Germania Companies
Employees Profit Sharing and Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of Plan

The following description of the Germania Companies Employees Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Germania Farm Mutual Insurance Association (the Company) who are age twenty-one or older. Participants are automatically enrolled into the Plan thirty days after date of hire and upon meeting the age eligibility requirement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year the Company makes matching contributions to the Plan in an amount determined by the board of directors. Beginning January 1, 2009, the Company makes discretionary contributions in an amount determined by the board of directors to all eligible participants hired or rehired by the Company on January 1, 2009 and thereafter. The Company is under no legal obligation to make a contribution during any specific year. Participants make voluntary contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations. Participants direct the investment of Company contributions and their contributions into various investment options offered by the Plan. The Plan currently offers seventeen investment options for participants.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching contribution and discretionary contribution (where applicable), and (b) Plan net earnings. Allocations are based on the participant's annual earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon. Company discretionary contributions are 20% vested each year and fully vested at five years.

(1) Description of Plan (continued)

(e) Payment of Benefits

Upon termination of service, a participant may elect to receive either (1) a lump-sum amount equal to the value of his or her account or (2) periodic installments.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures. Accordingly, actual results may differ from those estimates.

(c) Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for further discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Summary of Significant Accounting Policies (continued)

(d) Plan Expenses

A substantial portion of the administrative expenses of the Plan is paid by the Company as defined in the Plan agreement.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(g) Risks and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(3) Investments

The following table presents the fair values of investments, all of which are participant directed. Investments that represent five percent or more of the Plan's net assets are separately identified.

(3) Investments (continued)

	2009	2008
Investment contract:		
New York Life Insurance Company Anchor Account II	$ 4,549,354	2,781,832
	4,549,354	2,781,832
	$ 23,442,919	17,894,400

During 2009 and 2008, the Plan's investments in mutual funds (including investments bought, sold, and held during the year) appreciated (depreciated) in value by $3,168,309 and $(7,635,341), respectively.

The Plan has invested in New York Life Insurance Company Anchor Account II, which is the marketing name for New York Life Insurance Company's Pooled Separate Account No. 25. The assets of this pooled separate account are invested primarily in fixed income securities owned by New York Life Insurance Company. The assets in the pooled separate account are maintained solely for the benefit of contract holders participating in the separate account and are not charged with any other liabilities arising out of any other business of New York Life Insurance Company. Interest is accrued daily and credited monthly and reflects the investment experience of the pooled separate account. Interest rates are guaranteed by New York Life Insurance Company to be no less than 0%. Participant-initiated withdrawals and exchanges between funds are paid at contract value during the term of the contract. At termination of the contract, the Plan will receive a book value distribution of their interest in the pooled separate account provided that a twelve-month written notice is given to New York Life Insurance Company. Certain distributions (such as layoff or spin-off) may be subject to a market value adjustment. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. The average yield earned by the Plan for this fully benefit-responsive investment contract in the fund was 2.55% and 4.31% at December 31, 2009 and 2008, respectively. Because this investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the New York Life Insurance Company Anchor Account II. Contract value, as reported to the New York Life Trust Company, represents contributions made, plus earnings, less participant withdrawals and exchanges, and administrative expenses.

(4) Information Certified by the Trustees

The financial information included in the Plan financial statements, except for contributions, benefits paid directly to participants, and administrative expenses, have been derived from information certified as complete and accurate by the trustees of the Plan in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

(5) Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their employer discretionary contributions.

(6) Tax Status

The Internal Revenue Service has determined and informed the Company in a letter dated April 9, 2010 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation.

The Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is no longer subject to examination by the Internal Revenue Service for years prior to 2007.

(7) Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by New York Life Investment Management, LLC and a pooled separate account with New York Life Insurance Company. New York Life Trust Company, an affiliate of New York Life Insurance Company, is the trustee as defined by the Plan. Further, New York Life Retirement Plan Services, an affiliate of New York Life Insurance Company, provides administration services to the Plan. Therefore, these transactions qualify as party-in-interest transactions.

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(8) Fair Value Hierarchy and Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
