INDEPENDENT AUDITORS' REPORT

October 2, 2012

To the Participants and Administrator of the
Piercey Automotive Group 401(k) Plan and Trust

We were engaged to audit the financial statements and supplemental schedules of the Piercey Automotive Group 401(k) Plan and Trust as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 5, which was certified by ING National Trust, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PIERCEY AUTOMOTIVE GROUP 401(k) PLAN AND TRUST

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF PLAN

The following description of the Piercey Automotive Group 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Piercey Management Services, Inc. dba Piercey Automotive Group, Westminster Automotive Group dba Honda World Westminster, Piercey North, Inc. dba Piercey Toyota, Piercey Fontana, LLC dba Rock Honda and Piercey West, Inc. dba Honda World Downey (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 21 years of age are eligible to participate in the Plan on January 1 or July 1 following completion of 12 months of service, with a minimum of 1,000 hours worked.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching and/or profit sharing contributions as determined each year by resolution of the Company's Board of Directors. Participants who have met the criteria to participate in the Plan, made deferrals to the Plan and were actively employed on the last day of the plan year are eligible to share in these contributions. The Company has funded discretionary matching contributions to the plan in the amount of $328,000 and $215,000 for the years ended December 31, 2011 and 2010, respectively. The Company has not made discretionary profit sharing contributions for either of the years ended December 31, 2011 or 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions and allocations of the Company's profit sharing contributions and Plan earnings. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances less than $5,000, but greater than $1,000 may automatically be transferred to an individual retirement account established with ING Life Insurance and Annuity Company (ING). All vested account balances less than $1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their employee contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and added to the employer matching contributions. During the year ended December 31, 2011, employer matching contributions related to the 2010 plan year were increased by $6,000 from forfeited non-vested accounts. As of December 31, 2011 and 2010, the amount of available forfeitures totaled $13,139 and $6,682, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from 1 to 5 years (changed to 57 months during 2011) or within a reasonable period of time that is longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate of prime plus 1%. Principal and interest is paid ratably through payroll deductions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Income Recognition – (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses (exclusive of investment and transaction related expenses) are generally paid by the Company.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

New Accounting Pronouncement

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended and restated most recently to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 and to amend the plan agreement to allow a maximum duration of general purpose loans to be 57 months. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

5. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING National Trust, the trustee of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year), as of December 31, 2011 and 2010, and for the years ended December 31, 2011 and 2010.

	2011	2010
Registered investment companies	$ 12,468,775	$ 13,076,236
Guaranteed investment contracts	2,917,733	2,101,042
Net appreciation/(depreciation) in fair value of investments	(675,086)	1,404,633
Interest	-	1,861
Dividends	227,411	221,276

6. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

6. FAIR VALUE MEASUREMENTS – (Continued)

Guaranteed investment contracts: Fair value is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Guaranteed investment contracts are stated at fair value and are classified within level 2 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Description	Total	Level 1	Level 2	Level 3
December 31, 2011

There were no transfers between Levels 1, 2 and 3 during the years ended December 31, 2011 and 2010.

7. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010:

	2011
Ridgeworth Large Cap Value Equity Fund	$ 1,013,586
Lord Abbett Small Cap Value Fund	823,826
American Funds Growth Fund	2,753,482
American Funds Fundamental Investors Fund	1,066,361
ING Oppenheimer Global Portfolio Fund	989,025
ING Fixed Account	2,917,733

	2010
American Funds Europacific Fund	$ 863,624
Oppenheimer Global Fund	1,184,161
Ridgeworth Large Cap Value Equity Fund	985,866
Lord Abbett Small Cap Value Fund	886,694
American Funds Growth Fund	3,012,039
American Funds Fundamental Investors Fund	1,156,348
ING Fixed Account	2,101,042

7. INVESTMENTS – (Continued)

During 2011, the Plan's investments in registered investment companies and guaranteed investment contracts (including investments bought, sold and held during the year) depreciated in value by $675,086 and earned $227,411 in dividends.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

At December 31, 2011 and 2010, the Plan held assets of $2,917,733 and $2,101,042, in a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contracts are reported at contract value by ING. At December 31, 2010, the difference between fair value and contract value was not material and thus no adjustment from fair value to contract value was presented. At December 31, 2011, the difference between fair value and contract value was material and thus an adjustment from fair value to contract value was presented.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY – (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011	2010
Based on actual earnings	2.84%	2.99%
Based on interest rate credited to participants	2.84%	2.99%

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

10. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by ING, the trustee and record-keeper of the Plan. The Plan participants paid $4,575 in loan and withdrawal transaction fees to ING during 2011. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including record-keeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	$ 16,457,008	$ 16,287,007
Add current year corrective distributions payable per the financial statements	1,709	-
Less contributions receivable per the financial statements	(328,000)	(215,000)
Net assets available for benefits per Form 5500	$ 16,130,717	$ 16,072,007

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 – (Continued)

The following is a reconciliation of total contributions to the Plan per the financial statements to the Form 5500 for the year ended December 31, 2011:

Total contributions per the financial statements	$ 1,447,587
Add current year corrective distributions payable per the financial statements	1,709
Add prior year contributions receivable per the financial statements	215,000
Less current year contributions receivable per the financial statements	(328,000)

INDEPENDENT AUDITORS' REPORT

October 2, 2012

To the Participants and Administrator of the
Piercey Automotive Group 401(k) Plan and Trust

We were engaged to audit the financial statements and supplemental schedules of the Piercey Automotive Group 401(k) Plan and Trust as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 5, which was certified by ING National Trust, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PIERCEY AUTOMOTIVE GROUP 401(k) PLAN AND TRUST

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF PLAN

The following description of the Piercey Automotive Group 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Piercey Management Services, Inc. dba Piercey Automotive Group, Westminster Automotive Group dba Honda World Westminster, Piercey North, Inc. dba Piercey Toyota, Piercey Fontana, LLC dba Rock Honda and Piercey West, Inc. dba Honda World Downey (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 21 years of age are eligible to participate in the Plan on January 1 or July 1 following completion of 12 months of service, with a minimum of 1,000 hours worked.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching and/or profit sharing contributions as determined each year by resolution of the Company's Board of Directors. Participants who have met the criteria to participate in the Plan, made deferrals to the Plan and were actively employed on the last day of the plan year are eligible to share in these contributions. The Company has funded discretionary matching contributions to the plan in the amount of $328,000 and $215,000 for the years ended December 31, 2011 and 2010, respectively. The Company has not made discretionary profit sharing contributions for either of the years ended December 31, 2011 or 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions and allocations of the Company's profit sharing contributions and Plan earnings. Allocations are based on participant's eligible compensation, participant contributions, investment elections and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances less than $5,000, but greater than $1,000 may automatically be transferred to an individual retirement account established with ING Life Insurance and Annuity Company (ING). All vested account balances less than $1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their employee contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and added to the employer matching contributions. During the year ended December 31, 2011, employer matching contributions related to the 2010 plan year were increased by $6,000 from forfeited non-vested accounts. As of December 31, 2011 and 2010, the amount of available forfeitures totaled $13,139 and $6,682, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from 1 to 5 years (changed to 57 months during 2011) or within a reasonable period of time that is longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate of prime plus 1%. Principal and interest is paid ratably through payroll deductions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Income Recognition – (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses (exclusive of investment and transaction related expenses) are generally paid by the Company.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

New Accounting Pronouncement

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits or related disclosures.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended and restated most recently to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 and to amend the plan agreement to allow a maximum duration of general purpose loans to be 57 months. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

5. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING National Trust, the trustee of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year), as of December 31, 2011 and 2010, and for the years ended December 31, 2011 and 2010.

	2011	2010
Registered investment companies	$ 12,468,775	$ 13,076,236
Guaranteed investment contracts	2,917,733	2,101,042
Net appreciation/(depreciation) in fair value of investments	(675,086)	1,404,633
Interest	-	1,861
Dividends	227,411	221,276

6. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

6. FAIR VALUE MEASUREMENTS – (Continued)

Guaranteed investment contracts: Fair value is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Guaranteed investment contracts are stated at fair value and are classified within level 2 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Description	Total	Level 1	Level 2	Level 3
December 31, 2011

There were no transfers between Levels 1, 2 and 3 during the years ended December 31, 2011 and 2010.

7. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010:

	2011
Ridgeworth Large Cap Value Equity Fund	$ 1,013,586
Lord Abbett Small Cap Value Fund	823,826
American Funds Growth Fund	2,753,482
American Funds Fundamental Investors Fund	1,066,361
ING Oppenheimer Global Portfolio Fund	989,025
ING Fixed Account	2,917,733

	2010
American Funds Europacific Fund	$ 863,624
Oppenheimer Global Fund	1,184,161
Ridgeworth Large Cap Value Equity Fund	985,866
Lord Abbett Small Cap Value Fund	886,694
American Funds Growth Fund	3,012,039
American Funds Fundamental Investors Fund	1,156,348
ING Fixed Account	2,101,042

7. INVESTMENTS – (Continued)

During 2011, the Plan's investments in registered investment companies and guaranteed investment contracts (including investments bought, sold and held during the year) depreciated in value by $675,086 and earned $227,411 in dividends.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

At December 31, 2011 and 2010, the Plan held assets of $2,917,733 and $2,101,042, in a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contracts are reported at contract value by ING. At December 31, 2010, the difference between fair value and contract value was not material and thus no adjustment from fair value to contract value was presented. At December 31, 2011, the difference between fair value and contract value was material and thus an adjustment from fair value to contract value was presented.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY – (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011	2010
Based on actual earnings	2.84%	2.99%
Based on interest rate credited to participants	2.84%	2.99%

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

10. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by ING, the trustee and record-keeper of the Plan. The Plan participants paid $4,575 in loan and withdrawal transaction fees to ING during 2011. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan, including record-keeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	$ 16,457,008	$ 16,287,007
Add current year corrective distributions payable per the financial statements	1,709	-
Less contributions receivable per the financial statements	(328,000)	(215,000)
Net assets available for benefits per Form 5500	$ 16,130,717	$ 16,072,007

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 – (Continued)

The following is a reconciliation of total contributions to the Plan per the financial statements to the Form 5500 for the year ended December 31, 2011:

Total contributions per the financial statements	$ 1,447,587
Add current year corrective distributions payable per the financial statements	1,709
Add prior year contributions receivable per the financial statements	215,000
Less current year contributions receivable per the financial statements	(328,000)

* During the year ended December 31, 2011, there were four contribution submissions and loan repayments which were made outside of the Company's standard submission parameters. All four were subsequently remitted during the 2011 plan year. Additionally, the Company used the IRS VFCP Calculator to calculate lost earnings based on the submission amounts and the number of days delinquent. In total, lost earnings were determined by the VFCP Calculator to be $470.49. These lost earnings were properly remitted to the plan during 2012.
