Independent Auditor's Report

To the Administrative Committee of the
Mitchell Martin, Inc. 401(k) Plan

We were engaged to audit the accompanying Statements of Net Assets Available for Benefits (Modified Cash Basis) of Mitchell Martin, Inc. 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the related Statement of Changes in Net Assets Available for Benefits (Modified Cash Basis) and supplemental schedules for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note B, these financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MITCHELL MARTIN, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

Note A - Description of Plan

Mitchell/Martin, Inc. (the Company) established the Mitchell Martin, Inc. 401(k) Profit Sharing Plan (the Plan). The Plan was originally effective as of June 1, 1984 and was amended by the Company as of August 1, 2010. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of entry service (with 1,000 or more hours of service) and are age twenty-one and over. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

The Plan provides for employee elective salary deferral contributions under Section 401(k) of the Internal Revenue Code. Participants have the option of having up to 100 percent of their annual pre-tax compensation "deferred" and contributed to the Plan instead of being received currently, subject to the maximum annual limitation prescribed by the Internal Revenue Service ($16,500 for calendar years 2011 and 2010). Additional "catch up" contributions of $5,500 for calendar years 2011 and 2010 can also be made by participants age 50 or older.

Employer Contributions

The Company may make non-elective contributions to the Plan as decided on a year by year basis. No non-elective contributions were made by the Company to the Plan for the years ended December 31, 2011 and 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of investment losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A - Description of Plan - continued

Vesting

Participants are immediately vested in their elective salary deferral contributions plus actual earnings thereon. Participants are also immediately vested in qualified nonelective contributions allocated to their accounts, if applicable, and rollover contributions. Vesting in the portion of their accounts attributable to Company nonelective contributions, if any, is based on years of continuous service, with increments of 20% between the second and sixth years. A participant is 100 percent vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) participant funds. Loan terms range from 6 months to 5 years with longer terms available for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates for similarly secured loans (ranging from 5% to 9.75% for loans outstanding as of December 31, 2011). Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, a participant with vested balances over $5,000 may elect to receive benefits in one of the following forms: (a) a lump-sum amount equal to the value of his or her account; (b) monthly installments over a period certain not extending beyond the life expectancy of the participant or the joint life expectancy of the participant and a designated individual; or (c) the purchase of an annuity. For vested balances of $5,000 or less, the vested balance is automatically paid in a single sum. Participants are then required to comply with Federal laws pertaining to individual retirement account rollovers.

Risks and Uncertainties

The Plan provides for various investment annuity contracts with any underlying combination of stock funds, bond funds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash method of accounting. Under this method, employee loan principal repayments are recorded when received by the Plan. All other significant accounting policies are in conformity with generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Certification

The Principal Life Insurance Company has certified that the transactions and list of securities it has provided to the Company are complete and accurate. The information was provided on the modified cash basis of accounting.

Investment Valuation

Investments in separate accounts (pooled funds) and insurance company guaranteed interest accounts under group annuity contracts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Participant loans are valued at cost which approximates fair value.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through August 30, 2012, the date the financial statements were available to be issued.

Note C - Investment Contract with Insurance Company

During the plan year ended December 31, 1998, the Plan entered into a group annuity contract with the Principal Life Insurance Company, which maintains contributions either in separate account investments (pooled accounts) or in insurance company general Guaranteed Interest Investment accounts. Investment options under separate accounts allow for investment among over 50 different mutual funds sub-advised by various mutual fund managers.

Participant sub-accounts are self directed and include their deferrals and any employer matching contributions. Each participants account is credited with actual earnings on the underlying investments and is reduced by participant withdrawals, investment depreciation, and administrative expenses charged by the Principal Life Insurance Company.

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

Investments, at fair value	December 31, 2011	December 31, 2010
Pooled Separate Accounts	$ 4,872,525	$ 4,513,023
Guaranteed Interest Contracts	$ 87,631	$ 79,009

Note D - Investments

The Plan's investments consist of separate accounts (pooled accounts) under a group annuity contract, and guaranteed interest contracts.

The following table presents investments at fair value. Investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010 are separately identified.

Note D – Investments – continued

	2011	2010
Participant Directed Investments:

Guaranteed Interest Investments	87,631	79,009
Total	$ 4,960,157	$ 4,592,032

During the Plan year ended December 31, 2011, the Plan's investments (including investments bought, sold and held during the year) depreciated by $81,096.

Note E - Fair Value Measurements

In September of 2006, the Financial Accounting Standards Board issued Financial Accounting Statement No. 157, *Fair Value Measurements*, addressing fair value measurement standards in financial statements. The guidance was subsequently codified within Accounting Standards Codification ("ASC") 820, "*Fair Value Measurements and Disclosures*".

ASC 820 established a principles-based framework for measuring fair value of assets and liabilities. This framework proposes a fair value hierarchy of input levels to be used when valuing plan assets. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement

Note E - Fair Value Measurements – continued

date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value, and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs that are supported by little or no market activity (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- ◊ Quoted prices for similar assets or liabilities in active markets;
- ◊ Quoted prices for identical or similar assets or liabilities in inactive markets;
- ◊ Inputs other than quoted prices that are observable for the asset or liability;
- ◊ Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Shares in pooled separate accounts and registered investment companies are valued at the net asset value of the units held by the Plan at year end, which approximates fair value.

Notes receivable from participants are valued at their outstanding balances plus any accrued interest, which approximate fair value.

The Guaranteed Interest Accounts are presented at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Note E - Fair Value Measurements – continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair values as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Shares in pooled separate accounts	$ -	$ 4,872,525	$ -	$ 4,872,525
Guaranteed interest accounts	-		87,631	87,631
Total, at fair value	$ -	$ 4,872,525	$ 87,631	$ 4,960,156

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair values as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Shares in pooled separate accounts	$ -	$ 4,513,023	$ -	$ 4,513,023
Guaranteed interest accounts	-		79,009	79,009
Total, at fair value	$ -	$ 4,513,023	$ 79,009	$ 4,592,032

The table below summarizes the changes in the Plan's Level 3 assets for the years ended December 31, 2011 and 2010.

	2011	2010
Balance, beginning of year	$ 79,009	$ 177,983
Unrealized gains (losses)	82	-
Interest credited	131	-
Purchases	47,786	-
Sales	(39,377)	-
Rollovers	-	451
Purchases, sales, transfers, and settlements (net)	-	(99,425)
Balance, end of year	$ 87,631	$ 79,009

Note F – Guaranteed Investment Contract with Principal Life Insurance

In 2005, the Plan entered into a non-benefit-responsive guaranteed investment contract with Principal Life Insurance (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability, and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. Thus the guaranteed interest account is considered not benefit responsive.

The guaranteed investment contact is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value.

Note G - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their account balances.

Note H - Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes.

The Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was acceptable in form as to compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by Federal or State taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain

Note H - Tax Status - continued

positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note I - Administrative Expenses

For the Plan year ended December 31, 2011, record keeping fees of $11,843 were paid by the Plan while all other trust, accounting and other fees were paid by the Plan sponsor.

Note J – Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits and participant contributions per these financial statements to Form 5500:

	Net Assets Available for Benefits	Participant Contributions
Per these financial statements	$ 5,076,237	$ 662,564
December 31, 2011 contributions receivable (corrective distributions)	544	544
Per Form 5500	$ 5,076,781	$ 663,108

Note K – Prohibited Transactions

During the years ended December 31, 2011 and 2010, the Company failed to remit $33,915 and $881, respectively, of participant contributions to the Plan within the time period prescribed by the Department of Labor regulations. The failure to remit participant contributions to the Plan on a timely basis represents a prohibited transaction under ERISA. All delinquent contributions have since been paid into the Plan. The Company will file the IRS Form 5330 for the year ended December 31, 2011 and pay the related excise taxes.
