McRee Ford, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of McRee Ford, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

McRee Ford, Inc., and its affiliates (the Company) is the Plan Sponsor. The Plan is a defined contribution plan covering all employees who have reached the age of 21 and who have six months of service prior to the Plan enrollment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective December 1, 2008, Principal Life Insurance Company (Principal) was terminated as custodian and recordkeeper, except for the Principal U.S. Property Fund, at the direction of the Company, and the Hartford Life Insurance Company (Hartford) was appointed as custodian. Effective October 22, 2010, the date of liquidation, the Principal U.S. Property Fund was removed from the available investment options and the funds were transferred to Hartford and invested based on the participants' election. Loren D. Stark Company, Inc. (Loren Stark) serves as Plan recordkeeper.

Contributions

Participants may elect to defer a percentage of their compensation as contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover contributions from other qualified defined benefit or contribution plans. The Company, at its discretion, may make matching and profit sharing contributions. For the years ended December 31, 2011 and 2010, the Company did not make any matching or profit sharing contributions. Contributions are subject to certain limitations.

Participant Investment Account Options

Participants direct the investment of their contributions, as well as the Company's contribution, into various options offered by the Plan. The Plan currently offers various pooled separate accounts as investment options for participants.

The Principal U.S Property Separate Account Fund (the Separate Account) invests primarily in commercial real estate and includes mortgage loans, which are backed by the associated properties. Effective September 26, 2008, Principal implemented a preexisting contractual limitation in the group annuity contract, which allowed Principal to manage the Separate Account and satisfy withdrawal requests over time among those who request a withdrawal. The contractual limitation included a blackout period, which delayed the payment of withdrawal requests, including the transfer of these Plan assets to the new custodian. The blackout period for this Separate Account began September 26, 2008. Effective October 22, 2010, the Principal U.S. Property Fund was transferred to Hartford.

Notes to Financial Statements

December 31, 2011 and 2010

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, Plan earnings and forfeitures of terminated participants' non-vested accounts, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits which can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Company's contribution portion of their accounts, plus earnings thereon, is based on years of continuous service. A participant is fully vested after six years of continuous service. The non-vested balance is forfeited upon termination of service. Forfeitures are allocated among active participants based on compensation after Plan expenses are paid or forfeitures may be used to reduce Company contributions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of their vested account, a direct rollover distribution, or a joint and survivor annuity. The Plan also permits withdrawals from the Plan due to circumstances of financial hardship, in accordance with provisions specified in the *Plan Document*.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled $6,727 and $15,565, respectively. These accounts will be reallocated to participants based on compensation after Plan expenses are paid or may be used to reduce Company contributions.

Notes Receivable From Participants

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on loans is based on local prevailing rates as determined by the Plan Administrator.

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the *Plan Document*.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Insurance

Participants may elect to utilize elective deferral contributions to purchase life insurance coverage. Cash values of policies are included in Plan assets as of December 31, 2011 and 2010. During the year ended December 31, 2010, two of the Plan's participants cashed out of the value of their life insurance policies totaling $16,940 and transferred the funds received to their participant accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Pooled separate accounts are valued at estimated fair value as provided by Hartford and Principal. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Tax Status

The Plan operated under a non-standardized adoption agreement in connection with a prototype 401(k) profit sharing plan sponsored by Loren Stark. The prototype plan document was filed with the appropriate agency. The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed

and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. Federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2007.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The Plan's investments are held by Hartford. The Plan's investments (including investments bought, sold and held during the years) appreciated (depreciated) in fair value as shown below:

Life insurance cash value	-	52,135

The fair value of individual investments that represented 5 percent or more of the Plan's net assets available for benefits were as follows:

*These investments did not represent 5 percent or more of the Plan's net assets in the respective years.

Note 4: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan custodians. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Assets

Accounting Standards Codification Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy, which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value, which are shown on the following page.

Level 1 Quoted prices in active markets for identical assets.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. No Level 1 securities are included. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include pooled separate accounts. Units of pooled separate accounts are recorded at estimated unit value based on the estimated market value of the underlying assets net of annual expense charges divided by the beginning units. Inputs include market quotations or price, reported trades, broker/dealer quotes, bids and offers of the underlying investments obtained from external appraisals, independent pricing sources and market research publications. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include life insurance policies. Insurance policies are valued at cash surrender value as determined by Principal.

The tables on the following page present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2011 and 2010.

Note 7: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with unprecedented circumstances and challenges, which, in some cases, have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.

On November 15, 2011, the Plan Administrative Committee approved the reinstatement of the Company matching contribution at a rate of 50 percent of a participant's salary deferral contribution that does not exceed 2 percent of a participant's applicable compensation for the Plan year. The reinstated Company matching contribution is effective for pay periods ending after January 1, 2012.

In September 2012, all of the Plan's assets are expected to be transferred to The John Hancock Life Insurance Company (USA), the new custodian of the Plan. The new custodian initiated a "blackout period" which is expected to begin on September 14, 2012, and continue through October 15, 2012. During this period, participants will be unable to engage in certain transactions including applying for loans, withdrawals, distributions, contribution rate changes, changes in investment allocations for contributions and investment exchanges for existing balances. As required by law, participants were notified of the blackout period and restrictions of certain transactions in advance on August 8, 2012.
