NOTE 1 — DESCRIPTION OF PLAN

The following description of the Silhouette Optical, Ltd. Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Silhouette Optical, Ltd. (the "Company") who have completed six months of service and have worked at least 500 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and other applicable sections of the Internal Revenue Code.

Contributions

Each year, participants may contribute from 2% up to 75% (not to exceed dollar limits set by law) of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company matches 100% of the first 3% of participant contributions and 50% of the next 2% of participant contributions. An employer discretionary contribution amount may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. There were no discretionary contributions made during 2009 or 2008.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Effective January 1, 2007, employer matching and discretionary contributions are fully vested (100%) when such contributions are made.

Prior to January 1, 2007, a participant was 100% vested after four years of credited service, upon attainment of normal retirement age, death, total disability or termination of the Plan. The previous vesting schedule was as follows:

Years of Service	Percent Vested
Less than 1 year	0%
1 full year	25%
2 full years	50%
3 full years	75%
4 full years	100%

This vesting schedule remains in effect for all plan contributions made prior to January 1, 2007.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Forfeitures

Forfeitures are used to reduce employer contributions. At December 31, 2009 there are $7,581 in unallocated forfeitures which were used to reduce employer contributions in January 2010. There were no unallocated forfeitures at December 31, 2008.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Participant loans are secured by the remaining balance in the participant's account and bear interest at local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Employment Termination

Upon termination of service, benefits are paid in the form of a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants, pursuant to the qualifications set forth in the Plan agreement, may elect to have their benefits paid in installments over 10, 15 or 20 years.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Valuation

Generally accepted accounting principles for Fair Value Measurements and Disclosures, provides the framework for measuring the fair value of investments and expands investment related disclosures. In this regard, fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The following describes the three levels of inputs that may be used to measure fair value:

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments (Continued)

Level 1 – quoted prices in active markets for identical assets and liabilities;

Level 2 – observable inputs other than quoted market prices in active markets for identical assets and liabilities; and

Level 3 – unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Investment Contract Funds

The fair value of the PNC Investment Contract Fund is determined based upon the current fair value of the underlying assets of the fund. The underlying assets include short-term investments and Synthetic Guaranteed Investment Contracts (SGICs), which are portfolios of securities, including short-term and fixed-income securities with wrapper contracts associated with the portfolio. The fair values of SGICs are generally determined by discounting the scheduled future payments required under the contract using an interpolated market rate for contracts with similar maturities to the average remaining life of the SGIC being valued. The securities supporting the SGICs and the wrapper agreements are also reported at fair value. Fair values for these are determined by:

Short-term investments – consisting of money market funds are recorded at cost, which approximates fair value.

Fixed income securities – values are furnished by an independent pricing service, using the most appropriate method, which includes the last quoted market price on the securities major trading exchange, quotes received from dealers or market makers in the relevant securities and matrix pricing.

Wrapper contracts – values are determined as discounted present value of the difference between the current wrapper contract cost and its replacement cost, based on issuer quotes.

Participant Loans

Valued at amortized cost, which approximates fair value.

Administrative Expenses

Administrative expenses related to trustee fees are allocated and charged directly to plan participant accounts. Other expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through July 22, 2010, the date the financial statements were available to be issued.

NOTE 3 — TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. Accordingly, no provision for Federal income taxes has been made in the accompanying financial statements.

NOTE 6 — PNC BANK, N.A. CERTIFICATION

The Company is a party to a trust agreement with PNC Bank, N.A. for the holding and administration of the Plan assets. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE 1 — DESCRIPTION OF PLAN

The following description of the Silhouette Optical, Ltd. Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Silhouette Optical, Ltd. (the "Company") who have completed six months of service and have worked at least 500 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and other applicable sections of the Internal Revenue Code.

Contributions

Each year, participants may contribute from 2% up to 75% (not to exceed dollar limits set by law) of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company matches 100% of the first 3% of participant contributions and 50% of the next 2% of participant contributions. An employer discretionary contribution amount may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. There were no discretionary contributions made during 2009 or 2008.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Effective January 1, 2007, employer matching and discretionary contributions are fully vested (100%) when such contributions are made.

Prior to January 1, 2007, a participant was 100% vested after four years of credited service, upon attainment of normal retirement age, death, total disability or termination of the Plan. The previous vesting schedule was as follows:

Years of Service	Percent Vested
Less than 1 year	0%
1 full year	25%
2 full years	50%
3 full years	75%
4 full years	100%

This vesting schedule remains in effect for all plan contributions made prior to January 1, 2007.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Forfeitures

Forfeitures are used to reduce employer contributions. At December 31, 2009 there are $7,581 in unallocated forfeitures which were used to reduce employer contributions in January 2010. There were no unallocated forfeitures at December 31, 2008.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Participant loans are secured by the remaining balance in the participant's account and bear interest at local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Employment Termination

Upon termination of service, benefits are paid in the form of a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants, pursuant to the qualifications set forth in the Plan agreement, may elect to have their benefits paid in installments over 10, 15 or 20 years.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Valuation

Generally accepted accounting principles for Fair Value Measurements and Disclosures, provides the framework for measuring the fair value of investments and expands investment related disclosures. In this regard, fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The following describes the three levels of inputs that may be used to measure fair value:

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments (Continued)

Level 1 – quoted prices in active markets for identical assets and liabilities;

Level 2 – observable inputs other than quoted market prices in active markets for identical assets and liabilities; and

Level 3 – unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Investment Contract Funds

The fair value of the PNC Investment Contract Fund is determined based upon the current fair value of the underlying assets of the fund. The underlying assets include short-term investments and Synthetic Guaranteed Investment Contracts (SGICs), which are portfolios of securities, including short-term and fixed-income securities with wrapper contracts associated with the portfolio. The fair values of SGICs are generally determined by discounting the scheduled future payments required under the contract using an interpolated market rate for contracts with similar maturities to the average remaining life of the SGIC being valued. The securities supporting the SGICs and the wrapper agreements are also reported at fair value. Fair values for these are determined by:

Short-term investments – consisting of money market funds are recorded at cost, which approximates fair value.

Fixed income securities – values are furnished by an independent pricing service, using the most appropriate method, which includes the last quoted market price on the securities major trading exchange, quotes received from dealers or market makers in the relevant securities and matrix pricing.

Wrapper contracts – values are determined as discounted present value of the difference between the current wrapper contract cost and its replacement cost, based on issuer quotes.

Participant Loans

Valued at amortized cost, which approximates fair value.

Administrative Expenses

Administrative expenses related to trustee fees are allocated and charged directly to plan participant accounts. Other expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through July 22, 2010, the date the financial statements were available to be issued.

NOTE 3 — TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. Accordingly, no provision for Federal income taxes has been made in the accompanying financial statements.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Forfeitures

Forfeitures are used to reduce employer contributions. At December 31, 2009 there are $7,581 in unallocated forfeitures which were used to reduce employer contributions in January 2010. There were no unallocated forfeitures at December 31, 2008.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Participant loans are secured by the remaining balance in the participant's account and bear interest at local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Employment Termination

Upon termination of service, benefits are paid in the form of a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants, pursuant to the qualifications set forth in the Plan agreement, may elect to have their benefits paid in installments over 10, 15 or 20 years.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Valuation

Generally accepted accounting principles for Fair Value Measurements and Disclosures, provides the framework for measuring the fair value of investments and expands investment related disclosures. In this regard, fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The following describes the three levels of inputs that may be used to measure fair value:

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments (Continued)

Level 1 – quoted prices in active markets for identical assets and liabilities;

Level 2 – observable inputs other than quoted market prices in active markets for identical assets and liabilities; and

Level 3 – unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value.

Mutual Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Investment Contract Funds

The fair value of the PNC Investment Contract Fund is determined based upon the current fair value of the underlying assets of the fund. The underlying assets include short-term investments and Synthetic Guaranteed Investment Contracts (SGICs), which are portfolios of securities, including short-term and fixed-income securities with wrapper contracts associated with the portfolio. The fair values of SGICs are generally determined by discounting the scheduled future payments required under the contract using an interpolated market rate for contracts with similar maturities to the average remaining life of the SGIC being valued. The securities supporting the SGICs and the wrapper agreements are also reported at fair value. Fair values for these are determined by:

Short-term investments – consisting of money market funds are recorded at cost, which approximates fair value.

Fixed income securities – values are furnished by an independent pricing service, using the most appropriate method, which includes the last quoted market price on the securities major trading exchange, quotes received from dealers or market makers in the relevant securities and matrix pricing.

Wrapper contracts – values are determined as discounted present value of the difference between the current wrapper contract cost and its replacement cost, based on issuer quotes.

Participant Loans

Valued at amortized cost, which approximates fair value.

Administrative Expenses

Administrative expenses related to trustee fees are allocated and charged directly to plan participant accounts. Other expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through July 22, 2010, the date the financial statements were available to be issued.

NOTE 3 — TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. Accordingly, no provision for Federal income taxes has been made in the accompanying financial statements.
