Huffines Auto Dealerships 401(k) Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE A - PLAN DESCRIPTION AND BENEFITS

General

The following description of the Huffines Auto Dealerships (the "Plan Sponsor") 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document or the Summary Plan Description ("SPD") for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Huffines Auto Dealerships who have completed 12 months of service, earned at least 1,000 hours of service and are at least 21 years of age. The Plan is a qualified cash or deferred profit sharing plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was amended in 2009 to incorporate legislative changes associated with this type of plan.

Contributions

The Plan permits participants to defer up to 100% of their pre-tax compensation as defined in the plan, limited to the amounts allowed by the applicable Internal Revenue Code ("IRC") Section ($16,500 in 2009 and $15,500 in 2008, plus a $5,500 and $5,000 catch-up deferral for employees over 50 years of age in 2009 and 2008, respectively).

At its discretion, the Plan Sponsor may make matching, as well as discretionary, non-elective contributions to the Plan as determined by the Board of Directors of the Plan Sponsor. The Plan Sponsor did not match any employee contributions for 2009 or 2008.

Participant accounts are credited upon receipt with participant contributions and employer matching contributions, if any. Allocation of Plan Sponsor discretionary contributions are credited to participant accounts annually in accordance with the formula prescribed by the Plan.

Vesting

Participants immediately vest in their contributions to the Plan plus allocated earnings thereon. Participants are vested in Plan Sponsor matching and discretionary contributions, plus allocated earnings thereon, as follows:

0% at one year;
20% at two years;
40% at three years;
60% at four years;
80% at five years; and
100% at six years or more of vesting service as defined by the Plan.

Additionally, a participant becomes 100% vested if employment is terminated due to death or full and permanent disability.

NOTE A - PLAN DESCRIPTION AND BENEFITS - Continued

Forfeitures

Forfeitures of terminated participants' nonvested accounts will be utilized to offset Plan Sponsor matching contributions. Forfeitures totaled $2,269 and $1,907 for the years ended December 31, 2009 and 2008, respectively. No forfeitures were utilized to offset Plan Sponsor matching contributions in 2009 or 2008.

Payment of Benefits

Upon retirement, death, full and permanent disability, or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive either a lump sum amount or alternative form of payment, as specified in the Plan document. The Plan allows participants to make hardship withdrawals, subject to certain limitations, as defined.

Participant Loans

Under the Plan, participants may obtain loans in amounts up to the lesser of 50% of their vested account balance or $50,000, with a minimum loan amount of $1,000. Loans bear interest based on the prime rate of interest as reported in the *Wall Street Journal* as of the last day of the preceding month, plus two percent. The loans are secured by the remaining account balance, and repayments are made through regular payroll deductions over a period not to exceed five years.

Expenses of Administering the Plan

Certain costs and expenses incurred with regard to the purchase, sale or transfer of investments are paid by the Plan. Investment advisory fees for portfolio management are paid directly from fund earnings and are included in mutual fund expense ratios. All other administrative expenses are paid by the Plan Sponsor.

Plan Termination

While the Plan Sponsor has not expressed any intent to do so, it has the right at any time to terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants will become fully vested. Upon termination of the Plan, a participant may elect to receive either a lump-sum amount or alternative form of payment, as specified in the Plan document.

Participant Accounts

An individual account is maintained for each of the Plan's participants to reflect the participant's contributions and related matching contributions from the Plan Sponsor, as well as an allocation of the Plan's income and any related administrative expenses. Gains or losses on investments are allocated based on the proportion that each participant's account balance bears to the total of all fund balances. Participants direct their investments to any of the available investment options under the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Investments

The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments.

Investments in publicly traded securities such as stocks, mutual funds and limited partnerships are carried at fair value based on quoted market prices. The Putnam Stable Value Fund includes security-backed investment contracts including guaranteed investment contracts ("GICs"), synthetic GICs, bank investment contracts ("BICs") and cash-equivalents. Synthetic GICs are contracts composed of underlying assets and a "wrapper" contract issued by a responsible third party. The issuer of the "wrapper" contract provides for withdrawals at contract value for any normal benefit responsive requirements. The Putnam Stable Value Fund is stated at fair value, which is determined by using discounted expected future cash flow using current market rates. Participant loans are valued at the unpaid principal balance which approximates fair value. Purchases and sales of securities are recorded on the trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments are recorded when paid.

NOTE C - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits. The Plan does not obtain or require collateral for these investment securities.

NOTE D - INVESTMENT CONTRACT WITH INSURANCE COMPANY

At the inception of the Plan, the Plan entered into a fully benefit-responsive guaranteed investment contract with Franklin Templeton Bank and Trust, F.S.B. ("Franklin Templeton"). In 2008, the fund was liquidated and the proceeds were used to purchase the Putnam Stable Value Fund, a fully benefit-responsive guaranteed investment contract with Great West Retirement Services ("Great West"). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The average annual yield was 2.95% and 4.63%, and the interest crediting rate was 3.83% and 4.16% for the Putnam Stable Value Fund in 2009 and 2008, respectively.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than four percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE E - TAX STATUS

The Plan operates under a prototype plan document and has received a favorable opinion letter, dated August 7, 2001, from the Internal Revenue Service stating that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code ("the Code"). The Plan has been amended since that date, on January 1, 2007; however, the Plan administrator believes the Plan is currently being operated in compliance with the applicable requirements of the Code, and therefore believes that the Plan is qualified and tax-exempt.

Mutual Funds	$1,006,384
Common collective trust	(117,351)
Net appreciation in fair value of investments	$ 889,003

NOTE G - FAIR VALUE MEASUREMENTS

Fair value is defined under FASB Accounting Standards Codification ("ASC 820-10"), *Fair Value Measurements*, as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value under ASC 820-10 must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard established a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable.

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices available in active markets for identical assets or liabilities as of the reporting date.

NOTE G - FAIR VALUE MEASUREMENTS - Continued

Level 2 – Pricing inputs to the valuation methodology, other than Level 1 quoted prices, which are either directly observable or can be corroborated by observable market data as of the reporting date. These inputs are frequently utilized in pricing models, discounted cash flow techniques and other widely accepted valuation methodologies.

Level 3 – Pricing inputs to the valuation methodology that are not observable in situations where there is little or no market activity for the asset or liability and reflect the use of significant judgment in the estimates and assumptions related to the pricing of the asset or liability. These inputs are often used in an internally developed valuation model intended to result in the reporting entity's best estimate of current fair value.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value and the general classification of such investment pursuant to the valuation hierarchy:

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	Total

Certain fees paid to the Plan trustee for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings. Therefore, these transactions qualify as party-in-interest transactions.
