator
Mike Erdman Motors 401(k) Savings Plan
Merritt Island, Florida

We have conducted a DOL limited-scope audit of the financial statements of Mike Erdman Motors 401(k) Savings Plan (the Plan) for the year ended December 31, 2010 and have issued our report thereon dated October 11, 2011. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and schedule taken as a whole. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated January 13, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Mike Erdman Motors 401(k) Savings Plan are described in Note 2 to the financial statements. In accordance with generally accepted accounting principles, the Plan is required to classify participant loans as notes receivable from participants instead of as investments. This change is effective for years ending on or after December 15, 2010, and was applied retrospectively. No other new accounting policies were adopted and the application of existing policies was not changed during 2010. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no significant sensitive estimates in 2010 that affect the financial statements of Mike Erdman Motors 401(k) Savings Plan.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no material misstatements, either individually or in the aggregate to the financial statements taken as a whole, detected as a result of audit procedures performed.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 11, 2011.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention. We did note the following recommendations:

- Department of Labor (DOL) regulations require employers to remit employee contributions to the plan as soon as they can be reasonably segregated from the employer's general assets. Determining when a contribution can be reasonably segregated depends on the facts and circumstances surrounding each individual plan, and will most likely vary from plan to plan. Certain DOL officials suggest the timeliness of the employee contributions should at least mirror the employer's remittance of employee FICA or federal income tax withholdings to the appropriate sources. Once a pattern for remitting employee contributions has been established and substantiated, deviations from this practice may be considered delinquent contributions by the DOL that are required to be reported in Form 5500. Even a one day delay in remitting employee contributions may be considered delinquent. We recommend that the Company consistently monitor its remittance of employee contributions to ensure its practice of timely remittance.

- We noted that source documents were not available for certain selected participant transactions. We recommend that the Company obtain and maintain source documents from the participants for all transactions to support the Plan's operations.

Other Information in Documents Containing Audited Financial Statements

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the plan administrator and management of Mike Erdman Motors 401(k) Savings Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,
