NOTE 1 DESCRIPTION OF PLAN

The following description of Medical Associates of Brevard, LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a profit sharing (defined contribution) plan covering all full-time employees of Medical Associates of Brevard, LLC ("the Company") who have reached age twenty-one and have completed one year of service, as defined in the Plan Document. The Plan also contains a Roth feature to which employees can make contributions up to the maximum permitted by the Internal Revenue Service ("IRS"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and various provisions of the Internal Revenue Code ("IRC").

Contributions

Employees may make elective deferrals (401(k)) of up to eighty-five percent of compensation as defined in the Plan Document or the maximum annual deferral determined by the IRS. The Company contributes a safe harbor matching amount each pay period equal to one hundred percent of participant elective deferrals, not to exceed four percent of each participant's eligible compensation, for the Plan year. The contribution is limited by the maximum allowable deduction as determined by the IRC. The Company may also make discretionary non-elective contributions to the Plan which is not limited to the amount of net profits. The annual additions to a participant's elective deferral account, Roth account, and employer contribution accounts for a Plan year shall not exceed the maximum permissible amount.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, an allocation of Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Participants are immediately one hundred percent vested upon entry into the Plan in their respective salary deferrals, Roth contributions, and the Company's safe harbor matching contributions. Vesting in the Company's discretionary non-elective contribution, plus earnings thereon, is based on years of continuous services. A participant is one hundred percent vested upon completion of six years of credited service, reaching normal retirement age, becoming disabled, or death, as further defined by the Plan Document.

Benefit Payments

Upon termination of service, a participant may elect to receive the value of his or her vested account balance in a lump-sum amount. Participants may also take in-service distributions when certain conditions are met, as defined in the Plan document.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Hardship Withdrawals

Eligible participants may receive a distribution of their accounts in the event of a financial hardship due to an immediate and heavy financial need, as defined in the Plan Document.

Forfeited Accounts

Forfeited amounts of terminated participants who are not one hundred percent vested in employer contributions may be used to reduce employer contributions or pay Plan expenses. The Plan did not utilize any forfeited amounts to reduce employer contributions or pay plan expenses during 2011. Forfeited amounts still available to reduce Plan expenses or reduce future employer contributions totaled $18,189 and $18,185 at December 31, 2011 and 2010, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting. Under this basis, investment income is generally recognized as collected, contributions are recognized as salary is earned, expenses are generally recognized as paid, and investments are presented at fair market value. This basis differs from accounting principles generally accepted in the United States of America primarily because the Plan has not recognized balances, and the related effect on earnings, of investment income receivable, distributions and accrued expenses payable, if any.

Use of Estimates

The Plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenditures. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2011 and 2010.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds) represent investments with various investment managers. The fair values of registered investment companies are valued at the closing price reported on the active market on which the individual securities are traded by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 19, 2012, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS AND ADMINISTRATION OF PLAN ASSETS

The investments of the Plan are held by ING Institutional Plan Services, LLC, on behalf of Reliance Trust Company ("the Trustee") who also provides administrative services for the Plan. The Trustee invests the assets of the Plan at the direction of Plan participants as defined by the trust agreement.

The Trustee values the funds daily, allocates the earnings since the last valuation among the participants and makes disbursements to participants and beneficiaries of the Plan at the direction of the Plan's administrative committee and Plan participants.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any audit procedures with respect to the following information certified by the Trustee as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedules.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan's investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits – modified cash basis.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants shall become one hundred percent vested upon termination of the Plan.

NOTE 9 PLAN TAX STATUS

The Plan has obtained a favorable tax determination letter dated March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan's management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 10 NON-EXEMPT TRANSACTION

During 2010, the Company failed to remit employee 401(k) deferral contributions for certain payroll periods within the timeframe prescribed by the Department of Labor. This is deemed a prohibited transaction in accordance with ERISA and the IRC. The Company corrected the prohibited transaction in 2011 by depositing the lost earnings and filing the required Form 5330 with the IRS, paying the appropriate excise tax.
