1. DESCRIPTION OF PLAN

(a) General

Effective January 1, 2011, Radiology Associates of Tarrant County, P.A. Savings and Investment Plan changed its name to Radiology Associates of North Texas, P.A. Savings and Investment Plan (the "Plan").

Effective March 1, 2011, Radiology Associates of North Texas, P.A. (the "Sponsor") entered into acquisition agreements with two other entities. A new plan agreement was drafted and restated effective January 1, 2011. The new employees associated with the acquisition received credit for eligibility service requirements based on date of hire with the acquired entities.

The Plan is a defined contribution 401(k) plan established to provide retirement, disability, and death benefits for qualified employees of the Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(b) Plan Administration

The Plan is administered by a committee (the "Administrative Committee"), whose members are the Sponsor's Chief Executive Officer, Chief Financial Officer, Chairman of Finance Committee and the Director of Benefits. Vanguard Fiduciary Trust Company serves as Trustee of the Plan. Under the Plan Document the Trustee holds the Plan's investment assets and executes investment transactions. The Trustee also maintains the accounting of participant accounts.

(c) Eligibility

The Plan covers all employees of the Sponsor who have attained the age of twenty-one (21). Eligible plan participants may begin making contributions as of any of the entry dates: January 1, April 1, July 1, or October 1. Upon completion of six months of service, plan participants will be eligible to receive the employer match and discretionary contributions, if any.

(d) Contributions

Each year, participants may contribute up to the maximum amount permitted by the Internal Revenue Service ("IRS"), as defined in the Plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

During 2010 under the prior plan document, participants could contribute up to 25% of pretax or after-tax annual compensation.

1. DESCRIPTION OF PLAN (Continued)

(d) Contributions (Continued)

The Sponsor may make matching contributions at its discretion and made matching contributions equal to 100% of pretax participant contributions subject to a maximum of 4% of eligible compensation for the year ended December 31, 2011. The Sponsor can elect each year to make additional discretionary contributions which are allocated proportionately to all participants.

Participants direct the investment of their contributions and rollover contributions, if applicable, and the Sponsor's matching and discretionary contributions, if any, into various investment options offered by the Plan. As of December 31, 2011, the Plan offered 30 registered investment companies and a common/collective trust fund as investment options for participants.

(e) Participant Accounts

Each participant's account is credited with the participant's salary deferral contribution, the participant's allocation of Sponsor matching contributions, and the participant's allocation of Sponsor discretionary contributions and allocations of Plan earnings and administrative expenses. Allocations are based on participant account balances or earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Participants are vested immediately in their contributions and rollover contributions, if applicable, plus actual earnings thereon. Vesting in Sponsor matching and discretionary contributions portion of their accounts is based on years of continuous service according to the following vesting schedule:

Years of Service	Vested Percentages
Less than 2	0%
2	40%
3	60%
4	80%
5 or more	100%

A participant becomes 100% vested upon termination by reason of retirement, death, or disability.

1. DESCRIPTION OF PLAN (Continued)

(g) Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested account balances totaled $145,694 and $88,392, respectively. In accordance with Plan provisions, amounts will be used to reduce employer matching and discretionary contributions and administrative expenses of the Plan. During 2011, forfeitures were utilized to reduce employer matching and discretionary contributions of $88,123.

(h) Payment of Benefits

Upon termination of service or upon request after attaining normal retirement age, vested account balances exceeding $5,000 are distributed in one of the following manners:

- **Lump sum, in cash or in-kind, or partly in cash and partly in-kind;**
- **Annual, quarterly, or monthly installments not exceeding life expectancy of the participant or the joint life expectancy of the participant and the participant's beneficiary;**
- **A joint and survivor annuity; or**
- **Direct rollover to another eligible retirement plan.**

(i) Notes Receivable from Participants

Participants are allowed to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by, if any, the highest outstanding loan balance within the previous 12 month period or 50% of the participant's vested account balance. Loans are secured by the balance in the participant's account and bear interest at the prime rate as of the end of the quarter plus 1%. Principal and interest is paid ratably through payroll deductions over a period not exceed five years from the date of the loan, unless used to acquire a principal residence. As of December 31, 2011 and 2010, interest rates ranged from 4.25% to 9.25% for both periods. Maturity dates on outstanding loans at December 31, 2011 range from February 2012 to August 2023. Maturity dates on outstanding loans at December 31, 2010 range from January 2011 to August of 2023.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Sponsor to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) topic *Plan Accounting – Defined Contribution Pension Plans,* investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through a stable value collective trust. As required by the ASC, the statements of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for plan benefits is prepared on a contract value basis. The average yield earned and actual interest rate credited to participants on the stable value collective trust for the year ended December 31, 2011 was 3.09% and 2.68%, respectively.

(d) Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

(e) Administrative Expenses

Certain administrative expenses of the Plan may be paid by the Sponsor at its discretion and, if not paid by the Sponsor, shall be paid by the Plan.

(f) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(g) New Accounting Pronouncements

Plan management has evaluated recently issued accounting pronouncements through the date these financial statements were available to be issued and has determined the application of these pronouncements will have no material impact on the Plan's financial position and results of operations.

3. INVESTMENTS

The following table represents individual investments that exceeded 5% of the Plan's net assets available for benefits (at fair value) at December 31,:

	2011	2010
Vanguard Retirement Savings Trust	$ 22,248,757	$ 22,476,454
Vanguard Total Bond Market Index Fund	6,507,973	5,832,045
Vanguard Value Index Fund	6,364,019	*

*Balance did not exceed 5%

During 2011, the Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $2,744,417.

4. FAIR VALUE MEASUREMENTS

FASB ASC topic *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC topic *Fair Value Measurements and Disclosures* are described below:

Level 1 **Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.**

Level 2 **Inputs to the valuation methodology include:**

- **Quoted prices for similar assets or liabilities in active markets;**
- **Quoted prices for identical or similar assets or liabilities in inactive markets;**
- **Inputs other than quoted prices that are observable for the asset or liability;**
- **Inputs that are derived principally from or corroborated by observable market data by correlation or other means.**

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 **Inputs to the valuation methodology are unobservable and significant to the fair value measurement.**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered Investment Companies: **Valued at quoted prices in active markets of the net asset value of shares held by the plan at year end.**

Common/Collective Trust: **Valued at quoted prices for similar securities, interest rates, prepayments speeds, credit risk, etc. of the underlying investments.**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level within the fair value hierarchy summarizes the Plan's assets at fair value as of December 31, 2011.

	Level 1	Level 2	Level 3	Total
Short-Term Reserves	$ 145,694	$ 22,248,757	$ -	$ 22,394,451

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

6. RELATED-PARTY INVESTMENTS

Certain Plan investments are shares of registered investment companies and a common/collective trust managed by Vanguard Fiduciary Trust Company, the trustee and custodian and a party-in-interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code (the "IRC").

7. TAX STATUS

The IRS has determined and informed the company by a letter dated June 13, 2011 and April 7, 2004, that the plan and related trust are designed in accordance with applicable sections of IRC. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires the plan management to evaluate tax positions taken by the plan and recognized a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the Department of Labor ("DOL"). The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Interest and dividends per the financial statements	**$ 2,177,362**
Less: Interest and dividends on mutual funds	**1,560,922**
Interest and dividends of common/collective trust	**616,440**
Less: Adjustment from contract value to fair value for fully benefit-responsive investment contracts - current year	**1,030,259**
Add: Adjustment from contract value to fair value for fully benefit-responsive investment contracts - prior year	**(885,080)**
Net investment gain of common/collective trust per the Form 5500	**$ 761,619**

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (Continued)

Net assets available for benefits per the financial statements	$ 85,081,982
Adjustments from fair value to contract value at December 31, 2011	1,030,259
Net assets available for benefits per Form 5500	$ 86,112,241

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.

10. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator limited auditing procedures with respect to the information which was certified as being complete and accurate by the Trustee, including investments at fair value reported in the statements of net assets available for plan benefits, total investment income as reported in the statement of changes in net assets available for plan benefits, the information disclosed in Note 3 with the exception of the Common/Collective Trust which was certified at contract value for $21,218,498, and all information presented in the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year). The Plan's auditors performed no auditing procedures other than agreeing these amounts to the certified trustee statements.

11. SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2011, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosure is September 4, 2012, which is the date on which the financial statements were available to be issued.
