Report of Independent Public Accountants

To the Board of Trustees and Plan Administrator
TDX Construction Corp. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of TDX Construction Corp. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2011, and the supplemental schedules - Schedule H, Line 4i – schedule of assets (held at end of year) (modified cash basis) as of December 31, 2011 and Schedule H, Line 4a – schedule of delinquent participant contributions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Transamerica Financial Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental Schedule H, Line 4i – schedule of assets (held at end of year). We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

As described in Note 2, these financial statements and the supplemental Schedule H, Line 4i – schedule of assets (held at end of year) were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TDX CONSTRUCTION CORP. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of TDX Construction Corp. 401(k) Plan (the "Plan") is provided only for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The effective date of the Plan is February 1, 1997. Effective January 1, 2011, the Plan has been amended.

General:

The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers substantially all full-time employees of TDX Construction Corp. (the "Company") that are not covered under a collective bargaining agreement. Employees are immediately eligible to participate in the Plan. However, the minimum age requirement is 18 years old.

Contributions:

Each year, participants may make voluntary contributions to the Plan up to the maximum percentage allowable not to exceed the limits of Internal Revenue Code (the "Code") Sections 401(k), 402(g), 404 and 415 ($16,500 in 2011) of their compensation on a pre-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions ($5,500 in 2011). Participants are also eligible to make contributions to a Roth 401(k) component which is includable in the participants' gross income. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The employer may elect to make a discretionary non-elective (profit sharing) contribution which will be divided among the participants eligible to share in that contribution. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain Code limitations.

Adopted with the amendment effective January 1, 2011 are automatic contribution arrangements. Unless an election is made by the participant, the employer will automatically withhold 3% from the participant's compensation each payroll period and this deferral will automatically increase 1% per year up to a maximum of 6% of compensation. The amendment provides for an employer safe harbor contribution which is the sum of 100% of a participant's elective deferrals that do not exceed 1% of participant's compensation, plus 50% of the participant's elective deferrals that exceed 1% of the participant's compensation but do not exceed 6% of the participant's compensation. Employer contributions become 100% vested after two years. If an amendment election has not been made, contributions will be automatically invested in the Vanguard Target Retirement Series fund.

The amendment effective January 1, 2011 excluded interns and temporary workers from participating in the Plan.

Note 1 - Description of Plan (concluded):

Participant accounts:

Each participant's account is credited or charged with the participant's contributions, the sponsoring company's matching contributions, if any, and an allocation of the Plan earnings or an allocation of the Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. Based on the following vesting schedule, a participant is 100% vested in matching contributions and profit sharing contributions after two years of credited service:

Years of Service	Vested %
Less than 1	0%
1	0%
2	100%

Participant loans:

Participant loans are prohibited in the Plan.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installment payments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In the event of a serious financial hardship, participants may withdraw a portion of their participant accounts not to exceed the amount required to meet the immediate needs.

Forfeited accounts:

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $40,288 and $148,057, respectively. These accounts may be applied to Plan administration expenses and be used to reduce future employer contributions. During the year ended December 31, 2011, the Company used $2,443 of the forfeited account to pay administrative expenses.

Administrative costs:

The Plan stipulates that all costs incurred in administering the Plan must be paid out of the Plan unless paid by the employer. During 2011 and 2010, expenses were paid by both the employer and the Plan.

Note 2 - Summary of significant accounting policies:

Basis of presentation:

The Plan's financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method, investment income and contributions are recorded when received, and investment and administrative expenses and return of excess contributions are recorded when paid, rather than recording such items on an accrual basis.

The Plan presents the net appreciation or depreciation in the fair value of its investments in the statement of changes in net assets available for benefits which consists of the realized gains and losses and the unrealized appreciation/depreciation of those investments.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts at contract value which approximates fair value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of significant accounting policies (concluded):

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Administrative expenses are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through July 11, 2012, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements:

The Plan values its financial assets based on the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

Note 3 - Fair value measurements (continued):

Financial assets carried at fair value at December 31, 2011 and 2010 are classified in the table below in the three categories described above:

Note 3 - Fair value measurements (concluded):

Pooled separate account funds

The Plan's interest in the pooled separate account funds is valued based on information reported by the investment advisor using the financial statements of the pooled separate account funds at year end. The net asset value is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of shares outstanding.

Investment contract

The contract is valued at fair value, which equals contract value, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table reconciles the beginning and ending balances of fair value measurement using significant unobservable inputs (Level 3) of the investment contract for the year ended December 31, 2011:

Balance, beginning of year	$ 2,151,008
Realized gains	67,331
Purchases	1,046,215
Sales	(380,297)
Balance, end of year	$ 2,884,257

Note 4 - Investments:

As of December 31, 2011 and 2010, the Plan's investments that represented 5% or more of net assets available for benefits are as follows:

	2011	2010
Stable Value Fund (A)	**$2,884,257**	$2,151,008
American Funds Fundamental Inv	**762,394**	745,215
American Funds Grth Fund of America	**1,082,051**	1,073,491
Vanguard Target Ret 2010	**-**	541,128
Oppenheimer Main St Small Cap	**516,132**	520,740

Note 4 - Investments (concluded):

(A) These investments are in the insurance company's general account and earn a fixed rate of interest which is reset monthly. For the years ended December 31, 2011 and 2010, the average yield was 2.86% and 3.15%, respectively. As of December 31, 2011 and 2010, both the minimum and closing rates were 2.45% and 2.90%, respectively. These contracts carry a degree of credit risk - if the insurance company fails to perform according to the terms of the contract, the asset value could be impaired. The contract has no stated maturity date, and the amount payable to the Plan participants are on demand.

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $321,964 as follows:

Pooled separate account funds - mutual funds	$ 321,964

Note 5 - Related party transactions:

Plan investments are managed by Transamerica Financial Life Insurance Company ("Transamerica"). Transamerica is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $3,566 for the year ended December 31, 2011.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7 - Tax status:

The Plan obtained its latest determined letter on May 30, 2008, in which the Internal Revenue Service (the "IRS") states that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirement of the Code.

Note 7 - Tax status (concluded):

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 - Certification by the trustee:

The following account balances and transactions were obtained from statements certified by Transamerica Financial Life Insurance Company, trustee of the Plan:

Statements of net assets available for benefits (modified cash basis):
Investments

Statement of changes in net assets available for benefits (modified cash basis):
Investment income (loss)

Schedule of assets (held at end of year) (modified cash basis)

Note 9 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Nonexempt transactions:

As reported on the supplemental schedule of delinquent participant contributions (Schedule H, Line 4a), contributions in the amount of $50,177 were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2011. Although the participants' deferrals had been made to the Plan, the lost earnings amounting to $89 were deposited to the Plan on May 22, 2012.
