North Tonawanda, New York

We were engaged to audit the accompanying statements of net assets available for benefits of Irr Supply Centers, Inc. 401(k) Profit Sharing Retirement Plan (the Plan) as of March 31, 2012 and 2011, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets held for investment purposes as of March 31, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 3, which was certified by Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodians hold the Plan's investment assets and execute transactions. The Plan Administrator has obtained certifications from the custodians as of and for the years ended March 31, 2012 and 2011that the information provided to the Plan Administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following brief description of Irr Supply Centers, Inc. 401(k) Profit Sharing Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan established by Irr Supply Centers, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participation in the Plan is entirely voluntary. Employees of the Company become eligible to participate in the Plan on the semi-annual entry date immediately following the employee's completion of 1,000 hours of service.

Contributions:

An eligible employee may become a participant in the Plan by completing an enrollment form whereby the employee agrees to accept a specified reduction in salary or wage for each pay period in consideration of the Company contributing such amount to the Plan. Participants may elect to contribute up to 100% of their compensation, excluding reimbursements or other expense allowances, fringe benefits (cash or noncash), moving expenses, deferred compensation and welfare benefits, to the Plan each year. Such contributions are excluded from the participant's taxable income for federal income tax purposes until received as a withdrawal or distribution from the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

A participant may increase or decrease the amount of the salary or wage reduction on a monthly basis.

Each pay period, the Company may make a matching contribution of a discretionary percentage of the amount of the participant's contribution. The maximum contribution amount eligible to be matched is 4 percent of eligible compensation.

Qualified non-elective contributions may be made for each Plan year in an amount determined by the Company. The amount allocated to each eligible person shall be equal to the Company's qualified non-elective contributions multiplied by the ratio of the eligible employee's annual pay for the Plan year to the total annual pay of all eligible employees.

Employer contributions to the Plan amounted to $102,554 and $95,546 for the years ended March 31, 2012 and 2011, respectively, which represented employer matching contributions.

Note 1. Plan Description (Continued)

Participant accounts:

Each participant's account is credited with the participant's contribution, Company matching contribution, and an allocation of (a) the Company's qualified non-elective contributions, (b) plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service.

Forfeitures:

Forfeitures of employer contributions which have not vested in participants' accounts because of terminations may first be used to pay Plan administrative expenses. Any remaining forfeitures may be reallocated to active participant accounts. Amounts which have been forfeited but not yet applied towards Plan expenses as of March 31, 2012 and 2011 amounted to $274 and $282, respectively.

Transfer from other qualified plan:

Participants meeting certain requirements in another defined contribution plan maintained by the Company have the option to diversify their investments by transferring a portion of their account balances to this Plan. For the years ended March 31, 2012 and 2011, $99,563 and $158,837, respectively, had been transferred from the Company's Employee Stock Ownership Plan to this Plan.

Payment of benefits:

Benefits are payable upon death, disability, hardship or retirement. A participant may elect to receive either a lump-sum amount or annuity equal to the value of his or her account.

Administrative expenses:

Administrative expenses are shared by the Plan and the Company. The administration of the Plan is the responsibility of the Company and Principal Life Insurance Company (Principal Life).

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of Irr Supply Centers, Inc. 401(k) Profit Sharing Retirement Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through August 6, 2012, which is the date the financial statements were available to be issued.

Note 3. Financial Information Certified by the Plan's Custodians

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Principal Life Insurance Company or Principal Trust Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental Schedule H, Line 4i – assets held for investment purposes.

The following table represents the fair value of assets of the Plan that have been certified by the custodians at March 31, 2012 and 2011. Assets that represent 5% or more of the net assets available for benefits at March 31, 2012 and 2011 are separately identified as follows:

Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at March 31, 2012 and 2011:

The Plan's investment in the Principal Fixed Income Guaranteed Option, a group annuity contract, is a fully benefit-responsive investment contract issued by Principal Life. The contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. The contract is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. Principal Life determines the crediting interest rate by considering many factors, including economic and market conditions, the general interest rate environment and the expected and actual real return on the portfolio within the general account. The crediting interest rate may not be less than 1%. The average interest rate credited during the year ended March 31, 2012 was 2.85% (2.93% for the period ended March 31, 2011) and the crediting interest rate at March 31, 2012 and 2011 was 2.85%. Interest rates are reviewed on a semiannual basis for resetting.

Generally, there are no events which limit the ability of the Plan to transact at contract value with the issuer. The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 4. Fair Value Measurements (Continued)

The Plan's investments in the Guaranteed Interest Accounts provide a guaranteed interest rate for stated periods of five years. The rate credited is the rate in effect on the day when each deposit is directed to the account. The Guaranteed Interest Account is a part of Principal Life's General Account. The underlying assets in Principal Life's General Account are invested mostly in private placement bonds, commercial mortgages, and residential mortgages. Interest rates range from 1.40% to 4.02%. Investments in the Guaranteed Interest Accounts are reported at fair value as determined by Principal Life because the accounts are not fully benefit-responsive.

Deposits in the Pooled Separate Accounts are expressed in units. The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the value of the entire account by the total number of units in the account. The value of a participant's account, on any date, is determined by multiplying the number of units held by the unit value at the close of that business day. Deposits in Pooled Separate Accounts are reported at the value reported to the Plan by Principal Life that represents approximate fair value.

Mutual funds are reported at fair value based on quoted market prices and represent net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at March 31, 2012:

	$ 3,700,491	$ 7,861,861	$ 4,198,660	$ 15,761,012

Note 4. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended March 31, 2011:

	Pooled Separate Accounts	General Asset Accounts
Balance, beginning of year	$ 592,539	$ 2,631,179
Realized and unrealized gains (net)	95,756	20,499
Interest credited	-	122,038
Purchases, sales, issuances and settlements (net)	(43,228)	1,424,944
Transfer out of Level 3	(645,067) (a)	-
	$ -	$ 4,198,660

(a) The Plan Sponsor's policy is to recognize transfers out as of the actual date of the event or change in circumstances that caused the transfer. Until March 25, 2011, this separate account had a temporary withdrawal limitation related to past turmoil in the credit markets that resulted in a sharp slowdown in the sale of real estate assets over the last several years. To allow for orderly administration and management benefiting all separate account investors, Principal Life implemented a pre-existing contractual limitation to delay certain withdrawal requests. This restriction ended March 25, 2011, which is the date that the transfer of this separate account from Level 3 to Level 2 was recognized.

Note 5. Related Party Transactions

Certain Plan investments are managed by Principal Life. Principal Life is a custodian and the record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal Life for the custodial and record keeping services amounted to $26,590 and $19,206 for the years ended March 31, 2012 and 2011, respectively.

Note 6. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Principal Life. The prototype plan has received a favorable determination letter from the Internal Revenue Service as to the prototype plan's qualified status dated March 31, 2008. The prototype determination letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTES TO FINANCIAL STATEMENTS

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
