NOTES TO FINANCIAL STATEMENTS

1. THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General

The following description of the DCOR LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 2002 by DCOR LLC (the "Company") to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the "Code"), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Company has appointed an Administrative Committee (the "Committee") to manage the operation and administration of the Plan. The Company has contracted with Massachusetts Fidelity Trust Company, a division of Transamerica Life Insurance Company ("Transamerica") to act as the trustee and a third-party administrator to process and maintain the records of participant data.

Certified Assets

The Committee has obtained certifications from the trustees that the information provided to the Committee by the trustees related to investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Committee instructed the Plan's independent auditors not to perform any auditing procedures with respect to all the investments and related investment income as of and for each of the years ended December 31, 2011 and 2010.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited Accounts

If a participant terminates employment with the Company prior to becoming fully vested, the non-vested portion of the Company's discretionary contributions and related earnings thereon are forfeited. All forfeitures are segregated until the employee has attained break in service totaling five years. At that time, forfeitures are utilized to pay administrative expenses of the Plan. Remaining forfeitures then reduce employer discretionary contributions, when applicable. Remaining amounts are then allocated pro-rata to each participant account according to their respective eligible compensation for that year. At December 31, 2011 and 2010, there were no unallocated assets related to these forfeitures.

NOTES TO FINANCIAL STATEMENTS

Investment Valuation and Investment Recognition
The Plan has a contract with Transamerica whereby Transamerica maintains contributions in a contract holder's account and such contributions are allocated according to participant elections to 53 separate pooled investment funds. The participants' accounts are credited with earnings on the underlying investments, less any Plan benefits paid and charges for Transamerica management fees and investment expenses. The pooled separate accounts are included in the financial statements at fair value. See Note 2 for discussion of fair value measurements.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments in pooled separate accounts, which consists of realized gains or losses and the unrealized appreciation (depreciation) of the investments. Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends on stocks are credited to income on the ex-dividend date.

Participant Loans
Participant loans are valued at unpaid principal balance and related accrued interest, which approximates fair value.

Income Taxes
The Plan has adopted a volume submitter plan and is relying on that volume submitter plan's favorable tax determination status. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Risks and Uncertainties
The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent Accounting Pronouncements
In September 2010, the FASB issued new guidance that requires that participant loans be classified as notes receivable rather than as a Plan investment and measured at unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements*. For assets and liabilities measured on a recurring basis, this subtopic requires quantitative disclosures about the fair value measurements separately for each class of assets and liabilities. Any transfers to or from Levels 1 and 2 and the reasons for those transfers also need to be disclosed. For assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs, this subtopic requires a reconciliation of the beginning and ending balances, separately for each class of assets and liabilities.

Subsequent Events
The Plan Administrator has evaluated subsequent events through September 27, 2012, the date the financial statements were available to be issued. There were no material subsequent events as of that date.

2. FAIR VALUE MEASUREMENTS (UNAUDITED)

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Pooled separate accounts are valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment securities measured at fair value on a recurring basis are summarized below:

December 31, 2011

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 9,084,411	$ 5,868,250	$ -	$ 14,952,661
	$ 9,084,411	$ 5,868,250	$ -	$ 14,952,661

December 31, 2010	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$12,607,961	$ -	$12,607,961
	$ -	$12,607,961	$ -	$12,607,961

3. RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by Transamerica, the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

4. PARTICIPATION AND BENEFITS

Eligibility
Each employee may become a participant on the first entry date coinciding with, or following, the completion of six consecutive months of service. Entry dates are the beginning of the next payroll cycle upon reaching eligibility.

Participant Contributions
Participants may elect to have the Company contribute their eligible pre-tax or Roth after-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. For the years ending December 31, 2011 and 2010, the maximum amount was $16,500. Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants who have attained age 50 before the close of the Plan Year are eligible to make catch-up contributions to the Plan. The additional catch-up contributions limit for the years ending December 31, 2011 and 2010 was $5,500.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer Contributions
For the years ending December 31, 2011 and 2010, the Company made matching contributions to the Plan for all non-highly compensated employees equal to 100% of the first 6% of the employees' pre-tax contribution amount. Participants may elect to have their contributions invested in any one or more of the Transamerica pooled separate investment funds. Participants may make changes to their elective contribution deferrals for the following payroll period and their investment designations with respect to their account balances and future contributions at any time. The Company may also contribute an additional non-matching contribution amount out of its current or accumulated profits, if any, as determined by the Company. To share in these contributions, participants must have completed 1,000 hours of service during that Plan year and be employed on the last day of the plan year.

Contributions receivable from the Company and participants were not significant as of December 31, 2011 and 2010.

Vesting

All employee and employer matching contributions are immediately 100% vested. Participants are vested in the value of Company discretionary contributions on a 6-year graded scale with 20% vesting after 2 years of credited service to 100% vesting after 6 years of credited service.

Participant Accounts

Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Company's contribution, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. During 2011, the Plan made several changes to the investment options available to plan participants which included new investment options and replacement of investment options. The Plan currently offers 53 investment options for participants in separate pooled accounts.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in either a lump-sum distribution or a fixed period that may not exceed the participant's life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefit payments to participants are recorded upon distribution.

Participant Loans

The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) participant loans. Such loans bear interest at a rate of Prime plus 1% and loan terms range from one to five years, unless the loan is used for the purchase of a principal residence, in which case the maximum repayment period may be longer. The specific terms and conditions of such loans are established by the Plan Committee. Outstanding loans at December 31, 2011 carry interest rates ranging from 4.25% to 9.25%.

Principal and interest are paid ratably through bi-weekly payroll deductions. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributable event stated in the Plan document.

Administrative Expenses

Under the group annuity contract entered with Transamerica, the contract asset charges are assessed each month based on the actual combined balance of all separate accounts and the stable value fund. These charges are presented as administrative fees in the Statement of Changes in Net Assets Available for Benefits. Administrative expenses, including recordkeeping, trustee, legal, auditing, and other fees, may be paid out of the invested assets unless paid by the Employer. No expenses were absorbed by the Company during the year ended December 31, 2011.

5. INVESTMENTS (UNAUDITED)

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Transamerica Retirement Services has certified the current value of assets held at December 31, 2011 and 2010, and transactions entered into during the years ended December 31, 2011 and 2010, that were used in the preparation of the accompanying financial statements and supplemental schedule. 6. PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
