NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

NOTE 1: PLAN DESCRIPTION

The following description of the TopOcean Consolidation Services (LA) Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was adopted by TopOcean Consolidation Services (LA) Inc. 401(k) Profit Sharing Plan (the "Company") as of July 1, 1997. The Plan is a defined contribution plan covering substantially all employees of the Company who have completed three months of continuous service and attained age 21.

Plan Administration

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is administered by the 401(k) Plan Administrative Committee (the Administrative Committee") of the Company. Plan assets were held under the direction of the Administrative Committee, by John Hancock Life Insurance Company ("John Hancock").

Contributions

Participants may elect to contribute up to 100% of his or her compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. However, the contribution may not exceed the maximum deferral as defined under Section 402(g) of the Internal Revenue Code (the "IRC").

The Company may make matching and/or discretionary contributions as determined each year by resolution of the Company's Board of Directors. For the year ended June 30, 2011 the Company matched 50 percent of the participant's deferral, up to the first six percent of compensations. There were no discretionary contributions for the year ended June 30, 2011. Contributions are made by the Company for their respective participants. Upon termination of employment, participants are allowed to defer receiving their vested benefits.

NOTE 1: PLAN DESCRIPTION (Continued)

Participant Accounts

Each participant's account is credited with: (a) the participant's contribution, (b) the Company's matching contribution and (c) an allocation of Plan earnings, net of certain administrative expenses. Allocations are based on participant account balances, as defined.

Vesting

Participant contributions and related earnings are fully vested immediately. Contributions from the Company are vested base on the following if participants are eligible prior to July 1, 2010:

Years of Service	Percent Vested
Less than 2 years	0%
2 years	25%
3 years	50%
4 years	75%
5 + years	100%

After, July 1, 2010:

Years of Service	Percent Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 + years	100%

Benefits attributable to each participant will become fully vested in the event of death, total disability, and normal retirement at age 65 or upon partial or total Plan termination.

NOTE 1: PLAN DESCRIPTION (Continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Terms of the loans range from one to five years and bear interest at 2% over the prime rate. A loan may be repaid over a period of thirty years if it is for the purchase of a principal residence.

Payment of Benefits

On termination of service or otherwise becoming eligible to receive benefits, a participant may elect to receive a lump-sum payment or periodic installment payments or transfer the balance in his or her account to another qualified plan. Vested accounts of $5,000 or less will be automatically paid in a lump-sum amount.

A participant may make withdrawals from his or her account (except as provided in the Plan agreement) upon reaching age 59 ½. Withdrawals may also be made for financial hardship, which is determined pursuant to the provisions of the IRC.

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as Administrative Expenses. Total Administrative Expenses for the year ended June 30, 2011 was $23,496.

Forfeitures

A participant's non-vested account balance is forfeited at the time of termination of employment. These forfeitures will be used first to offset Plan administrative expenses. Any remaining forfeitures will be used to reduce Employer Contributions under the Plan. Finally, any remaining forfeitures will be allocated to Participants.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Termination

The Company anticipates and believes the Plan will continue without interruption but reserve the right to terminate the Plan, in part or in whole, at any time. In the event that such discontinuance results in termination of the Plan, participants become 100% vest in their entire account balance and the Plan's net assets will be allocated among the participants in accordance with the terms of the Plan and ERISA.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect in reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statement of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investment in common/collective trusts and registered investment companies are presented at fair market value upon quoted prices from recognized securities exchanges. Participant loans are valued at the outstanding principal balance which approximates fair value.

Investment income is recorded as earned and is retained by John Hancock Life Insurance Company for reinvestment on behalf of the Plan. Dividend income is recorded on the ex-dividend date.

The Plan presents in the statement of changes in net available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and unrealized appreciation (depreciation) on those investments.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits to participants are recorded when paid.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 3: INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at June 30, 2011:

JH Lifestyle Balance	$	337,927
JH Lifestyle Growth	$	204,084
Pimco Total Return	$	184,842
Money Market Fund	$	362,761

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are describes as follows:

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2011 and 2010.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the plan's assets at fair value as of June 30, 2011 and 2010.

Assets at Fair Value as of June 30, 2011

NOTE 5: FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined the Plan qualifies under Section 401 (a) of the IRC, therefore, not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC and the Plan's provisions to maintain its qualification. The Administrative Committee believes the Plan is requirements of the IRC.

NOTE 6: PARTY-IN-INTEREST TRANSACTIONS

The Plan allow for transactions with certain parties who may perform services or have fiduciary responsibilities to the plan. Certain Plan investments are managed by John Hancock, the custodian and record-keeper of the Plan. The custodian receives management and contract administration fees from the plan.
