We were engaged to audit the statement of net assets available for benefits of Revolution Foods 401(k) Plan (the "Plan"), as of June 30, 2011, and the related statement of changes in net assets available for benefits for the year ended June 30, 2011, and supplemental Schedules. These financial statements and supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of June 30, 2010, whose report dated March 31, 2011, did not express an opinion on the 2011 financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Life Insurance Company, the custodian of the Plan. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 5, the Plan Administrator has obtained a certification from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended June 30, 2011, and as of June 30, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole for the year ended June 30, 2011. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General

The following description of the Revolution Foods 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 2009 by Revolution Foods, Inc. (the "Company") to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the "Code"), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Company has appointed a group of officers to act as the trustees of the Plan. The Company has contracted with Principal Life Insurance Company (the "Principal") to act as the custodian and an affiliate of Principal to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

The Plan's investment in the guaranteed interest account with Principal have been reported in the financial statements at fair value. Investments in the guaranteed interest account are intended to be held until maturity although early liquidation could result in a termination charge.

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Income taxes
Effective July 1, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Risks and uncertainties
The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent events
The Plan has evaluated subsequent events through April 12, 2012, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENT

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 2 – FAIR VALUE MEASUREMENT (Continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts
Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that the pooled separate funds will be sold at amounts that differ materially from the NAV of shares held.

Guaranteed interest account
Valued at fair value based on the amount that would be received if the contract was terminated on the reporting date, which is book value less an early withdrawal charge.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 – FAIR VALUE MEASUREMENT (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2011:

	Level 1	Level 2	Level 3	Total

NOTE 2 – FAIR VALUE MEASUREMENT (Continued)

Fixed income funds

Principal U.S. Property Separate Account Pro
The investment invests the majority of assets on commercial real estate holdings. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. The property holdings usually contain real estate from the multi-family, office, warehouse/ manufacturing and retail sectors. This investment option is subject to investment and liquidity risk and other risks inherent in real estate such as those associated with general and local economic conditions. Participants who elect to contribute funds into the U.S. Property Separate Account, may not be able to immediately withdraw them.

Principal LifeTime Strategic Income Sep Account Pro
The investment seeks current income and, as a secondary objective, capital appreciation. The fund invests in underlying fixed-income funds, but also invests in underlying equity and hybrid funds according to an asset allocation strategy designed for investors seeking current income from their investment. It invests most of the assets in underlying funds which are intended primarily to give the fund broad exposure to income-producing securities through their investments in fixed-income securities, "hybrid" securities and dividend generating domestic and foreign stocks.

Target date funds

Principal LifeTime Separate Account Pro
These investments seek a total return consisting of long-term growth of capital and current income. The fund invests in underlying principal domestic and foreign equity, hybrid and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time. The fund may invest in any of the institutional class shares of the equity funds or fixed-income funds of principal funds, at the sub-advisor's discretion.

NOTE 3 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by an affiliate of Principal, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – PARTICIPANT AND BENEFITS

Participant contributions
Participants may elect to have the Company contribute their eligible pre-tax or Roth after-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Vesting
Participants are immediately vested in their contributions.

Participant accounts
Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Company's contribution, if any.

Payment of benefits
Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's interest in their account or in the form of an annuity. The Plan allows for the automatic distribution of participant account balances that do not exceed $5,000.

Notes receivable from participants
The Plan allows participants to borrow up to the lesser of $50,000 or 50% of their account balance. The notes are secured by the participant's balance. Such notes bear interest at the available market financing rates and must be repaid to the Plan within a five year period, unless the note is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such notes are established by the Company. Outstanding notes receivable at June 30, 2011 carry an interest rate of 5.25%.

NOTE 5 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Principal Life Insurance Company has certified the current value of assets held at June 30, 2011 and 2010, and transactions entered into during the respective years, that were used in the preparation of the accompanying financial statements and supplemental schedules. The Plan sponsor reimbursed the plan for lost interest. The Plan sponsor filed Form 5330 and paid the applicable excise tax in September 2010. The excise tax payments were made from the Plan sponsor's assets and not from assets of the Plan.

NOTE 7 – PLAN TERMINATION OR MODIFICATION
