To the Plan Administrator
HISCO 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the HISCO 401(k) Plan (the Plan) as of October 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended October 31, 2011 and the supplemental schedule as of October 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974, as amended, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company (MassMutual) as of October 31, 2011 and by State Street Bank and Trust Company (State Street) and MassMutual as of October 31, 2010, the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplementary schedule. We have been informed by the Plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the custodians as of October 31, 2011 and 2010 and for the year ended October 31, 2011, that the information provided to the Plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

HISCO 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. PLAN DESCRIPTION

The following description of the HISCO 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan consists of a profit sharing feature and a 401(k) feature. The profit sharing feature, which became effective February 1, 1972, is a discretionary, noncontributory defined contribution profit sharing plan covering all eligible employees of HIS Company, Inc. (the Company or Plan Sponsor). Effective November 1, 2003, the Plan adopted the 401(k) salary deferral feature. Employees become eligible to participate in the Plan on their date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

For the 401(k) feature, each year participants may contribute a portion of their pretax annual compensation, as defined in the Plan. Participants may also contribute an amount representing distributions from other qualified defined benefit and defined contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan. There was no Company match in 2011 and 2010 and it is generally the Company's policy not to have such matching contributions. Contributions are subject to certain limitations.

For the profit sharing feature, Company contributions are discretionary and are allocated to participants pro-rata based upon the compensation of employees who are actively employed on the last day of the Plan year and have been credited with a year of service during the current year (1,000 hours), subject to a maximum compensation limitation of $120,000 for Plan purposes. The Company contribution for the year ended October 31, 2011 was $922,738.

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, Plan forfeitures, Plan earnings, and is charged with any applicable administrative expenses related to transactions such as loan initiation or administration. Allocations are based on participant compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance. At October 31, 2011 and 2010, forfeited non-vested accounts totaled $63,425 and $32,310, respectively. These amounts will be used to reduce future employer contributions. In 2011, the Company reduced its contribution payable to the Plan by $60,515 from forfeited nonvested accounts.

NOTE 1. PLAN DESCRIPTION – CONTINUED

Vesting

Participants are immediately vested in their contributions to the Plan and allocated earnings thereon. Effective November 1, 2007, participants are fully vested in Employer contributions and allocated earnings at the rate of ten percent per year for the first two years and twenty percent per year thereafter with 100 percent vesting after six years. Forfeitures from terminated participants are allocated to the accounts of the remaining participants after a one-year break in service. Additionally, a participant becomes 100 percent vested upon death, total disability, termination of the Plan, or attainment of normal retirement age.

Distributions to Participants

Upon retirement, death, total disability or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive a lump sum distribution, or an annuity, payable over a period not to exceed the payee's expected life expectancy, providing their vested account balance exceeds $5,000. Participants may receive a hardship distribution from their vested account balances subject to certain limitations, as defined in the Plan agreement.

The Plan allows participants, during a certain time of the Plan year, to roll money over from their account in a related plan offered by the Company, the HISCO Employee Stock Ownership Plan (ESOP Plan), into the Plan. Participants may also rollover amounts to the Plan representing distributions from other qualified defined benefit plans. Any such rollovers will be deposited into the participant's rollover balance. The Plan currently allows all rollovers to be withdrawn at any time, once per year.

An employee may also take one withdrawal each calendar year that consists of a maximum of 20 percent of their vested balance in their account if the participant has at least five years of service. If the Participant has fewer than five years of service, he or she may not exceed the account balance as of the last date of the Plan year coincident with or next preceding a date 24 months prior to the date of the distribution. However, if the participant is under age 59.5, the distribution of 20 percent of his or her vested accounted balance may not come from salary deferral funds.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 3.25 percent to 10.25 percent. Principal and interest are paid ratably through payroll deductions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in conformity with the accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

The net change in fair value of investments includes realized and unrealized investment gains and losses. Realized gains or losses on the disposal of securities are determined on the basis of the average cost of securities sold, while unrealized gains or losses are determined on the basis of the cost of securities held at the end of the year.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan agreement.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Plan Sponsor, with the exception of fees for loan initiation or administration, which are paid by the participants requesting such services. Administrative expenses paid by the participants totaled $6,938 for the year ended October 31, 2011.

Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 20, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not been amended since receiving the determination letter. Therefore, no provision for federal income tax has been recorded in these financial statements.

Income Taxes

Effective November 1, 2008, the Plan implemented the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, *Income Taxes*, relating to accounting for uncertainties in income taxes. FASB ASC 740 requires the Plan to recognize in the financial statements the financial effects of a tax position only if it is determined that it is more likely than not that the tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded, as of October 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. Tax years open to examination include the years 2008 to 2011.

NOTE 3. INFORMATION CERTIFIED BY PLAN'S CUSTODIANS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's custodians have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate as of October 31, 2011 and 2010.

Pooled separate accounts	$ 769,827
Mutual Funds	(276,990)
	$ 492,837

NOTE 3. INFORMATION CERTIFIED BY PLAN'S CUSTODIANS – CONTINUED

In 1996, the Plan entered into a fully benefit responsive Immediate Participation Group Annuity Contract (SF 2835) with MassMutual. During the Plan year ended October 31, 2011, the Plan rolled over the balance in SF 2835 into a new fully benefit responsive Immediate Participation Group Annuity Contract (SF 60719). As described in Note 2, because the guaranteed interest contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contracts are presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract values, as reported to the Plan by MassMutual, represent contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of investment contract SF 60719 at October 31, 2011 was $10,577,072. The fair value of investment contract SF 2835 at October 31, 2010 was $10,772,172.

The average yield earned by and credited to the Plan was 3.23% for the year ended October 31, 2011 and 3.26 percent for the year ended October 31, 2010.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) temporary absence; 2) change in position or other occurrence qualifying as a temporary break in service under the Plan; 3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under common control with the employer; or, 4) cessation of an employment relationship resulting from a reorganization, merger, layoff, or the sale or discontinuance of all or any part of the Plan sponsor's business (5) removal from the Plan of one or more groups or classifications of participants; (6) partial or complete plan termination; or (7) plan disqualification. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the participants are probable of occurring.

NOTE 4. FAIR VALUE MEASUREMENTS

The Plan has adopted FASB ASC 820, *Fair Value Measurement and Disclosures*, (Topic 820) which clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Topic 820 defines "fair value" as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity.

Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 inputs: Unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs: Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices in active markets that are either directly or indirectly observable for the asset or liability through correlation with market data or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs: Prices or valuations that require inputs that are both significant to the fair measurement and unobservable. Valuation under level 3 generally involves a significant degree of judgment from Plan management. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for the investments existed.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2011 and 2010:

Pooled separate accounts: Valued based on the closing price of underlying portfolio of securities reported on the active market on which the individual securities are traded.

Mutual funds: Valued based on the closing price of underlying portfolio of securities reported on the active market on which the individual securities are traded.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the classification of the securities by level at October 31, 2011:

Realized gains	-
Unrealized loss	(802,554)
Purchases, sales, issuances, and settlements (net)	607,454
Balance, end of year	$ 10,577,072

NOTE 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 6. RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments, including securities and a guaranteed investment contract. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

NOTE 7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and a guaranteed investments contract managed by MassMutual, a custodian of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE 8. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through August 9, 2012, the date the financial statements were available to be issued, and determined that no events have occurred subsequent to October 31, 2011 that warrant additional disclosure.
