PC ACQUISITION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of PC Acquisition 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, maintained for the benefit of all eligible employees of PC Acquisition, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility - Eligible employees include all employees who have completed six months of service, as defined, and are at least 21 years of age.

Contributions - Each participant may contribute a specified percent of compensation, subject to certain Internal Revenue Code ("IRC") limits. The contributions are deducted from the employee's compensation and are excluded from his/her taxable income. The Company may make discretionary matching contribution based on a dollar amount or percentage of compensation deferred. There was no matching contribution or accrual for 2008. For the year ended December 31, 2009, the Company had a discretionary match of 25% of the employee's first $1,000 of contributions, up to $250. Total employer contributions for the year ended December 31, 2009 is $9,532, with $1,042 contributed from the forfeiture account and $8,490 included as a receivable from the Company.

Participant Accounts - Each participant's account is credited with the participant's contributions, the employer matching contribution, if any, and plan investment income (loss). Allocations are based on participant compensation or account balances, as defined.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. A participant's vested portion of the Company matching, plus actual earnings thereon, occurs at a rate of 20 percent per year of service. Participants are fully vested after five years, or upon normal retirement (age 65), death, permanent disability or termination of the plan.

Forfeited Accounts - In the event of termination of employment before full vesting has occurred, the nonvested portion of the employer contribution shall be used to reduce the employer's matching contribution for the plan year following the plan year in which such forfeitures occur. There were forfeitures totaling $1,053 and $1,007 at December 31, 2009 and 2008, respectively.

Participant Loans - Participants may borrow from their 401(k) account balance a minimum of $1,000, up to a maximum equal to the lesser of the one-half of the vested account balance, or $50,000 reduced by the highest outstanding loan balance during the prior 12-month period. All loans are secured by the balance in the participant's account and bear an interest rate between 4.25 and 9.25 percent. Loans are to be repaid over a five-year period or within a reasonable time commensurate with the repayment period permitted by commercial lenders if loans are for the purchase of a principal residence. Principal and interest are repaid periodically through payroll deductions. Employees may not have more than one loan outstanding at a given time.

PC ACQUISITION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN - CONTINUED

Payment of Benefits - Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability, termination of employment, or financial hardship. Benefits are payable in a lump sum or by other methods as described in the plan. Vested account balances for terminated employees are evaluated annually and those with balances of less than $5,000 can be distributed under the terms of the Plan without the participant's consent, unless the participant has provided timely election.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are maintained on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the plan at year-end. Participant notes receivables are valued at cost which approximates fair value.

Generally accepted accounting principles require the statement of net assets available for plan benefits present the fair value of the Plan's investments as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The investments in the fully benefit-responsive investment contracts/mutual funds are stated at contract value which is equal to principal balance plus accrued interest, as this is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Plan is invested in the Fidelity Advisor Stable Value Portfolio II, a comingled pool of the Fidelity Group Trust for Employee Benefit Plans (not a mutual fund) and is managed by the Fidelity Management Trust Company. This fund had an average yield of 2.10% and 3.88% (annualized) for the years ended September 30, 2009 and 2008 (the fund's fiscal year end date), respectively. The crediting interest rate was 2.21% and 4.17% at September 30, 2009 and 2008, respectively. The crediting interest rate is reset quarterly. Issuers may impose a contract penalty on withdrawals or exchanges from the fund caused by an extraordinary corporate event (layoff, sale of a line of business, etc.). No events are expected which would result in contract penalties.
Purchases and sales of investments are recorded on a trade-date basis. Interest Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements an accompanying notes. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Administrative Expenses - Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Employer.

Payment of Benefits - Benefits are recorded when paid.

3. TAX STATUS

The plan received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and is, therefore, not subject to tax under present income tax laws. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and is, therefore, a qualified plan and tax exempt as of the financial statement date.

4. RELATED PARTY TRANSACTIONS

Certain plan expenses are paid by the Company. Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company, which is the trustee as defined by the plan. Therefore, these investment transactions qualify as party-in-interest transactions.

5. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

8. FAIR VALUE MEASUREMENTS

The Plan follows generally accepted accounting principles related to fair value measurement. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

These principles also establish a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial Instruments' categorization within the fair value hierarchy is based upon the lowest of input that is significant to the fair value measurement. There are three levels of inputs that may be used to measure fair value:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities ; or

Level 3: observable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following summarizes the classification of Investments by classification and method of valuation:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds				
Bond funds	$ 44,183	$ -	$ -	$ 44,183
Balanced/hybrid funds	3,882	-	-	3,882
Domestic equity funds	240,522	-	-	240,522
Global funds	38,477	-	-	38,477
Specialty	72,548	-	-	72,548
Target retirement date	504,141	-	-	504,141
Cash management	117,885	-	-	117,885
Stable value fund	-	-	7,679	7,679
Participant loans	-	-	5,226	5,226
	$ 1,021,638	$ -	$ 12,905	$ 1,034,543

8. FAIR VALUE MEASUREMENTS - CONTINUED

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 634,317	$ -	$ -	$ 634,317
Stable value fund	-	-	39,028	39,028
Participant loans	-	-	8,500	8,500
	$ 634,317	$ -	$ 47,528	$ 681,845

The Plan's valuation methodology used to measure the fair values of mutual funds were derived from quoted market prices as all of these instruments have active markets. Participant loans are valued at amortized cost, which approximates fair value. The fair value of fully benefit-responsive investment contracts is calculated using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities.

The table below is a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009.

	Level 3 Assets	
	Participant Loans	Stable Value Fund
Balance as of January 1, 2009	$ 8,500	$ 40,098
Issuances, repayments and settlements, net	(3,274)	(32,419)
Balance as of December 31, 2009	$ 5,226	$ 7,679
