INDEPENDENT AUDITOR'S REPORT

To the Sponsor of the
Provident Funding 401(k) Plan
San Bruno, California

We were engaged to audit the financial statements and supplemental schedule of the Provident Funding 401(k) Plan (the Plan) as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Orchard Trust Company, LLC, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROVIDENT FUNDING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

---

1. DESCRIPTION OF THE PLAN

The following description of the Provident Funding 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established effective June 1, 1998 and most recently amended on January 1, 2003. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility – An employee of Provident Funding Associates, L.P. (the "Company") becomes eligible to participate the first month following completion of three consecutive months of service and if the employee can be expected to work more than 1,000 hours per year.

Administration – The Company is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Administrative and recordkeeping services are provided by Great-West Retirement Services, an affiliate of Orchard Trust Company (the Trustee).

Participant contributions – Participants may elect to contribute any amount of their eligible gross compensation to the Plan not to exceed the maximum amount established by law for the Plan year. Participants direct the allocation of their contributions to the available investment funds. Participants who have reached the age of 50 are allowed to make a "catch up" contribution in an amount established by law for the plan year.

Employer contributions – The Company may make a matching contribution or a discretionary profit sharing contribution. Participants are eligible for matching contributions and an allocation of forfeitures if they are employed with the Company as of the end of the year. If the participant is not actively employed on the last day of the plan year, they must be credited with more than 500 hours of service during the plan year. This employment requirement does not apply to those participants who terminate their employment due to death, disability, or attainment of normal retirement age (59 ½). During 2011 and 2010, the Company did not make a matching contribution or a discretionary profit sharing contribution.

Investment options – Upon enrollment in the Plan, a participant may direct contributions in any of several investment alternatives offered through the Trustee.

Participant accounts – Each participant's account is credited with the participant's contribution and plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The vested balance in a participant's account is the benefit to which the participant would be entitled upon termination or retirement.

Vesting – Each participant is fully vested in his or her salary deferrals and is fully vested in the employer match and the discretionary profit sharing upon the completion of 4 years of service. The following table is the vesting schedule based on years of service:

Years of Vesting Service	Percentage of Vesting
1	25%
2	50%
3	75%
4	100%

Payment of benefits – On retirement, disability, death or termination of service, a participant will receive either a lump sum or a rollover amount equal to the value of the vested portion of his or her account. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeitures – Upon termination of employment, non-vested portions of participant accounts are forfeited. Forfeitures shall first be used to pay administrative expenses. Any remaining amounts may be used to reduce the employer's matching contribution or may be allocated to participants in the same manner as discretionary contributions. At December 31, 2011 and 2010, forfeited non-vested accounts totaled approximately $187 and $280, respectively.

Termination of the Plan – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the full value of each participant's account shall remain fully vested and non-forfeitable.

Costs of administration – Participants pay for substantially all of the Plan's administrative expenses.

Participant loans – Participants may borrow from their vested account balance up to a maximum equal to the lesser of $50,000 or 50 percent of their non-forfeitable account balance. Loan transactions are treated as transfers between the investment fund and the Participant Loan fund. Loan terms range from 1-5 years or a longer term may be approved for the purchase of a principal residence. The loans are secured by 50 percent of the vested balance in the participant's account and bear a reasonable rate of interest, which is determined at loan origination. Principal and interest is paid ratably through payroll deductions. A loan may become a taxable distribution if it is not paid back under the terms set forth in the loan agreement.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Contributions from participants are recorded when withheld from the participant.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – The Plan's investments are stated at fair value as presented and certified by the Trustee. Mutual funds are valued based on public prices traded in the active market. Purchases and sales of securities are recorded on a trade-date basis. Interest income and gains are recorded on the accrual basis. Dividends and capital gain distributions are recorded on ex-dividend dates.

Accounting standards require investment contracts held by a defined-contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The common/collective trust is valued using a predetermined formula based on the contract value.

Payments of benefits – Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

Fair value measurements – Assets and liabilities measured at fair value are recorded in accordance with accounting standards, which clarifies that fair value is an exit price representing the amount that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

Income taxes – The Plan has adopted a prototype standardized profit sharing plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008. The letter stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

The Plan has implemented the amended accounting principles related to accounting for uncertainty in income taxes and has determined that there is no material impact on the financial statements.

Subsequent events have been reviewed through August 17, 2012, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Orchard Trust Company, LLC (the Trustee) and was not subject to any auditing procedures.

Interest and dividends from investments as reported by the Trustee for the year ended December 31, 2011 was $232,792. Interest from participant loans as reported by the Trustee for the year ended December 31, 2011 was $6,086. Unrealized and realized loss as reported by the Trustee for the year ended December 31, 2011 was $295,040.

Total investments (stated at contract value for fully benefit-responsive investment contracts) as reported by the Trustee were $6,305,951 and $5,821,049 as of December 31, 2011 and 2010, respectively.

4. FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observed for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

Common / collective trusts: Valued at contract value as reported to the plan by the Trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

Investment type	Level 1	Level 2	Level 3	Total
Mutual Fund:				
International	$ 2,154,593			$ 2,154,593
Large growth	924,270			924,270
Mid-Cap	636,993			636,993
Government bond	379,948			379,948
Real estate	292,562			292,562
Common/Collective trust:				
Stable value fund		$ 1,983,012		1,983,012
Total assets at fair value	$ 4,388,366	$ 1,983,012	$	$ 6,371,378

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Investment type	Level 1	Level 2	Level 3	Total
Mutual Fund:				
International	$ 2,162,361			$ 2,162,361
Large growth	947,326			947,326
Mid-Cap	570,198			570,198
Government bond	241,985			241,985
Real estate	203,078			203,078
Common/Collective trust:				
Stable value fund		$ 1,793,170		1,793,170
Total assets at fair value	$ 4,124,948	$ 1,793,170	$	$ 5,918,118

5. INVESTMENTS

The fair value of investments that represent 5 percent or more of the Plan's net assets as of December 31, are summarized as follows:

	2011	2010
Putnam Stable Value Fund	$ 1,983,012	$ 1,793,170
Franklin Templeton Investments Flex Capital Growth Fund	924,270	947,326
Franklin Templeton Investments Mutual Quest Fund	959,700	942,286
Franklin Templeton Investments Mutual Global Discovery Fund	851,531	828,713
Franklin Templeton Investments Small-Mid Capital Growth Fund	636,993	570,198
Franklin Templeton Investments US Government Securities	379,948	
Franklin Templeton Investments Templeton Foreign Fund	343,362	391,362

6. INVESTMENTS IN COMMON/COLLECTIVE TRUST

The Plan's investment contract with the Trustee includes a benefit responsive stable value contract with the Putnam Stable Value Fund (Fund). The Fund maintains the contributions in synthetic wrap, in which funds are primarily invested in guaranteed investment contracts, security-backed investment contracts, separate accounts issued or wrapped by insurance companies, banks or other financial institutions, or externally managed stable value commingled investment funds. The securities are "wrapped" by a synthetic investment contract that insures that participant initiated withdrawals from the stable value fund will be at book (contract) value. The stable value contract does not permit the Plan to terminate the contract and settle at amounts other than contract value.

As described in Note 2, because the stable value contract is benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the Fund. Contract value, as reported to the Plan by the Trustee, represents the sum of all benefits owed to participants in that fund, and is equal to the sum of each participant's invested principal plus all accrued interest. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The crediting interest rate is based on an agreed-upon formula with the issuers of the Fund's securities. Such interest rates are either set at the beginning of the contract and held constant, or reset periodically to reflect the performance of the underlying securities. Primary factors impacting future crediting rates include the current yield and the duration of the assets backing the contract, as well as the existing difference between the market value and contract value of the assets.

The average yields were approximately 3.11% and 4.02% for 2011 and 2010, respectively. The crediting interest rates were approximately 3.23% and 4.15% for 2011 and 2010, respectively.

7. RISKS AND UNCERTAINTIES

Investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
