INDEPENDENT AUDITORS' REPORT

We were engaged to audit the accompanying statements of net assets available for benefits of Vortex Employees 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, line 4i - Schedule of Assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note H, which was certified by Transamerica Life Insurance Company, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Custodian as of, and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on these financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements, but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2011

A. Description of Plan

The following description of the Vortex ("Company") Employees 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is a defined contribution plan covering all employees of the Company who have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts. Each participant's account is credited with the participant's elective contribution, and allocations of any Company's contribution and Plan earnings, and is reduced by Plan fees. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Employee Elective Contributions. Each year, participants may contribute 1% to 50% of their annual compensation, as defined in the Plan. Participants may not transfer amounts from other qualified plans. Contributions are subject to certain limitations under ERISA.

Employer Contributions. At the end of each Plan year, the Company may make a contribution on a discretionary basis, on behalf of all participants who have made contributions for the plan year. These contributions are referred to as Matching Contributions and will be allocated based upon the percentage of elective contributions to the total elective contributions of all participants. At the end of each plan year, the Company may make an additional contribution on a discretionary basis on behalf of all eligible employees whether or not they made elective contributions for the plan year. These contributions are referred to as Non-Matching Contributions and will be allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. No employer contributions have been made by the Company since the Plan's inception.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after two years of credited service, 40% vested after three years, 60% vested after four years, 80% vested after five years, and 100% vested after six years.

Investment Options. Plan contributions are invested under a Group Annuity Contract issued by Transamerica Life Insurance Company, and are allocated to the various investment funds at the direction of the participant. Investment options may be changed daily by the participant.

Notes Receivable From Participants. Participants are allowed to borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans were made only once during a plan year, and only one loan may be outstanding. Loans must be fully repaid within five years, or 6 to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through monthly payroll deductions.

A. Description of Plan - continued

Payment of Benefits. Participants may withdraw their vested interest in their account upon termination of employment, death, disability, retirement, attainment of age 59½ while employed, or for financial hardship. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or if the vested account balance is more than $5,000, the participant may choose among various optional forms of monthly annuity payments or defer receiving payments until age 70½ or retirement. The lump-sum distribution may be taken in cash, or may be directly rolled over into another qualified plan or IRA.

Operating Expenses. All expenses of maintaining the Plan are paid by the Company.

Forfeitures. The portion of any unvested employer contributions remaining upon termination of employment will be used to reduce future employer contributions.

Investments. The following presents investments that represent 5 percent or more of the Plan's net assets.

	2011	2010
Transamerica Stable Value Option	$906,353	$822,306
WMC Quality Growth Equity Fund	324,848	366,523
Aegon Balanced Fund	341,221	344,209
Janus Growth Fund	325,676	330,132
Morgan Stanley Growth Fund	524,480	535,329
Morgan Stanley Growth Opportunities Fund	491,220	523,629
WMC Core Equity Fund	311,505	312,650

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value by ($187,675) and $757,561, respectively.

B. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting, except for the cash basis recording of benefits paid.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note I for discussion of fair value measurements.

B. Summary of Significant Accounting Policies - continued

Investments. The investments in all of the funds, except the Stable Value Fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Stable Value Fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investment in the Stable Value Fund is estimated to be the same as contract value.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Subsequent Events. For the year ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through July 18, 2012, the date the financial statements were available to be issued.

C. Plan Termination Option

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in any employer contributions allocated to their accounts.

D. Tax Status

The Company adopted a prototype standardized defined contribution plan which is designed in accordance with Section 501(c)(9) of the Internal Revenue Code (IRC), and the Plan, therefore, is exempt from Federal income taxes.

D. Tax Status - continued

Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or DOL. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

E. Excess Contributions

Contributions received from participants for 2011 are net of payments of $36,320 made in January 2012 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2011.

F. Investment Contract with Insurance Company

The Plan has entered into a benefit-responsive investment contract with Transamerica Life Insurance Company (Transamerica). The Stable Value Option investment choice is invested in the general account of Transamerica. The account is credited with earnings based upon interest rates set monthly and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Transamerica. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As described in Note B, because the Stable Value Option investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Transamerica Group Annuity contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Contract value is fair value of the investment contract, and the values at December 31, 2011 and 2010 were $906,353 and $822,306, respectively. The average crediting interest rates for the years ended December 31, 2011 and 2010 was 2.45% and 2.73%, respectively.

G. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 to Form 5500:

	Assets	Contributions	Benefits
Net assets available for benefits/contributions per the financial statements	$6,232,750	$ 651,522	$ 175,125
Excess contributions payable - 2011	36,320	36,320	-0-
Excess contributions payable - 2010	-0-	-0-	40,007
Net assets available for benefits/contributions per Form 5500	$6,269,070	$ 687,842	$ 215,132

H. Information Prepared and Certified by Plan Custodian (Unaudited)

The Plan Administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations of Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data in the accompanying financial statements and supplemental schedule is complete and accurate:

	2011	2010
Participant - directed investments, at fair value	$6,084,767	$5,844,225
Total investment income (loss)	($ 167,722)	$ 774,993
Administrative expenses	$ 24,298	$ 22,753

The information included in the Schedule of Assets Held at end of year.

I. Fair Value Measurements

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

I. Fair Value Measurements - continued

Basis of Fair Value Measurements:

Level 1 Unadjusted quoted prices in active markets for identical unrestricted assets or liabilities that the Plan has the ability to access.

Level 2 Quoted prices for similar assets in active markets, quoted prices for identical assets in markets that are not active, and inputs derived principally from observable market data.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Separate Accounts: These investment options are proprietary to Transamerica and many invest exclusively in one underlying mutual fund traded on an established market. Such investment choices are valued daily using publicly available quoted market prices. Those accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers that may use alternative observable pricing inputs for certain securities.

Stable Value Option: The Stable Value Option is a fully benefit-responsive investment contract issued by an insurance company. The fair value of the investment is based on the value derived from the fair value of the underlying general account funds of Transamerica that are the primary assets of the investment, and is considered fairly valued at contract value.

Participant Loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

I. Fair Value Measurements - continued

Assets at Fair Value as of December 31, 2011

	Level 1	Level 2	Level 3	Total

Total assets at fair value	$4,459,414	$1,384,811	$ -	$5,844,225

J. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Transamerica Life Insurance Company. Transamerica is the custodian as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $24,298 for the year ended December 31, 2011.

K. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
