Independent Auditors' Report

To the Plan Sponsor and Administrator
Nassau Candy Retirement Savings Plan

We were engaged to audit the financial statements and supplemental schedule of the Nassau Candy Retirement Savings Plan (the "Plan") as of September 30, 2011, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan, as of September 30, 2010, were audited by other auditors, whose practice was merged with WeiserMazars, LLP as of January 1, 2012. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by John Hancock Life Insurance Company of New York, the trustee of the Plan. Their report, dated July 12, 2011, indicated that because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole, and the form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company of New York, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of September 30, 2011, and for the year then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying September 30, 2011, financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of Nassau Candy Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established on March 1, 1989, is a defined contribution plan covering eligible employees of Nassau Candy Distributors, Inc., Stellar Trucking Co. Inc., Nassau Candy Midwest, LLC, and Nassau Gourmet Foods, LLC (the "Company"). Full-time employees not covered by a collective bargaining agreement, who have attained the age of twenty-one with one year of service, are eligible to participate in the Plan. An employee's entry date into the Plan is the first day of the Plan year or the first day of the seventh month of the Plan year coinciding with or following the date of eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Participant Salary Deferral

Participants in the Plan may contribute a discretionary amount of their annual compensation and bonus provided that the participant's contribution does not exceed the maximum dollar amount determined by the Internal Revenue Service ("IRS") each year, which was $16,500 for the year ended September 30, 2011. Employees over the age of 50 can elect to contribute an additional $5,500, each year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer Discretionary Matching Contributions

Participants are eligible to receive a discretionary matching contribution based on a discretionary percentage of a participant's elective deferrals. The matching contribution is made on an annual basis for all participants who have completed a year of service during the plan year and are employed on the last day of the plan year. During the year ended September 30, 2011, the Company made matching contributions, net of forfeitures, equal to 25% of the first 6% of salary deferral by participant. The matching contributions totaled $52,927 in 2011.

Employer Discretionary Profit Sharing Contributions

The Company may make discretionary profit sharing contributions to participants. There were no discretionary profit sharing contributions for 2011.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's discretionary matching and profit sharing contributions plus actual earnings thereon based on the following schedule:

Years of Service	Vesting Requirement
Less than two years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Accounts
Individual participant accounts are credited with applicable participant contributions, an allocation of the Company's contributions, and investment earnings or losses, and are charged with an allocation of administrative expenses. Allocations are based upon participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is equal to the vested portion of the participant's account.

Forfeitures
A participant who terminates employment and is less than 100% vested forfeits the non-vested portion of his account. Forfeitures attributable to employer matching contributions are used to reduce administrative expenses of the Plan with any remaining amounts to be allocated among active participants in the Plan. Forfeitures attributable to profit sharing contributions are used to reduce the employer's contribution. Forfeitures amounted to $1,012 for the year ended September 30, 2011. The unallocated forfeiture balance at September 30, 2011, amounted to $1,443.

Investment Options
Participants may direct contributions to any of the investment options offered by the Plan. Participants may change their investment options on a daily basis.

Distributions
Distributions from the Plan are permitted under the following circumstances: (i) attainment of age 59 ½, (ii) termination of employment, (iii) death or permanent disability, and (iv) a proven hardship. Distributions from a participant's account are made in the form of a lump-sum payment or installments over a period of not more than the participant's assumed life expectancy (or the assumed life expectancy of a beneficiary).

Notes Receivable from Participants
In general, the Plan administrator may permit participants to borrow from their fund accounts a minimum of $1,000 not to exceed the lesser of either (i) $50,000 or (ii) 50% of the vested amount of the participant's account attributable to salary deferrals and rollovers from other plans. There is no limit on the number of loans that a participant may have outstanding at any one time.

Loans are secured by the balance in the participant's account and bear interest at an interest rate determined by the Plan administrator based on annual interest rates charged for similar types of loans by other lenders (rates ranged from 4.25% to 9.75% in 2011 and 4.25% to 9.25% in 2010). Loans shall be repaid over a period of up to five years. Loans are repaid through payroll deductions. At September 30, 2011 and 2010, participant loans were $222,818 and $147,223, respectively.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting
The financial statements have been prepared using the accrual basis of accounting.

Guaranteed Interest Accounts
Investment contracts held by a defined contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Dividends are recorded on the ex-dividend date. Interest is included in income when earned, based on the terms of the investments and the periods during which the investments are owned. Purchases and sales of securities are recorded on a trade-date basis.

The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net change in the fair value of its investments which consists of realized gains or losses, and unrealized appreciation or depreciation on those investments.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of Plan income and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses
Administrative expenses are paid by the Company.

3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company of New York, the trustee, has certified that the following data included in the accompanying financial statements is complete and accurate.

	September 30, 2011	September 30, 2010
Cash	$ 431	$ 431
Guaranteed interest accounts	34,853	34,915
Investments in pooled separate accounts	2,518,863	2,454,068
Notes receivable from participants	222,818	147,223
	$ 2,776,965	$ 2,636,637

	Year Ended September 30, 2011
Net depreciation in fair value of investments	$ (50,410)
Interest income on notes receivable from participants	9,044
Interest income on guaranteed interest accounts	719

During the year ended September 30, 2011, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held, during the year) depreciated in fair value by $50,410, as determined by quoted market prices.

4. Investments

Investments that represent 5% or more of fair value of the Plan's net assets at September 30, 2011 and 2010, respectively, are as follows:

	September 30, 2011	2010
Lifestyle Balanced	$ 1,088,046	$ 1,084,577
Lifestyle Conservative	153,934	137,172
Lifestyle Growth	471,167	509,500

5. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("ASC") No. 820, *Fair Value Measurements and Disclosures* ("ASC 820"), provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Shares of pooled separate accounts are valued using the quoted market prices in an active market.

- Shares of guaranteed investment contracts are determined by discounting the related cash flows based on current yield of similar instruments with comparable durations.

There have been no changes in the methodologies used at September 30, 2011 and 2010. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2011 and 2010:

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (level 3) of the guaranteed interest accounts for the years ended September 30, 2011 and 2010:

	September 30,	
	2011	2010
Beginning balance	$ 34,915	$ 31,436

Purchases, sales, issuances and settlements:		
Purchases	3,188	3,070
Sales	(3,738)	(268)
	$ 50,847	$ 34,915

Gains and losses included in changes in net assets available for benefits for the year ended September 30, 2011, are reported in net depreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended September 30, 2011, there were no significant transfers into or out of Level 3.

6. Guaranteed Interest Accounts

The Plan invests in fully benefit-responsive investment contracts with John Hancock Life Insurance Company of New York ("The Trustee"). The Trustee maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the Trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investments at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all, or a portion, of their investment at contract value.

There are no reserves against the value for credit risk of the contract issues or otherwise. The fair value of the investment contracts at September 30, 2011 and 2010, was $34,853 and $34,915, respectively. The average yield crediting interest rates for the years ending September 30, 2011 and 2010 ranged from .29% to 1.56% and .44% to 1.63% respectively. The contracts have between a three to ten year maturity. The crediting interest rate is based on the agreed-upon formula with the issuers.

Certain events limit the Plan's ability to transact at contract value with the Trustee. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. Related Party Transactions

The Company administers the Plan from its office. Certain Plan investments are managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $7,486 for the year ended September 30, 2011.

8. Tax Status

The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that it is no longer subject to income tax examinations for years prior to 2007.

9. Risk and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities may occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

11. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at September 30:

	2011	2010
Net assets available for benefits per the financial statements	$ 2,846,752	$ 2,687,101
Add: Cash surrender value - life insurance policies	-	15,019
Less: Adjustment from fair value to contract value for fully benefit responsive investment contracts	(866)	(1,358)
Net assets available for benefits per Schedule H to the Form 5500	$ 2,845,886	$ 2,700,762

The following is a reconciliation of changes in net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended September 30, 2011:

	2011
Net increase in net assets available for benefits per the financial statements	$ 159,651
Add: Adjustment for change in fair value to contract value for fully benefit responsive investment contracts	492
Other income	(15,019)
Employee contributions to life insurance premiums	682
Less: Benefit payments to insurance carriers	(682)
Changes in net assets available for benefits per Schedule H of Form 5500	$ 145,124

12. Subsequent Events

The Plan has evaluated events and transactions subsequent to the Plan's year end through the time these financial statements were available for issuance on July 9, 2012.
