We were engaged to audit the statements of net assets available for benefits of Karen Kane, Inc., 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for plan benefits for the years then ended, and the supplemental schedule of assets held for investment. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 2, which was certified by Great West Life & Annuity Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedules other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Securities Act of 1974.

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value as described below:

- *Variable Annuities*: Prices/unit values for Variable Annuity investment options are calculated daily by the annuity provider according to the methods described in the annuity contract.
- *Fixed Annuities:* The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Unrealized appreciation or depreciation resulting from market changes in investments is added to, or subtracted from, net assets.

Purchase and sale of investments are recorded on trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital distributions are included in dividend income.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

All expenses incurred in connection with the Plan's administration were paid by the Company, except for administrative fees on Participant's Loans and account management fees, which were paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

1. Description of the Plan

The following description of the Karen Kane, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. The Plan document provides a more complete description of the Plan's provisions.

General - The Plan was adopted by Karen Kane, Inc. (the "Employer" and the "Plan Administrator") as of April 1, 1988. The Plan was amended as of January 1, 2003 and conforms to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA").

Eligibility - The Plan covers all full-time employees of the Company who have at least six months of service and are age 21, or older.

Contributions - The eligible employees may elect to contribute up to 100% percent of their compensation, but not to exceed the maximum amount allowed under the section 401(k) of the Internal Revenue Code. The Plan allows the Employer to make discretionary matching contribution. "Rollover" contributions from other qualified plans are allowed. However, the Employer does not match rollover contributions.

Participant Accounts - Each participant's account is credited with (a) participant's contributions; (b) Employer's matching contribution, (c) Plan earnings, and (d) allocation of employer's profit sharing contribution, if any. Allocations of Employer's profit sharing contribution are based upon an employee's proportionate share of eligible earnings.

Certain fees are charged to the funds and are offset against plan investments income and losses as presented on the statements of changes of net assets available for benefits. The prospectuses of these funds provide details on the various types and amounts of investments fees charged to the Plan and their individual accounts.

Vesting - Participants are fully vested immediately for their contributions, including rollovers, plus actual earnings thereon. Vesting in the remainder of the accounts is based on years of service. The vesting schedule in effect for the years ended December 31, 2011 and 2010 were as follows:

Years of Service	Percentage Vested
1	20
2	40
3	60
4	80
5 or more	100

Trustee - Great West Life & Annuity Insurance Company is the Plan Trustee ("Trustee") and holds the Plan assets.

1. Description of the Plan - (Continued)

Plan Investment - The Plan's assets are held in trust and the plan offers 31 investment options through Variable Annuities (holding underlying investments of mutual funds) and Fixed Annuities (holding underlying Guaranteed Investments Contracts, GICs). Plan participants may direct their contributions in 1% increments to any of these investment options. The participants select the percentage or amount of contributions to be allocated to each investment option. Participant's contributions are withheld from their paychecks and remitted to the Trustee. The participants' accounts are credited with actual earnings on underlying investments. Earnings on investments include interest income, dividends and realized and unrealized gains or losses from the funds.

Payment of Benefits - Benefits attributable to each participant become fully vested in the event of death, total disability, or normal retirement at age 65. Participants whose service terminates prior to their normal retirement age, other than by reason of death or disability, are entitled to a termination benefit based upon their vested entitlements. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of their account, or installments over a period of time.

In addition, a participant may make withdrawals of vested benefits under certain limited circumstances, including financial hardship and participant loans.

Notes Receivable from Participants - Loans are available to active participants who maintain an account balance under the Plan provided that the minimum loan amount is $1,000 with a maximum of $50,000 or 50% of the participant's vested account balance, whichever is less. Such loans are collateralized by the respective participant's account, with interest and principal payments being credited to the participant's account according to the then current investment choices. All loans are subject to repayment through payroll deductions over a maximum period of 5 years, except for loans to purchase primary residence, for which the period is up to 15 years. The interest rate for loans is the prime rate published in the Wall Street Journal on the date of loan approval plus two percent.

Forfeitures - The portion of a participant's account that is not vested is forfeited when the participant's employment with the Company is terminated. These forfeitures are first used to pay administrative expenses of the Plan and then to reduce future employer contributions payable under the Plan. At December 31, 2011 and 2010 the balance in the forfeiture non-vested account amounted to $3,741 and $1,278, respectively. During the years ended December 31, 2011 and 2010, employer contributions were reduced from forfeited funds by $778 and $30,204, respectively.

1. Description of the Plan - (Continued)

Risk and Uncertainties - The Plan invests in various financial investments. All such investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain financial investments, it is at least reasonably possible that changes in the values of the investments securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Plan Termination - The Company anticipates and believes that the Plan will continue without interruption, but reserves the right to terminate the Plan in whole or in part at any time. In the event of termination of the Plan, the net assets will be allocated amongst the participants in accordance with the terms of the Plan and ERISA.

2. Investments

The fair value of investments that represent 5% or more of the Plan's net assets available for benefits is as follows:

	December 31, 2011 Net Asset Value	December 31, 2010 Net Asset Value

3. Information Certified by the Trustee

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules as of December 31, 2011 and 2010 and for the years then ended, that was prepared or derived from information prepared by the Trustee:

a) Statements of Net Assets Available for Benefits, except for participants' loans.
b) Statements of changes in Net Assets Available for Benefits, except for contributions and deductions.
c) Supplemental schedule.

The Plan Administrator has obtained a certification from the Trustee that such information is complete and accurate.

4. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement and Disclosure,* established a framework for measuring fair value. Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Statement also establishes a fair value hierarchy that distinguishes between inputs based on market data from independent sources (observable inputs) and a reporting entity's internal assumptions based on the best information available when external market data is limited or unavailable (unobservable inputs). The fair value hierarchy in ASC 820 prioritizes fair value measurements into following three levels based on the nature of inputs:

Level 1
Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2
Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3
Certain inputs are unobservable, supported by little or no market activity, and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of fair value.

In January 2010, the FASB issued ASU No. 2010 - 06, *Fair ValueMeasurements and Disclosures : Improving* Disclosures *about Fair ValueMeasurements.* ASU 2010-06 requires new disclosures regarding transfers in and out of the Level 1 and 2 and activity within Level 3 fair value measurements and clarifies existing disclosures of inputs and valuation techniques for Level 2 and 3 fair value measurements. ASU 2010-06 also includes conforming amendments to employers' disclosures about post retirement benefit plan assets.

4. Fair Value Measurement - (Continued)

The Plan's investments are reported at fair value in the accompanying statements of net assets available for Plan benefits. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2011	2010
	Level 2	Level 2
Variable Annuities		
Small-Cap Funds	$ 500,631	$ 276,535
Bond Funds	569,712	517,726
Mid-Cap Funds	283,022	569,242
Large-Cap Funds	1,036,213	952,857
International Funds	797,702	755,098
Profile Series	470,620	574,320
Total Variable Annuities	3,657,900	3,645,778
Fixed Annuities	1,165,393	1,210,902
Total Assets at Fair Value	$ 4,823,293	$ 4,856,680

Level 2 Valuation Techniques

- Variable Annuities are the quoted prices obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The accounting unit value is determined in a manner similar to a mutual fund Net Asset Value calculation - dividing the net assets by the number of units outstanding. Any discrepancies between the two values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

- Fixed Annuities evaluate the general financial condition of the issuer of the annuity contract that is owned by the plan sponsor as a component of validating whether the calculated contract value of the guaranteed contract is an accurate value. All of these inputs are generally considered obtainable/observable through the review of existing contracts and readily available financial information on the Websites of the issuing financial institutions.

5. Fixed Annuities

The Plan has a fully benefit - responsive investment contract with the insurance company that holds most of the Plan's investments. The insurance company maintains the contributions in the group annuity contract, which is credited with interests and charged for participant withdrawals and administrative expenses. The contract is considered a traditional GIC in which the fair value equals the contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The contract offers transfers, distributions and cessation options to participants. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Such interest rates are reviewed on a quarterly basis for resetting.

	2011	2010
Average yields		
Based on annualized earnings	2.03%	2.43%
Based on interest rate credited to participants	1.80%	2.10%

6. Income Tax Status

The Internal Revenue Service has determined, and informed the Company by a letter dated July 21, 1995, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC") and therefore not subject to tax under present income tax law. The Plan has been amended since receiving the determination letter, however, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been Included in the Plan's financial statements.

6. Income Tax Status - (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Services. The plan administration has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Benefit Obligations

Included in net assets available for plan benefits at December 31, 2011 and 2010 are vested account balances held by terminated participants of the plan aggregating $866,487 and $719,044, respectively.

8. Party-in-Interest Transactions

(a) Plan holds units of Variable Annuities managed by the Custodian/Trustee. of the Plan

(b) Plan investments in Fixed Annuities at December 31, 2011 were with the Custodian/Trustee of the Plan.

(c) Administrative fees paid by the Plan to the Plan Administrator amounted to $2,244 and $2,906 for the years ended December 31, 2011 and 2010, respectively.

(d) Managed account fees paid to the Trustee of the Plan amounted to $13,131 and $11,145 for the years ended December 31, 2011 and 2010, respectively.

9. Subsequent Events

There have been no other material subsequent events. Subsequent Events were evaluated through July 31, 2012, the date these financial statements were available to be issued.

10. Comparative Figures

The prior year's figures have been regrouped and reclassified, where necessary, to conform with the current year's presentation.
