ONTARIO REFRIGERATION SERVICE, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN:

The following description of the Ontario Refrigeration Service, Inc. 401(k) Profit Sharing Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is an employee contribution Plan covering the employees of Ontario Refrigeration Service, Inc. and Ontario Refrigeration Service Nevada, Inc. (the "Company"). The Plan was adopted on January 1, 1993. All full time employees who have completed 90 days of service are eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

AMENDMENT

On April 6, 2011 the Plan was amended to comply with current tax law changes and add automatic enrollment.

TAX STATUS

The Internal Revenue Service has determined and informed the Company through a letter of determination dated March 31, 2008 that the Prototype Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

1. DESCRIPTION OF THE PLAN: (Continued)

CONTRIBUTIONS

Participants may elect to have their wage compensation reduced by a designated dollar amount up to the maximum percentage allowable under the limitations of IRC Sections 415, 401(k) and 404. Participants' contributions may not be more than 100 percent of their annual compensation. Participants may stop contributing to the Plan at any time and may change their contribution rate at any quarterly enrollment date.

The Company's matching contributions are based on employee deferrals to the Plan. Employer matching contributions were 30 percent for 2011 and 2010. Profit Sharing contributions are done at the discretion of Company's management. No profit sharing contribution was declared for 2011 or 2010.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions plus an allocation of the Company's contributions and Plan's earnings. The Plan's earnings and investment expenses are allocated according to the participants relative account balance in the investment options. Certain participant fees, if applicable, are also charged to participant accounts.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments. These participants share in the earnings of the investment.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range up to 5 years, or 15 years if the proceeds are used to purchase a principal residence. The loans are collateralized by the balance in the participant's account and bear interest at rates available for similar loans from commercial lending institutions as determined by the Plan administrator. Principal and interest are paid ratable through payroll deductions. Loan processing fees are deducted from the borrowing participant's account.

1. DESCRIPTION OF THE PLAN: (Continued)

VESTING

Participants of the Plan are immediately fully vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's match contributions portion and Profit Sharing contributions portion plus earnings thereon is based on a participant's years of continuous service. A participant is fully vested in the Profit Sharing after five years of credited service.

FORFEITED ACCOUNTS

Forfeited non-vested accounts totaled $30,627 and $27,888 at December 31, 2011 and 2010, respectively. Forfeitures are available to reduce future employer contributions match and expenses.

PAYMENTS OF BENEFITS

On retirement, disability, or termination of service a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, equal monthly payments to the beneficiary for their lifetime, or periodic payments over a fixed period of time. Distributions upon the death of a participant shall be paid to the designated beneficiary.

Participants who remain in the employ of the Company may elect to withdraw a cash amount equal to all or a specified portion of the total before-tax contributions and vested company match contributions as a result of attaining age 65 or age $59^{1/2}$.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to deferred account balances and may not include any interest earned thereon.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting. The Plan's investments are stated at their fair value. Shares of registered investment companies are valued at their quoted market prices, which represent the net asset value of shares held by the Plan at year end. All purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends earned are recorded on the ex-dividend date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's funds are stated at fair value. Except for the notes receivable to participants, fair value of the funds is determined based on the underlying investments of the related funds as reported by Great West Life and Annuity Insurance Company, LLC based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for plan withdrawals and administrative expenses incurred. Notes receivable are valued at cost, which approximates fair value.

Purchases and sales of these investments are reflected on the trade dates. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES RECEIVABLE FROM PARTICIPANT

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

EXPENSES

Certain custodian and administrative expenses are paid by the Plan. Other expenses are paid by the Plan's sponsor. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair market value of investments for such investments.

PAYMENT OF BENEFITS

The benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 7, 2012 the date on which the financial statements were available to be issued, and no events were found requiring recording or disclosure in the financial statements for the year ended December 31, 2011.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE (UNAUDITED):

Unaudited information prepared by Great West Life and Annuity Insurance Company, which is included in the Plan's financial statements is set forth in the following summary. The Plan administrator has obtained certifications from Orchard Trust Company, LLC that such information is complete and accurate.

	2011	2010
Investments	$5,535,044*	$5,303,391*
Increase/decrease in investment value	(227,093)*	456,083*
Interest and dividends	21,172*	85,230*
Employer contributions	133,636*	112,792*
Participant contributions	445,450*	605,470*
Benefits paid to participants	117,755*	209,133*
Forfeitures	2,267*	4,711*
Fees	296*	293

* Amounts certified include income, contributions, expenses and transactions involved in transferring assets between accounts that have been reclassified in these financial statements and Form 5500.

4. KEY GUARANTEED PORTFOLIO FUND WITH GREAT-WEST LIFE & ANNUITY INSURANCE COMPANY:

The Plan has entered into a benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Company ("Great-West"). Great-West maintains the contributions in a general account. The account is credited with the earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a fluctuating interest rate that is guaranteed to the Plan.

4. KEY GUARANTEED PORTFOLIO FUND WITH GREAT-WEST LIFE & ANNUITY INSURANCE COMPANY: (Continued)

The guaranteed investments contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Any transfers by Plan participants believed to be in contemplation of termination of a Plan's interest may subject the Plan sponsor to a surrender fee of 5% of the amount equal to the difference between the total amount that has been or is in the process of being transferred and the amount on which the surrender fee is already been paid.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2011 and 2010 was $280,338 and $0, respectively. The crediting interest rate is based on the earnings of the underlying assets in the entire medium-long range term new portfolio compared to the minimum interest crediting rate as stated in the contract, and prevailing market conditions. The interest rate is reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity was provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average Yields:

	2011	2010
Based on actual earnings	1.80	2.43

5. ASSETS HELD FOR INVESTMENT PURPOSES (UNAUDITED):

Investments in all shares of registered investment companies were held by Great-West Life & Annuity Insurance Company as of December 31, 2011 and 2010. All investments that represent 5% or more of the fair market value of net Plan assets available for Plan benefits are separately identified.

	December 31, 2011	December 31, 2010
Mutual Discovery Fund	$	$ 528,024
Franklin Balance Sheet Investment		344,922
Franklin Growth Opportunities		379,596
Franklin Flex Cap Growth Fund		631,889
Franklin Small-Mid Cap Growth Fund		515,458
Mutual Quest Fund		338,523
Franklin Templeton Growth Target		294,369
Maxim Money Market Portfolio		1,420,496
Maxim Lifetime 2025 Portfolio	3,454,484	
Maxim Lifetime 2035 Portfolio	1,084,839	

6. RELATED PARTY TRANSACTIONS:

During the years ended December 31, 2011 and 2010 there were no related-party transactions which are prohibited by ERISA and for which there are no statutory or administrative exemptions.

The Plan's investments at year end are shares of mutual funds that are held by Great West Life and Annuity Insurance Company, LLC. Great West Life and Annuity Insurance Company, LLC is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the trust agreement.

8. FAIR VALUE MEASUREMENTS:

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarch is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

8. FAIR VALUE MEASUREMENTS: (Continued)

Common stocks, corporate bonds and U.S. government securities - Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds - Valued at the net assets value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010.

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$5,535,044	$ -	$ 5,535,044
Total assets at fair value	$ -	$5,535,044	$ -	$ 5,535,044

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,331,279	$ -	$ -	$ 5,331,279
Total assets at fair value	$ 5,331,279	$ -	$	$ 5,331,279

CHANGES IN FAIR VALUE LEVELS

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Based on new guidance from the Plan custodian, the investments were transferred from level 1 to level 2 for the year ended December 31, 2011.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available per financial statements to net.
