NOTE 1 - DESCRIPTION OF PLAN

The following description of the Dejana Industries, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan, which was established on August 31, 1971 and amended and restated on July 1, 2004, is a defined contribution plan, covering substantially all non-union employees of companies under common management of Dejana Industries, Inc. (collectively, the "Employer") who have completed one (1) year of service (or 1,000 hours of service) and who have reached the age of twenty-one (21). Upon meeting the eligibility requirements, participants may begin participating in the Plan on the first day of the month coinciding with or following the date on which the participant is eligible to join into the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). State Street Corporation Investors Services-Global Fund Accounting and Custody ("State Street") serves as the trustee of the Plan and ADP Retirement Services ("ADP") serves as record keeper and custodian.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the Employer's matching contributions, profit sharing contributions and plan earnings. Allocations are based on participant earnings or account balances as defined, unless otherwise stated. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment options offered by the Plan. The Plan offers two (2) common/collective trusts and twenty (20) mutual funds as investment options for participants.

CONTRIBUTIONS

Each year, participants may contribute up to a maximum of 75% of pre-tax annual compensation, as defined in the Plan. These participant contributions are limited each calendar year to $16,500 for 2011 and 2010 as defined under the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as well as catch up contributions. The maximum allowable catch up contribution was $5,500 for 2011 and 2010 for participants who are at least 50 years old.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

CONTRIBUTIONS (CONTINUED)

Each year, the Employer will contribute to the Plan a matching 401(k) contribution in an amount equal to 50% of each participant's elective deferrals that are not in excess of 10% of the participant's compensation. The Employer may make a discretionary Employer Profit Sharing contribution which will be allocated to each participant based on the ratio as each participant's compensation bears to the compensation of all participants. During the fiscal year ended June 30, 2011, the Employer elected not to make a profit sharing contribution.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their Employer contribution accounts, which include Employer Matching and Discretionery Profit Sharing contributions, based on a graded vesting schedule based on years of service as follows:

Years of Service	Vesting Percentage
0-1	--%
2	20%
3	40%
4	60%
5	80%
6	100%

In addition, Employer contributions and income thereon become fully vested upon the participant's retirement on or after age 65.

FORFEITURES

In accordance with the plan document, forfeitures of terminated participant's nonvested matching and profit sharing contributions are allocated during the plan year to segregated forfeiture accounts and invested in selected portfolios as determined by the Employer. Forfeited amounts will be used to reduce future employer contributions. As of June 30, 2011 and 2010, the forfeited accounts totaled $975 and $972, respectively. During the fiscal year ended June 30, 2011, Employer contributions were reduced by $6,745 for forfeited reinvested accounts.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

PAYMENT OF BENEFITS

Upon separation of service, death, disability or retirement, a participant or beneficiary will be eligible to receive their vested benefits in the form of a lump sum payment, in installments, or as a direct rollover into another qualified plan as defined by the Plan.

Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

ADMINISTRATIVE EXPENSES

All administrative expenses of the Plan are paid by the Company. Participant related fees are paid by the participants and included in administrative expenses on the statement of changes in net assets available for benefits.

NOTES RECEIVABLE FROM PARTICIPANTS

A participant may borrow the lesser of $50,000, reduced by the difference of all loans a participant had outstanding during the twelve-month prior to the date the new loan was made through the loan issue date, or 50 percent of his or her vested account balance, with a minimum loan amount of $1,000. Loans are repayable through payroll deductions over periods ranging up to 60 months, unless the loans were used to purchase a primary residence in which case the loan terms may exceed 60 months. Interest rates are based on the federal prime rate listed in the *Wall Street Journal* on the 14th of the month plus 1 percent for any loan granted as of the 16th of the month. Interest rates charged ranged from 4.25 percent to 9.25 percent for the fiscal year-ended June 30, 2011.

EXCESS CONTRIBUTIONS

For the fiscal year ended June 30, 2011, the Plan failed the Actual Deferral Percentage ("ADP") test and refunded excess contributions of $62,534 to affected participants. The refund occurred on November 18, 2011 and November 21, 2011 and was accounted for as a liability in the accompanying statement of net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

BASIS OF ACCOUNTING

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. The Plan's investment in the Invesco Stable Asset Fund, a common/collective trust, and is valued at fair value. However, contract value is the relevant measurement attributed for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the common/collective trust an adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis in accordance with Accounting Standards Codification ("ASC") 962, "Plan Accounting Defined Contribution Pension Plans".

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments in common/collective trusts and mutual funds are presented at fair value, based on the quoted or estimated market prices which represent the net asset value of shares held by the Plan at its fiscal year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date and dividends declared are reinvested. All gains and losses (realized and unrealized) are reported in the net depreciation in fair value of investments on the accompanying Statement of Changes in Net Assets Available for Benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PAYMENT OF BENEFITS

Benefits are recorded when paid.

RECLASSIFICATIONS

Certain amounts in the prior year's financial statements have been reclassified for comparative purposes to conform to the presentation in the current year's financial statements. These classifications have no effect on previously reported net increase to net assets available for benefits.

NOTE 3 - FAIR VALUE MEASUREMENTS

ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

LEVEL 2 (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of June 30, 2011 and 2010:

Common/Collective Trusts: Valued at the net value of participation units held by the Plan at year end. The value of these units is determined by the trustee of the Plan based on the current market values of the underlying assets of the common/collective trusts as based on information reported by the investment advisory using the audited financial statements of the respective common/collective trust at year end.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end as reported on national securities exchanges.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2011 and 2010:

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform auditing procedures with respect to the information certified by State Street Corporation Investor Services – Global Fund Accounting and Custody, at June 30, 2011 and 2010, except for comparing the information certified by the trustee, to information included in the Plan's financial statements schedule of assets (held at end of year).

NOTE 6 - TAX STATUS

The Employer adopted a Prototype plan, which received an opinion letter from the Internal Revenue Service ("IRS"), dated October 9, 2003, which stated that the Employer may rely on the opinion letter with respect to the qualification of the Plan under IRC Section 401(a) except as stated below, and also informed the Employer that the Prototype Plan will not receive a determination letter. The opinion of the IRS does not apply for purposes of IRC 401(a)(10)(B) and 401(a)(16); however, the Employer may separately request a determination from the IRS with respect thereto. The Employer has not requested such a determination. The plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustain upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure is the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment options in any combination of common/collective trusts and mutual funds with various investment objectives. Investment securities, including common/collective trusts and mutual funds, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statements of net asset available for benefits.

NOTE 10 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and units of common/collective trusts managed by State Street Corporation Investor Services – Global Fund Accounting and Custody, the trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $2,055 for the year ended June 30, 2011.

The Plan's management has evaluated events occurring subsequent to June 30, 2011 through February 23, 2012, the date the financial statements were available to be issued, for potential recognition and disclosure in the accompanying financial statements.
