1. Description of the Plan

The following description of the DRA Advisors LLC 401(k) Profit Sharing Plan (the "Plan") is provided for general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan sponsored and administered by DRA Advisors LLC and Capital Automotive Limited Partnership. The Plan covers all employees of DRA Advisors LLC and Capital Automotive Limited Partnership (collectively, the "Companies") who are age 21 or older. Employees become eligible to participate in the Plan on the first day of the quarter following the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each participant may contribute a percentage of their pre-tax compensation up to a maximum of 92% of the participant's eligible compensation, subject to certain limits imposed by the Internal Revenue Code. For the years ended December 31, 2009 and 2008, the Companies matched a certain percentage of participant contributions limited to a certain percentage of compensation. For 2009 and 2008, the maximum participant contribution is $16,500 and $15,500, respectively, while participants who have attained age 50 by the end of the plan year can make additional catch-up contributions of up to $5,500 and $5,000, respectively. Participants may also contribute amounts representing distributions from other qualified retirement plans. Additional amounts may be contributed at the discretion of the Plan Sponsor's Board of Directors on an annual basis. For the years ended December 31, 2009 and 2008, no additional amounts were contributed to the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant, or his or her beneficiary, may elect to receive a lump-sum distribution of his or her entire account balance or a portion of the account balance. For termination of service for other reasons, the participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution of his or her entire account balance or a portion of the account balance.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Companies' discretionary matching contributions and an allocation of investment earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested benefit in the participant's account.

Investments

Participants direct the investment of contributions and matching contributions into investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' discretionary matching contributions is based on years of service. A participant vests 20% per year for each year of service and is 100% vested after 5 years. In the event the Plan is terminated, matching contribution to the participants' accounts will become fully vested.

Forfeitures

Forfeitures of the nonvested portion of terminated participant accounts may be used to pay for Plan administration expenses and also may be used to reduce employer matching contributions. Total forfeitures of $65,826 were used to reduce employer matching contributions for 2009. At December 31, 2009 and 2008, the Plan's forfeiture account balance was $25,755 and $69,473, respectively.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates determined by the plan administrator (4.25% and 5.00% at December 31, 2009 and 2008, respectively). Loans are repayable through periodic payroll deductions, or by check or money order whenever payroll withholdings are not possible, over a period generally ranging up to 60 months. Principal and interest are paid ratably through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

2. Summary of Significant Accounting Policies

Basis of Preparation

The Plan reports on the basis of cash receipts and disbursements, except that investments are reported at fair value in the statements of net assets available for benefits and changes in fair value of investments are shown as appreciation or depreciation in the statements of changes in net assets available for plan benefits. This modified cash basis is a comprehensive basis of accounting other than generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties
The Plan has contracts with its Custodians that encompass various investment instruments, including mutual funds and guaranteed investment accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value as measured by quoted prices in an active market. Fully benefit-responsive investment contracts are stated at contract value which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the date received. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in mutual funds and guaranteed investment accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits
Benefit payments to participants are recorded when paid.

Administrative Expenses
Administrative expenses of the Plan are paid by the Plan to the extent not paid by the plan sponsors. For the years ended December 31, 2009 and 2008, the administrative expenses of the Plan totaled $1,012 and $1,125, respectively.

3. Investments Information Certified by the Plan's Custodians (Unaudited)

The following is a summary of the investment information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2009 and 2008, that was prepared by First Great-West Life and Annuity Company ("FGWLAC") and Orchard Trust Company LLC, the Custodians of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the Custodians that such information is complete and accurate.

(*) Plan investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008.

The investment income (loss) for the years ended December 31, is as follows:

	2009	2008
Net appreciation (depreciation) in fair value of investments	$ 2,749,571	$ (4,544,778)
Interest and dividends	31,309	18,736
Interest - loans to participants	12,343	16,891
	$ 2,793,223	$ (4,509,151)

Net appreciation (depreciation) in fair value of investments amounting to $2,749,571 and ($4,544,778) for the years ended December 31, 2009 and 2008 was entirely attributable to mutual funds held.

4. Fully Benefit-Responsive Investment Contract with Insurance Company

The Plan is party to an investment contract with FGWLAC whereby FGWLAC maintained certain of the Plan's contributions in a guaranteed investment account.

The guaranteed investment account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by FGWLAC. The contract was fully benefit-responsive and was reflected in the financial statements at contract value, which approximates fair value. For the years ended December 31, 2009 and 2008, the average yield of the guaranteed investment account was approximately 3.16% and 3.55%, respectively. The minimum crediting interest rate for 2009 and 2008 was 0.00%.

The crediting interest rate for the guaranteed interest fund is determined as follows: the current yield to maturity of the underlying investments plus or minus an adjustment for any difference between the contract value and fair value of securities taken over the contract value and the duration of the securities. The key factors that influenced credit rates are changes to market interest rates, changes in the market value of securities, changes in the duration or weighted average life of securities and deposits or withdrawals to the guaranteed interest fund. The interest crediting rate is reset at least semi-annually, although under certain circumstances such as a large deposit or withdrawal, they may be reset more frequently.

Certain events could limit the ability of the Plan to transact at contract value with FGWLAC. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsors or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is reasonably possible.

The guaranteed investment contract does not permit FGWLAC to terminate the agreement prior to the scheduled maturity date.

5. Party-in-Interest Transactions

Certain Plan investments were managed by FGWLAC during the years ended December 31, 2009 and 2008. FGWLAC is a custodian of the Plan and, therefore, transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

6. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Subsequent Events

The Company has evaluated subsequent events through July 23, 2010, the date the financial statements were available to be issued.
