INDEPENDENT AUDITORS' REPORT

The Board of Directors Niemann Foods, Inc.
& the Trustees
Niemann Foods, Inc. 401(k) Profit Sharing Plan
1501 North 12th Street
Quincy, Illinois

To the Directors and Trustees:

We have audited the accompanying statements of net assets available for benefits of Niemann Foods, Inc. 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Niemann Foods, Inc. 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of (1) assets held at end of year as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Report and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NIEMANN FOODS, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note (1) Description of Plan

The following description of the Niemann Foods, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering all employees of the Company who have completed 1,000 hours of service in a plan year and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions.* Each year, the Company contributes to the Plan a percent of its participants' wages. The Company contributed 2.46% of each participants' wages for 2011, and 2.54% for 2010. The Company also matches contributions to the Plan based upon employees' contributions to the 401(k) portion of the Plan. For 2011 and 2010, the Company matched 25% of an employee's contribution capped at 6.00% of employee's eligible wages.

3. *Participant Accounts.* Each participant's account is credited with the participant's allocation of (a) the Company's contribution, (b) Plan earnings, (c) employee contributions and (d) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4. *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions is based on years of continuous service. A participant is 100 percent vested after six years of credited service for the profit sharing and 401(k).

5. *Payment of Benefits.* On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or annual installments over the life expectancy of the participant.

6. *Plan Termination.* Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

7. *Tax Status.* The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designed.

Note (2) Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note (4) for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Plan expenses are paid using the forfeitures generated by the plan. Excess expenses over forfeitures generated are paid by Niemann Foods, Inc.

Subsequent Events

The Plan has evaluated subsequent events through May 21, 2012, the date upon which the financial statements were available to be issued. Management has not identified any material subsequent events which are to be disclosed under generally accepted accounting standards.

Note (3) Investments

The Plan's investments are held by a broker administered trust fund. The following table presents investments at December 31, 2011December 31, 2011 and 2010. Investments that represent 5 percent or more of the Plan's net assets are:

	2011	2010
American Funds Mutual Funds:		
American Balanced	$ 8,200,988	$ 8,162,262
Growth Fund of America	3,488,626	3,772,370
Washington Mutual Investors	3,082,111	2,920,149
New Perspective Fund	2,097,516	2,534,787
Other American Funds Mutual Funds	6,600,396	6,056,023
Company ESOP stock	1,234,255	1,229,755
Total Investments	$ 24,703,892	$ 24,675,346

Note (4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Level 1 Fair Value Measurements

The fair values of mutual fund securities are available and based on quoted market prices, when available.

Level 3 Fair Value Measurements

The fair value of certain Company ESOP stock for which quoted market price is not available is determined by annual independent appraisals. The December 31, 2011 appraisal was for $23.76 per share, and the 2010 appraisal was for $22.10 per share.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note (4) Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2011				
Mutual funds	$ 23,469,637	$ 23,469,637	$ -	$ -
Company ESOP stock	1,234,255	-	-	1,234,255
Total	$ 24,703,892	$ 23,469,637	$ -	$ 1,234,255
December 31, 2010				
Mutual funds	$ 23,445,591	$ 23,445,591	$ -	$ -
Company ESOP stock	1,229,755	-	-	1,229,755
Total	$ 24,675,346	$ 23,445,591	$ -	$ 1,229,755

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2011 and 2010:

	2011	2010
Beginning balance	$ 1,229,755	$ 1,188,589
Increase in appraised value	84,296	74,564
Stock repurchased by Company	(79,796)	(33,398)
Ending Balance	$ 1,234,255	$ 1,229,755

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Note (5) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect particpants' account balances and the amounts reported in the statement of net assets available for benefits.
