COREMETRICS, INC. EMPLOYEES' 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Coremetrics, Inc. Employees' 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more specific provisions.

A. General

The Plan is a defined contribution plan that was established in 2000 by Coremetrics, Inc. (the "Company") to provide benefits to eligible employees, as defined in the Plan document. The Plan was amended and restated in its entirety effective May 1, 2009 to comply with the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) and other legislative changes. The Plan administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code (the "Code") and provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

B. Administration

An officer of the Company was appointed Plan trustee. An Administrative Committee (the "Committee") manages the operation and administration of the Plan. Standard Insurance Company ("Standard") serves as Plan custodian and third-party administrator who maintains the records of participant data. Investment fund management fees, contract administration fees, commissions and operating expenses are charged directly to the fund and thereby factored into each fund as a reduction of investment return. A majority of other costs of administering the Plan are paid by the Company.

C. Eligibility

Non-resident aliens with no U.S. source income, union employees, leased employees and employees excluded by written agreement are ineligible for the Plan. There is no service requirement. Non-excludable employees must have attained age 21 prior to entering the Plan and Plan entry is the day of hire or rehire.

D. Contributions

Participants may elect to have the Company contribute their eligible pre-tax compensation, as defined in the Plan, from 1% to the maximum amount allowable under current income tax regulations. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Participants of age 50 or older are permitted to make catch-up contributions of up to \$5,500 in 2009. Effective January 1, 2010, the Plan permits participants to make Roth after tax contributions.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified retirement plans. Such contributions are invested in accordance with the participant's investment directions and Plan provisions.

The Company may make discretionary matching and profit sharing contributions as provided in the Plan and approved by the Board of Directors. No matching or discretionary profit sharing contributions have been made since Plan inception.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

E. Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, Company contributions, if any, and the participant's share of Plan earnings or losses and expenses. Plan assets are invested based solely on instructions received from participants.

F. Vesting

Participants are immediately 100% vested in their contributions and related earnings. Participants are fully vested in Company contributions, if any, after 6 years of service. Forfeitures of terminated participants' non-vested accounts may be used to pay Plan administrative expenses or to reduce Company contributions.

G. Payment of Benefits

Normal retirement age under the Plan is age 65. Upon termination of service, death, disability or retirement, a participant or beneficiary may choose to maintain his or her account in the Plan or to receive benefits in a lump sum or installments equal to the value of the participant's vested account balance. Hardship distributions are permitted under limited circumstances, as defined in the Plan. Benefits are recorded when paid.

H. Participant Loans

The Plan allows participants to borrow not less than \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. A loan is secured by a participant's vested balance, bears interest at a fixed rate of interest established by the Plan administrator at loan inception, and must be repaid to the Plan in five years unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be extended to ten years. The rate of interest on outstanding loans at December 31, 2009 was 3.25%.

I. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. The accounts of participants affected by a partial or complete termination of the Plan are non-forfeitable and will be determined as of the termination date, which will be treated as the valuation date.

J. Subsequent Events

Management has evaluated subsequent events through July 22, 2010, the date on which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The Plan maintains its accounting records on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

COREMETRICS, INC. EMPLOYEES' 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Accounting (Continued)

Benefit responsive investment contracts held by a defined contribution plan are required to be reported at fair value. The Plan's investment in the Standard Guaranteed Interest Fund meets the definition of a fully benefit responsive contract (Note 7).

B. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 6).

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on pooled separate account investments bought and sold as well as held during the year.

D. Risks and Uncertainties

Plan investments include a variety of securities that are exposed to various investment risks such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - INCOME TAX STATUS

The Company adopted a volume submitter plan that has received a favorable opinion letter from the Internal Revenue Service. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from Federal and state income taxes.

NOTE 4 - RELATED PARTY TRANSACTIONS

Plan assets include investments in pooled separate accounts and an insurance company general account investment provided by Standard Insurance Company, the custodian and record keeper. Purchases and sales of units in these funds, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibitions of party-in-interest transactions under ERISA.

NOTE 5 - FINANCIAL INFORMATION CERTIFIED BY STANDARD INSURANCE COMPANY

In accordance with CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, all of the information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2009

and 2008, and interest and dividends and net appreciation in fair value of investments for the year ended December 31, 2009, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Standard Insurance Company, the Plan custodian. The following table presents the fair values of investments and investment funds that include 5% or more of the Plan's net assets available for benefits at December 31:

* Included in other investments individually less than 5% of net assets available for benefits.

Certified dividends and interest for the year ended December 31, 2009 was \$33,130. Certified net appreciation in fair value of pooled separate account investments (including gains and losses on investments bought and sold, as well as held during the year) was \$804,067 for the year ended December 31, 2009.

NOTE 6 - FAIR VALUE MEASUREMENTS

The Company adopted new accounting guidance on measuring fair value effective January 1, 2008. The new accounting guidance establishes a hierarchy which prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Under the fair value hierarchy Level 1 inputs are based on quoted prices in an active market. Level 2 inputs are based on quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data. Level 3 inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

Units of pooled separate accounts are valued at the fair value per unit reported by Standard based on closing market prices of the accounts' underlying securities. The Standard Guaranteed Interest Fund is valued at fair value as determined by Standard by discounting the fund's related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Note 7). The Plan administrator estimates the fair value of participant loans to be equal to their outstanding balances less amounts deemed uncollectible. The following tables summarize the Plan's investments at December 31 based on the inputs used to value them:

NOTE 7 - GUARANTEED INTEREST FUND

Plan investments in the Standard Guaranteed Interest Fund are maintained in a general account by Standard. The fund is credited earnings on underlying investments and charged for participant withdrawals and administrative expenses. Standard is contractually obligated to repay principal and a specified interest rate to the Plan.

Because the fund is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these accounts. Contract value and fair value of the fund, as reported by Standard, were approximately equal at December 31, 2009 and 2008. Contract value represents contributions made to the fund, plus earnings, less participant

withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investment in the fund at contract value.

The crediting interest rate of the fund is based on a formula. The average yield of the fund was 3.16% and 3.17% for the Plan years beginning in 2009 and 2008, respectively. Certain restrictions may limit the Plan's ability to redeem its investment in these accounts at contract value, and market value adjustments and/or redemption charges may apply. The Plan administrator does not believe that any events limiting the Plan's ability to transact at contract value are probable of occurring.
