Independent Auditor's Report

To the Trustees
Heidenhain Corporation 401(k) Savings Plan

We were engaged to audit the financial statements and supplemental schedule of Heidenhain Corporation 401(k) Savings Plan (the "Plan") as of December 31, 2011 and 2010 and for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, on behalf of Union Bond and Trust (an affiliate of Principal Life Insurance Company), the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Custodians hold the Plan's investment assets and participant notes receivable and execute related transactions. The plan administrator has obtained certifications from the Custodians as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the Custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Plan Description

The following description of Heidenhain Corporation 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Heidenhain Corporation, Inc., Etel Inc., E+E Elektronik Corporation, IMT North America, Inc., and MD Electronics, Inc. (collectively, the "Companies") who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute, under traditional or Roth provisions, up to 100 percent of their compensation as defined by the Plan limited to the maximum amount allowable under the IRS. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans. The Companies will match 100 percent of participant contributions up to 2 percent of compensation. Additional amounts may be contributed by the Companies at the discretion of the Companies' respective board of directors. For the years ended December 31, 2011 and 2010, the boards determined that the discretionary contribution was 1 percent of eligible employee compensation. The required safe harbor contribution was 3 percent of eligible employee compensation for the years ended December 31, 2011 and 2010. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Companies' contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - The Plan allows for participants to borrow money from the Plan. Participants may borrow from their accounts the lesser of $50,000 or 50 percent of the sum of the participant pre-tax contributions and the employer-matching contributions. There is a minimum notes receivable amount of $1,000. Notes receivable are collateralized by the participant's account and bear interest at rates that range from 4.25 to 11.50 percent. Notes receivable are generally repayable within five years. Longer notes receivable are available for the purchase of a primary residence. Principal and interest payments are made through payroll deductions.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately vested in their voluntary contribution, rollover contributions, and qualified nonelective contributions and actual earnings thereon. Vesting in the Companies' contribution portion, including employer-match contributions and discretionary contributions plus actual earnings thereon, is based on years of service. A participant becomes fully vested in the employer's matching and discretionary contributions after six years of service or upon retirement, permanent disability, or death.

Participants who transferred into the Plan in December 2009 transferred under their previous vesting percentage. Under the previous plan, participants were immediately 100 percent vested in all contributions to their accounts.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future discretionary contributions. Forfeitures balance at December 31, 2011 was $4,040. There were no forfeiture balances at December 31, 2010.

Payment of Benefits - Distributions are payable upon retirement, age 59 1/2, death, disability, or termination. A participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over the life of the participants, an annuity for a fixed number of years, or a combination of such forms.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Companies must approve any such hardship withdrawals.

Termination - While they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Union Bond and Trust. Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Union Bond and Trust are the custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund investment, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying investment contracts based on current yields of similar instruments with comparable durations. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying assets. The guaranteed investment contracts are not considered benefit-responsive and are presented at fair value. Fair value is the amount paid when funds are withdrawn prior to their maturity. Fair value is based on current market yields of similar instruments with comparable durations and generally will not be less than the contract's maturity value. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Companies.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 27, 2012, which is the date the financial statements were available to be issued.

New Accounting Pronouncement - In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The standard clarifies existing fair value measurement and disclosure requirements and changes existing principles and disclosure guidance. Clarifications were made to the relevancy of the highest and best use valuation concept and measurement of an instrument classified in an entity's stockholder's equity. Changes to existing principles and disclosures included measurement of financial instruments managed within a portfolio, the application of premiums and discounts in fair value measurement, and additional disclosures related to fair value measurements. The updated guidance and requirements are effective for financial statements issued for the first annual period beginning after December 15, 2011. The adoption of this standard is not expected to have a material effect on the Plan's financial statement.

Note 3 - Unaudited Information

Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Union Bond and Trust (an affiliate of Principal Life Insurance Company) (the "Custodians") hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodians.

Significant investments of the Plan at end of year are as follows:

	2011	2010
Mutual Funds - At fair value:		
Janus Balanced S Fund	$ 1,217,738	$ 1,338,775
Fidelity Advantage Straight Income Fund	1,655,975	1,202,306
Pooled separate accounts - At fair value:		
Mid-cap Stock Index SEP Account	1,703,997	1,802,811
Mid-cap Growth SEP Account	2,142,367	2,753,687
Large-cap Growth II SEP Account	1,912,974	2,091,532
International Emerging Markets SEP Account	1,363,433	1,863,056
Common collective trust fund - At contract value -		
Gartmore Morley Cap Mgt Inc - Stable Value Fund	3,291,732	3,161,233

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan is operating under an interim plan document that has not received Internal Revenue Service (IRS) approval. An interim plan document is a plan document that reflects a good faith attempt to satisfy all required provisions necessary to be a qualified defined contribution pre-approved plan. The IRS has stated that adopting employers may adopt interim plan documents from prototype sponsors without any qualification consequences in form if certain requirements are satisfied. The Companies and the prototype sponsor believe all requirements have been met and believe that the Plan is qualified and the related trust is tax exempt. The Plan has not individually sought its own determination letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the trust and recognize a tax liability (or asset) if the trust has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs include appraisals, audited financial statements, projected future cash flow, terms of the contract, and the credit rating of the issuer. The pooled separate account classified as a Level 3 investment at December 31, 2010 is due to the distribution limitations discussed below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(1) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities which may include common stocks, options, and futures.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. During 2011, an investment previously classified as Level 3 was transferred to a Level 2 classification as a result of elimination of certain withdrawal limitations. Prior to March 2011, Principal Life Insurance Company (Principal) limited the withdrawal of funds from the Principal U.S. Property Separate Account. During March 2011, the withdrawal limitations on the investment were eliminated and any pending payment requests were processed. There were no significant transfers between levels of the fair value hierarchy during 2010.

Note 5 - Fair Value Measurements (Continued)

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended December 31, 2011 are as follows:

	Pooled Separate Account	Guaranteed Interest Contract
Balance at January 1, 2011	$ 334,916	$ 105,346
Purchases and issuances	10,351	105
Sales and settlements	(9)	(51,052)
Total unrealized gains	9,464	397
Transfers out of Level 3	(354,722)	-
Balance at December 31, 2011	$ -	$ 54,796

Of the Level 3 assets held by the Plan during the year ended December 31, 2011, the unrealized gains for the year ended December 31, 2011 were $9,464 and $397 for the pooled separate account and unallocated contract, respectively, which is recognized in the statement of changes in net assets.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets. As a result, the unrealized gains for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Transfers out of Level 3 into Level 2 were made because observable market data became available for the securities.

Note 6 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than those on Form 5500 at December 31, 2011 and 2010 by $76,538 and $64,565, respectively. Additionally, the investment income on Form 5500 for the year ended December 31, 2011 is higher than that on the financial statements by $11,973.
