As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3, which was certified by MassMutual Financial Group, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of October 1, 2009 and for the period January 1, 2009 to October 1, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements taken as a whole. The form and content of the information included in the 2009 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

USInternetworking, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements
October 1, 2009 and December 31, 2008

Note 1: Description of Plan

General

The Plan was a defined contribution plan established by USInternetworking, Inc. (the Company) effective July 1, 1998. The Plan covered all employees who were employed with the Company and had attained the age of 21, except for nonresident aliens and temporary employees. Employees were allowed to enter the Plan on their hire date and upon reaching the age of 21. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective October 1, 2009, the Plan was merged into the AT&T Savings Plan. All participant accounts were transferred into similar investments available in the AT&T Savings Plan. Additional information and a summary of the key differences between this Plan and AT&T Savings Plan are available in the Plan's prospectus supplement. Outstanding loan balances as of October 1, 2009, were transferred to the AT&T Savings Plan.

The following description of the USInternetworking, Inc. 401(k) Profit Sharing Plan (Plan) provides general information of the Plan prior to the effective date of the merger. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Contributions

Participant

Participants are eligible to contribute an amount between 1% and 20% of their compensation, as defined by the Plan, per plan year. Participants who have attained age 50 before the end of the Plan year can make additional catch-up contributions, subject to limitations imposed by the Code. Participants are permitted to make rollover contributions to the Plan.

Company Matching Contributions

All employees who are enrolled in the Plan are eligible for Company matching contributions. The Company contributes an amount equal to 50% of the participant's contributed amount not to exceed 50% of the first 6% of the participant's compensation as defined by the Plan. The Company's contributions are invested in the same manner as those directed by the participant. During the period ended October 1, 2009, the Company's matching contributions totaled $-0-.

Company Profit Sharing Contributions

The Plan allows for the Company to make a profit sharing contribution to the Plan each year. The amount is determined at the Company's discretion. All employees who are employed on the last day of the Plan year and have completed 1,000 hours of service during the Plan year are eligible to receive profit sharing contributions. The profit sharing contributions are allocated to participants based on compensation as a percentage of total compensation for all eligible

employees and are invested in the same manner as those directed by the participant. The Company did not make a profit sharing contribution for the period ended October 1, 2009.

Participant Accounts

Each participant's account is participant-directed and contributions are credited according to the investment options selected by each participant. Any earnings, losses, withdrawals and administrative expenses are allocated to the participant's account based upon the balance in each account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company matching and profit sharing contributions plus earnings thereon based on years of service, as defined by the Plan, according to the following schedule:

Years of Service	Vested Percentage
Less than 1 year	0%
1 but less than 2	25%
2 but less than 3	50%
3 or more	100%

Participants become 100% vested in matching contributions upon the attainment of normal retirement age or in the event of death or disability.

Forfeitures

Forfeitures of Company matching and discretionary profit sharing contributions are applied to reduce future Company matching contributions. Forfeitures become available to the Plan as of the earlier of the last day of the Plan year in which a former employee incurs five consecutive one-year breaks in service or a distribution of the participant's entire vested account balance occurs. During the period ended October 1, 2009, the Plan used forfeitures of $51,547 to reduce the Company matching contribution. The amount of forfeitures available for future matching contribution reductions totaled $118,829 and $99,012 as of October 1, 2009 and December 31, 2008, respectively.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, or attainment of age 59½, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his account. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. In all cases, certain income tax penalties may apply to withdrawals or distributions prior to age 59½.

Distributions are subject to the applicable provisions of the Plan agreement. As of October 1, 2009 and December 31, 2008, there were no net assets of the Plan allocated to participants who had elected to withdraw from the Plan, but had not yet received such funds by year-end.

Participant Loans

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. A participant can have no more than two loans outstanding at any given time. The loans are collateralized by the participant's vested account balance and are accounted for as a specific investment of the borrowing participant's account. Loan repayments are to be made at least quarterly with interest based on interest rates comparable to those offered by financial institutions. Loans for reasons other than the purchase of a primary residence are to be repaid within five years.

Administrative Expenses

The Company pays substantially all administrative expenses of the Plan, except for the investment fund management fees, which are paid directly from Plan assets.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. The USInternetworking, Inc. 401(k) Profit Sharing Plan was merged with the AT&T Savings Plan effective October 1, 2009.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Accounting Standards Codification

During 2009, the Plan adopted the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The ASC reorganized and consolidated current U.S. generally accepted accounting principles (GAAP) topically and is now the single authoritative source for

GAAP. The adoption had no effect on the Plan's financial statements except for references to accounting standards.

Insurance Company General Account

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution, Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the accompanying statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments, including mutual funds. Shares of mutual funds are valued at fair value, which represent the net assets value of shares held by the Plan at year-end. Participant loans are valued at amortized cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Plan Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 15, 2005, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the last determination letter. However, in the opinion of the Plan administrator, the Plan and its underlying trust have operated within the terms of the Plan and are qualified under the applicable provisions of the Code. Therefore, no provision for income taxes has been recorded in the accompanying financial statements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 3: Certification by Plan Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following information included in the accompanying financial statements is complete and accurate:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of October 1, 2009 and December 31, 2008
- Investment income as shown in the statement of changes in net assets available for benefits for the period January 1, 2009 through October 1, 2009

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements.

Note 4: Investments

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	October 1, 2009	December 31, 2008
Mass Mutual Growth Equity Fund	*	$ 1,469,521
Mass Mutual Guaranteed Interest Account	*	$ 6,139,696
Mass Mutual Premier Global Fund	*	$ 2,518,054
Mass Mutual Premier Small Co. Opportunities Fund	*	*
Mass Mutual Premier Strategic Income Fund	*	$ 2,140,190
Mass Mutual Select Growth Equity Fund	*	*
Mass Mutual Select Indexed Equity Fund	*	$ 1,610,020
Mass Mutual Select Large Cap Value Fund	*	$ 2,985,721
Mass Mutual Select Mid Cap Growth Fund	*	*
Mass Mutual Select Strategic Balanced Fund	*	*

*Investments did not meet 5% criteria at respective financial statement date.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated in value as follows:

Pooled separate accounts	$ 5,011,380
Self-directed brokerage accounts	25,793
	$ 5,037,173

Note 5: Fair Value of Plan Assets

Effective January 1, 2008, the Plan adopted FASB ASC 820, *Fair Value Measurements*. FASB ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FASB ASC 820 has been applied prospectively as of the beginning of the year.

FASB ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

USInternetworking, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements
October 1, 2009 and December 31, 2008

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include pooled separate accounts and self-directed brokerage accounts. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. There are no Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans and the insurance company general account.

Effective October 1, 2009, the Plan assets were merged into the AT&T Savings Plan.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the FASB ASC 820 fair value hierarchy in which the fair value measurements fall at December 31, 2008:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ 18,747,517	$ 18,747,517	$ -	$ -
Insurance company general account	$ 6,139,696	$ -	$ -	$ 6,139,696
Self-directed brokerage account	$ 89,470	$ 89,470	$ -	$ -
Participant loans	$ 424,671	$ -	$ -	$ 424,671

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Insurance Company General Contract	Participant Loans
Balance, January 1, 2009	$ 6,139,693	$ 424,671
Purchases, issuances and settlements - net	213,700	(67,049)
Transfers out	(6,353,393)	(357,622)
Balance, October 1, 2009	$ -	$ -

Note 6: Party-in-Interest Transactions

The Plan loans funds to its participants according to the applicable provisions of the Plan agreement. The Company provides the Plan with certain accounting and administrative services for which no fees are charged. In addition, the Plan invests in shares of an insurance company general account and interests in pooled separate accounts managed by an affiliate of Mass Mutual. Mass Mutual acts as Custodian for the Plan. All such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7: Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Mass Mutual Life Insurance Company (Mass Mutual). Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a semiannual basis for resetting.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following are the average yields of the guaranteed investment contract for the period ending October 1, 2009 and year ended December 31, 2008:

	2009	2008
Based on actual earnings	*	3.39%
Based on interest rate credited to participants	*	3.39%

* As of period end, the contract was liquidated and proceeds transferred to AT&T Savings Plan.

Note 8: Subsequent Events

Subsequent events have been evaluated through May 25, 2010, which is the date the financials statements were available to be issued.
