NOTE 1 - DESCRIPTION OF PLAN

The following description of F. Korbel & Bros., Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the summary plan description or plan document, as amended, for a more complete description of plan provisions.

General - The Plan is a 401(k) salary deferral plan covering substantially all employees of F. Korbel & Bros., Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan's sponsor and serves as plan administrator.

Eligibility - Employees of the Company are eligible to participate in the Plan upon reaching age 18 and after completing one year of service in which at least 1,000 hours are worked.

Contributions - Participants may elect to defer a portion of their compensation and also make voluntary after-tax contributions to the Plan. The Plan also allows for Roth contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may elect to make a discretionary matching contribution to the Plan. During 2009, the Company matched $1.40 for each $1 the participant contributed, up to 5% of the participant's annual compensation, from January 1 through March 31. For the remainder of the year, the Company matched $.50 for each $1 the participant contributed, up to 5% of the participant's annual compensation. Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with the participant's contribution; the Company's contribution; and any income, gains, or losses attributable to the investment mix of the account. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are fully vested in their salary deferrals and voluntary contributions, plus actual earnings thereon. Vesting in company contributions and earnings thereon is based on years of continuous service and increases in increments of 20% per year until fully vested after five years of credited service.

Loans to participants - The Plan does not make loans to participants or beneficiaries.

Payment of benefits - Upon termination of service, death, disability, hardship, attaining age 59½, qualified domestic relations order, or mandatory distribution at age 70½, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures - Forfeitures are the non-vested portion of a participant's account derived from company contributions that are lost upon termination of employment. Forfeitures are retained in the Plan and used to reduce the Company's discretionary matching contribution. As of December 1, 2009 and 2008, forfeited non-vested accounts totaled $26,390 and $7,213. For the years ended December 31, 2009 and 2008, forfeitures in the amount of $37,800 and $0 were used to reduce company matching contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value, as determined by Vanguard Fiduciary Trust Company. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Units of the Retirement Savings Trust are valued at net asset value at year-end.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Payment of benefits - Benefits are recorded when paid.

Expenses - Administrative expenses are paid by the Company. Certain operating expenses are paid by the Plan.

Subsequent events - The Plan has evaluated subsequent events through July 26, 2010, the date the financial statements were available to be issued.

Reclassifications - Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation.

NOTE 3 - INVESTMENTS

Investments representing 5% or more of net assets available for benefits consisted of the following as of December 31:

	2009	2008
Vanguard Retirement Savings Trust	$ 6,888,959	$ 6,864,598
Vanguard 500 Index Fund Investor Shares	5,334,910	4,301,864
Vanguard Total Bond Market Index Fund Investors Shares	4,776,895	4,472,029
Vanguard Target Retirement 2015 Fund	3,753,083	3,002,864
Vanguard Mid-Cap Index Fund Investor Shares	3,149,281	2,225,290
Vanguard Total International Stock Index Fund	2,605,540	1,853,127
Vanguard Target Retirement 2025 Fund	2,604,785	2,159,551

Investment contracts - The Plan has a benefit-responsive investment contract with Vanguard RST. Vanguard RST maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and operating expenses. The guaranteed investment contract issuer (Vanguard) is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive; as such, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Vanguard RST, represents contributions made under the contract, plus earnings, less participant withdrawals and operating expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The existence of certain conditions can limit the trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unitholder, tax disqualification of the trust or unitholder, and certain trust amendments if issuers' consent is not obtained. As of December 31, 2009, the occurrence of an event outside the normal operation of the trust that would cause a withdrawal from an investment contract is not considered to be probable.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the preestablished investment guidelines.

The average yields, based on actual earnings, were 3.15% and 3.67% for 2009 and 2008. The average yields, based on interest rate credited to participants, were 2.86% and 3.38% for 2009 and 2008.

NOTE 4 - FAIR VALUE MEASUREMENTS (UNAUDITED)

The Accounting Standards Codification (ASC) related to fair value measurements and disclosures, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The fair value hierarchy is based on the type of inputs used in arriving at fair value. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Methods used in arriving at fair value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods used are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The three levels of inputs used to establish fair value are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:
