Independent Auditors' Report

To the Administrator and Retirement Committee of the
DTTS 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of the DTTS 401(k) Plan (the "Plan") as of May 31, 2011 and 2010 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the DTTS 401(k) Plan as of May 31, 2011 and 2010 and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DTTS 401(k) Plan

Notes to Financial Statements

May 31, 2011 and 2010

1. Description of the Plan

The following description of the DTTS 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more information.

General

The Plan is a defined contribution plan and is sponsored by Deloitte Touche Tohmatsu Services, Inc. and its affiliates ("DTTS"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective June 1, 2008, DTTS created and adopted the Plan for the benefit of DTTS employees and affiliates. Employees participating in the Deloitte 401(k) Plan on June 1, 2008 had their account balances transferred to the DTTS 401(k) Plan.

Participation

The Plan covers all employees of DTTS who meet the eligibility requirements of the Plan and have elected to participate. Salaried employees who are at least 21 years of age are eligible to participate immediately. Hourly employees or employees who work less than 20 hours per week are eligible to participate on the first anniversary of their hire dates or upon attainment of age 21.

Contributions

Employee participants may contribute to the Plan any whole percentage of their compensation from 1% to 60% on a pre-tax basis or on a Roth after-tax basis, up to the calendar year maximum contribution allowed by the Internal Revenue Code (the "Code"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participants who have attained age 50 before the close of the taxable year are eligible to make catch-up contributions subject to the Code limitations.

1. Description of the Plan (continued)

DTTS makes a guaranteed matching contribution of 10% of employee contributions up to 6% of annual compensation and may also make a supplemental matching contribution of 15% of those participant contributions up to 6% of annual compensation. The supplemental matching contribution is determined each Plan year by DTTS. To be eligible for matching contributions, employees generally must have completed one year of service and be employed by DTTS as of the end of the Plan year. Designated firm directors are not eligible to receive the matching contributions.

For the years ended May 31, 2011 and 2010, DTTS made the supplemental matching contribution to the Plan.

Effective June 1, 2011, the Plan will provide an annual nondiscretionary matching contribution equal to 25% of participant before-tax and Roth contributions not to exceed 6% of annual compensation. Also effective June 1, 2011, any employee whose initial date of hire is on or after this date is immediately eligible for matching contributions unless hired within sixty days preceding the last day of the Plan year. Such employee will not be eligible for a matching contribution until the first day of the following Plan year.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution, the DTTS matching contributions and Plan earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting

Participants are 100% vested in the value of their own contributions to the Plan and in all guaranteed and supplemental matching contributions plus earnings and losses thereon.

Effective June 1, 2011 any participant whose initial date of hire is on or after this date will vest on a graded scale over four years of service.

1. Description of the Plan (continued)

Distributions, Withdrawals, and Participant Notes Receivable

Each participant is eligible to receive a lump-sum distribution from the Plan equal to his or her total account balance when any of the following events occurs: (1) termination of employment, (2) retirement, (3) attainment of age 59 1/2, (4) permanent disability, or (5) death.

Each active participant may borrow from his or her fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of his or her account balance, whichever is less. The repayment period of such loans cannot exceed five years. Interest rates are one half percent above the prime rate in effect on the date of the loan and range from 3.75% to 8.75% at May 31, 2011. All notes receivable are secured by an assignment of a security interest in the respective participant's account. Principal and interest are collected ratably through payroll deductions.

Participants may request a financial hardship withdrawal upon submission of evidence of an immediate and specific financial need for medical emergency, college expense, purchase of a primary residence, or to prevent eviction from or foreclosure on the mortgage on a primary residence or other financial needs as described in the Plan document.

Administrative Expenses

Administrative and all other expenses of the Plan pertaining to participants are paid by DTTS.

Amendment/Termination of the Plan

The Plan may be amended by DTTS at any time.

Although it has not expressed any intent to do so, DTTS has the right to discontinue its guaranteed and supplemental matching contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Recently Adopted Accounting Standards

In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. The Plan adopted the amendments in ASU 2010-25, which have been applied retrospectively throughout the Plan's financial statements. Participant loans have been reclassified to notes receivable from participants as of May 31, 2010. Interest income for 2010 related to participant loans has been reclassified to interest income from notes receivable from participants.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 clarified that disclosures should be presented separately for each class of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. The Plan adopted ASU 2010-06 for the Plan year ending May 31, 2011, and the adoption did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States.

Accounting standards require that investments in commingled trust funds that include benefit-responsive investment contracts be presented at fair value in the statement of net assets available for benefits and that the amount representing the difference between fair value and contract value of these investments also be presented on the face of the statement of net assets available for benefits. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Valuation of Investments and Income Recognition

The Vanguard Fiduciary Trust Company is the recordkeeper and Trustee of all Plan assets. Investments are carried at market value as determined on the last day of the Plan year. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Events occurring after reporting date

The Plan's management has evaluated events and transactions that occurred between May 31, 2010 and March 15, 2012, which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated January 26, 2010, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of May 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 31, 2011 and 2010.

(i) *Mutual funds*: Valued at the net asset value of shares held by the Plan at year end in an active market.

(ii) *Commingled trust fund*: The value of the Plan's interest in the Vanguard Retirement Savings Trust III Fund, a commingled trust fund, is based upon the current value of and net investment gain or loss relating to the units of participation held by the Plan. Each commingled trust fund provides for daily redemptions by the Plan at reported net asset values per share with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 31, 2011 and 2010:

5. Investments

The fair value of investments that represent 5% or more of the Plan's net assets are as follows at May 31, 2011 and 2010:

	2011	2010
Vanguard Prime Money Market Fund Institutional Shares	*	$ 2,973,149
Vanguard Trust Retirement 2035 Fund	$ 3,386,095	$ 2,340,962
Vanguard Total Bond Market Index Fund Institutional Plus Shares	*	$ 2,600,828
Vanguard Institutional Index Fund Plus Shares	*	$ 2,316,642
Vanguard PRIMECAP Fund Investors Shares	$ 3,377,591	$ 2,480,077

*Investment is less than 5% of the Plan's net assets for the respective year.

During 2011 and 2010, the Plan's net appreciation in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) was attributable to mutual funds.

6. Related-Party Transactions

Certain Plan investments in various mutual funds and a commingled trust fund totaling $45,525,959 and $31,892,106 as of May 31, 2011 and 2010, respectively, are managed by The Vanguard Group, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Plan also held participant notes receivable which also qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various mutual funds and a commingled trust fund. These investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of May 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	$ 63,304,223	$ 44,627,537
Adjustment from contract value to fair value for fully benefit-responsive investment contract	64,727	25,476
Net assets available for benefits per the Form 5500	$ 63,368,950	$ 44,653,013

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the years ended May 31, 2011 and 2010:

	2011	2010
Net increase per the financial statements	$ 18,676,686	$ 11,845,039
Change in adjustment from contract value to fair value for fully benefit-responsive investment contract	39,251	34,662
Net increase per the Form 5500	$ 18,715,937	$ 11,879,701
