INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Kelley Trucking Inc. Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of Kelley Trucking Inc. Retirement Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2011, and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) (modified cash basis) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Mid Atlantic Trust Company ("MATC"), the custodian of the Plan (formerly the trustee), except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that MATC holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from MATC as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by MATC is complete and accurate.

As described in Note B, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by MATC, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Kelley Trucking Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Effective January 25, 1990, Kelley Trucking Inc. (the "Employer") established the Kelley Trucking Inc. Retirement Plan, as amended, for the benefit of all eligible employees. The Plan is a contributory plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2011, the trustee of the Plan was changed from Mid Atlantic Trust Company to Beneco Trust Company.

2. Eligibility

Employees, regardless of age or service, who perform services for the Employer under a contract covered by a prevailing wage law, are eligible to receive prevailing wage contributions. Employees are eligible for discretionary Employer non-elective contributions upon the completion of one year of service and attainment of age 21, prior to semi-annual entry dates. In addition, employees must have worked at least 1,000 hours during the Plan year and be employed on the last day of the Plan year to be eligible for discretionary Employer non-elective contributions. Employees covered by collective bargaining agreements, leased employees and non-resident aliens are not eligible to participate in the Plan.

3. Contributions

The Employer makes prevailing wage contributions based on the hourly contribution rate required under the applicable prevailing wage law. In addition, the Employer may make discretionary Employer non-elective contributions. There were no discretionary Employer non-elective contributions to the Plan during the year ended December 31, 2011. Participant contributions with the exception of rollovers are not permitted under the Plan.

4. Investment Options

Upon enrollment in the Plan, participants may direct their rollover contributions or any Employer contributions in a variety of investment options offered by Mid Atlantic Trust Company, the custodian of the Plan.

5. Participant Accounts

Each participant's account is credited with Employer contributions, rollover contributions, earnings, and expenses. Plan earnings and expenses are allocated proportionally to the participants' accounts.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

6. Benefit Payments

Upon termination of service, participants are entitled to receive their vested account balances. Upon termination of service due to retirement or disability, a participant or a participant's beneficiary is entitled to the total value of the participant's account balance. The Plan does not allow for hardship or in-service distributions.

7. Vesting

Prevailing wage contributions, participant rollover contributions, and actual earnings thereon are fully vested at all times. Discretionary Employer non-elective contributions plus actual earnings thereon, are vested at 20% after two years of service, 20% per year of service thereafter, and are fully vested after six years of service.

8. Notes Receivable from Participants

The Plan does not allow participant loans.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The financial statements of the Plan are prepared using the modified cash basis of accounting, under which contributions and investment income are recorded when received rather than when earned, and distributions and expenses are recorded when paid rather than when incurred. That basis differs from accounting principles generally accepted in the United States of America primarily because the Plan has not recognized Employer contributions receivable, accounts payable to vendors, and their related effects on earnings in the accompanying financial statements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits (modified cash basis) present the fair value of the investment contract as well as the adjustment, if any, of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits (modified cash basis) is presented on a contract value basis. At December 31, 2011 and 2010, contract value of the fully benefit-responsive investment contract approximated fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Plan Administration

The Employer is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Payment of Benefits

Benefits are recorded when paid.

4. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Dividend income is recorded when received. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/(depreciation) include the Plan's gains and losses on investments bought and sold as well as held during the year.

5. Administrative Expenses

Administrative expenses incurred by the trustee and service providers in performance of their duties are paid from the assets of the Plan.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Mid Atlantic Trust Company, the custodian, as complete and accurate to the best of their knowledge, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

Total investments held and certified by the custodian in the accompanying statements of net assets available for benefits (modified cash basis) were $677,641 and $630,334 as of December 31, 2011 and 2010, respectively. The net investment income certified by the custodian in the accompanying statement of changes in net assets available for benefits (modified cash basis) was $3,823 for the year ended December 31, 2011.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIAN (Continued)

Investments that represent 5% or more of total net assets as of December 31, 2011 and 2010, are as follows:

	2011	2010
Investments at fair value:		
Fidelity Spartan 500 Index Fund	* $ 24,150	$ 40,967
American Funds Growth Fund of America	* $ 22,756	$ 34,818
PIMCO Total Return Fund	$ 45,535	$ 51,151
Wells Fargo Stable Value Fund	$ 274,994	$ 281,994
Vanguard Target Retirement 2040 Fund	$ 41,666	$ 43,024

* Less than 5% of total net assets

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value as follows:

Registered investment companies	$ (9,873)
Common collective trust	5,793
	$ (4,080)

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: The fair value is based on the underlying unit value reported by the common collective trust. The use of net asset value as fair value is deemed appropriate as the collective trust fund does not have a finite life, unfunded commitments, or significant restrictions on redemptions.

The Wells Fargo Stable Return Fund ("WFSR Fund") is a common collective trust fund and is a fully benefit-responsive investment contract. As stated at Note B-1, the fully benefit-responsive investment contract is presented at fair value on the statements of net assets available for benefits and then adjusted to contract value. The WFSR Fund has invested all of its assets in the Wells Fargo Stable Return Fund G ("Fund G"), a collective trust fund sponsored by Wells Fargo. The value of the WFSR Fund is based on the underlying unit value reported by Fund G. Fund G invests in investment contracts and security-backed contracts. A guaranteed investment contract ("GIC") is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: 1) a fixed-income security or portfolio of fixed-income securities, and 2) a contract value guarantee (wrapper) provided by a third party. The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. The fair value of a wrapper contract provided by a security-backed contract issuer is the replacement cost, and is based on the wrapper contract fees.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The yield earned by the WFSR Fund at December 31, 2011 and 2010 was 1.56% and 2.38%, respectively. This represents the annualized earnings of all investments in the WSFR Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the WFSR Fund at December 31, 2011 and 2010, respectively.

The yield earned by the WFSR Fund with an adjustment to reflect the actual interest rate credited to participants in the WFSR Fund at December 31, 2011 and 2010 was 2.33% and 2.90%, respectively. This represents the annualized earnings credited to participants in the WFSR Fund, divided by the fair value of all investments in the WFSR Fund at December 31, 2011 and 2010, respectively.

The WFSR Fund seeks safety of principal and consistency of returns while attempting to maintain minimal volatility.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

All investments are held with the custodian. The custodian is a party-in-interest with respect to the Plan and therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan's recordkeeper is a related party with respect to the Plan's trustee.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the assets of the Plan would be distributed to the participants based on each individual participant's interest in the Plan.

NOTE H - TAX STATUS

The Employer adopted a master non-standardized plan ("Non-Standardized Plan") which received its most recent opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Non-Standardized Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Administration errors, if any, which are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The financial statements are presented on a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America; therefore, plan management is not required to recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would be un-sustained upon examination by the IRS. However, the plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken as of December 31, 2011 that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2008.

NOTE I - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through July 31, 2012, the date the financial statements were available to be issued.

Effective January 1, 2012, the Plan was merged into the Beneco Retirement Plan.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Kelley Trucking Inc. Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of Kelley Trucking Inc. Retirement Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2011, and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) (modified cash basis) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Mid Atlantic Trust Company ("MATC"), the custodian of the Plan (formerly the trustee), except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that MATC holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from MATC as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by MATC is complete and accurate.

As described in Note B, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by MATC, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Kelley Trucking Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Effective January 25, 1990, Kelley Trucking Inc. (the "Employer") established the Kelley Trucking Inc. Retirement Plan, as amended, for the benefit of all eligible employees. The Plan is a contributory plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2011, the trustee of the Plan was changed from Mid Atlantic Trust Company to Beneco Trust Company.

2. Eligibility

Employees, regardless of age or service, who perform services for the Employer under a contract covered by a prevailing wage law, are eligible to receive prevailing wage contributions. Employees are eligible for discretionary Employer non-elective contributions upon the completion of one year of service and attainment of age 21, prior to semi-annual entry dates. In addition, employees must have worked at least 1,000 hours during the Plan year and be employed on the last day of the Plan year to be eligible for discretionary Employer non-elective contributions. Employees covered by collective bargaining agreements, leased employees and non-resident aliens are not eligible to participate in the Plan.

3. Contributions

The Employer makes prevailing wage contributions based on the hourly contribution rate required under the applicable prevailing wage law. In addition, the Employer may make discretionary Employer non-elective contributions. There were no discretionary Employer non-elective contributions to the Plan during the year ended December 31, 2011. Participant contributions with the exception of rollovers are not permitted under the Plan.

4. Investment Options

Upon enrollment in the Plan, participants may direct their rollover contributions or any Employer contributions in a variety of investment options offered by Mid Atlantic Trust Company, the custodian of the Plan.

5. Participant Accounts

Each participant's account is credited with Employer contributions, rollover contributions, earnings, and expenses. Plan earnings and expenses are allocated proportionally to the participants' accounts.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

6. Benefit Payments

Upon termination of service, participants are entitled to receive their vested account balances. Upon termination of service due to retirement or disability, a participant or a participant's beneficiary is entitled to the total value of the participant's account balance. The Plan does not allow for hardship or in-service distributions.

7. Vesting

Prevailing wage contributions, participant rollover contributions, and actual earnings thereon are fully vested at all times. Discretionary Employer non-elective contributions plus actual earnings thereon, are vested at 20% after two years of service, 20% per year of service thereafter, and are fully vested after six years of service.

8. Notes Receivable from Participants

The Plan does not allow participant loans.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The financial statements of the Plan are prepared using the modified cash basis of accounting, under which contributions and investment income are recorded when received rather than when earned, and distributions and expenses are recorded when paid rather than when incurred. That basis differs from accounting principles generally accepted in the United States of America primarily because the Plan has not recognized Employer contributions receivable, accounts payable to vendors, and their related effects on earnings in the accompanying financial statements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits (modified cash basis) present the fair value of the investment contract as well as the adjustment, if any, of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits (modified cash basis) is presented on a contract value basis. At December 31, 2011 and 2010, contract value of the fully benefit-responsive investment contract approximated fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Plan Administration

The Employer is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Payment of Benefits

Benefits are recorded when paid.

4. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Dividend income is recorded when received. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/(depreciation) include the Plan's gains and losses on investments bought and sold as well as held during the year.

5. Administrative Expenses

Administrative expenses incurred by the trustee and service providers in performance of their duties are paid from the assets of the Plan.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Mid Atlantic Trust Company, the custodian, as complete and accurate to the best of their knowledge, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

Total investments held and certified by the custodian in the accompanying statements of net assets available for benefits (modified cash basis) were $677,641 and $630,334 as of December 31, 2011 and 2010, respectively. The net investment income certified by the custodian in the accompanying statement of changes in net assets available for benefits (modified cash basis) was $3,823 for the year ended December 31, 2011.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIAN (Continued)

Investments that represent 5% or more of total net assets as of December 31, 2011 and 2010, are as follows:

	2011	2010
Investments at fair value:		
Fidelity Spartan 500 Index Fund	* $ 24,150	$ 40,967
American Funds Growth Fund of America	* $ 22,756	$ 34,818
PIMCO Total Return Fund	$ 45,535	$ 51,151
Wells Fargo Stable Value Fund	$ 274,994	$ 281,994
Vanguard Target Retirement 2040 Fund	$ 41,666	$ 43,024

* Less than 5% of total net assets

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value as follows:

Registered investment companies	$ (9,873)
Common collective trust	5,793
	$ (4,080)

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: The fair value is based on the underlying unit value reported by the common collective trust. The use of net asset value as fair value is deemed appropriate as the collective trust fund does not have a finite life, unfunded commitments, or significant restrictions on redemptions.

The Wells Fargo Stable Return Fund ("WFSR Fund") is a common collective trust fund and is a fully benefit-responsive investment contract. As stated at Note B-1, the fully benefit-responsive investment contract is presented at fair value on the statements of net assets available for benefits and then adjusted to contract value. The WFSR Fund has invested all of its assets in the Wells Fargo Stable Return Fund G ("Fund G"), a collective trust fund sponsored by Wells Fargo. The value of the WFSR Fund is based on the underlying unit value reported by Fund G. Fund G invests in investment contracts and security-backed contracts. A guaranteed investment contract ("GIC") is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: 1) a fixed-income security or portfolio of fixed-income securities, and 2) a contract value guarantee (wrapper) provided by a third party. The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. The fair value of a wrapper contract provided by a security-backed contract issuer is the replacement cost, and is based on the wrapper contract fees.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The yield earned by the WFSR Fund at December 31, 2011 and 2010 was 1.56% and 2.38%, respectively. This represents the annualized earnings of all investments in the WSFR Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the WFSR Fund at December 31, 2011 and 2010, respectively.

The yield earned by the WFSR Fund with an adjustment to reflect the actual interest rate credited to participants in the WFSR Fund at December 31, 2011 and 2010 was 2.33% and 2.90%, respectively. This represents the annualized earnings credited to participants in the WFSR Fund, divided by the fair value of all investments in the WFSR Fund at December 31, 2011 and 2010, respectively.

The WFSR Fund seeks safety of principal and consistency of returns while attempting to maintain minimal volatility.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

All investments are held with the custodian. The custodian is a party-in-interest with respect to the Plan and therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan's recordkeeper is a related party with respect to the Plan's trustee.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the assets of the Plan would be distributed to the participants based on each individual participant's interest in the Plan.

NOTE H - TAX STATUS

The Employer adopted a master non-standardized plan ("Non-Standardized Plan") which received its most recent opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Non-Standardized Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Administration errors, if any, which are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The financial statements are presented on a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America; therefore, plan management is not required to recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would be un-sustained upon examination by the IRS. However, the plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken as of December 31, 2011 that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2008.

NOTE I - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through July 31, 2012, the date the financial statements were available to be issued.

Effective January 1, 2012, the Plan was merged into the Beneco Retirement Plan.
