NOTE 1 - PLAN DESCRIPTION

The following description of the Air Design Systems, Inc. 401(K) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan that provides for retirement and disability benefits for employees of Air Design Systems, Inc. (the Company). The Plan is a participant-directed plan offering several investment options and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During July 2008 the Plan's trustee changed from Orchard Trust Company, LLC to representatives of the Company and Principal Life Insurance Company became the record keeper and investment manager. Accordingly, the Plan transferred its assets from Great-West Life and Annuity Insurance Company to Principal Life Insurance Company during September 2008.

B. Eligibility

Profit Sharing Component - All employees who are 18 years of age, completed six months of employment, and are employed as of the last day of the Plan Year are eligible to receive any profit sharing contributions that may be made for that Plan Year. Employees who complete at least 500 hours of service during the Plan Year will be eligible regardless if they are employed on the last day of the year.

401(k) Component - All employees who are 18 years of age and have completed six months of service are eligible to participate in the Plan. Entry dates into the Plan are January 1st, April 1st, July 1st, and October 1st of each fiscal year.

NOTE 1 - PLAN DESCRIPTION -- (Continued)

C. Contributions

Profit Sharing Component - The Company may voluntarily contribute to the Plan out of profits earned. Employee contributions are not permitted. Contributions are allocated to participant accounts based on each participant's pro rata share of gross wages, while investment gains and losses are based on the percentage that each participant's account balance bears to the total of all account balances. There were no unallocated assets as of December 31, 2009 and December 31, 2008.

401(k) Component - Participants can authorize payroll deferrals up to the maximum percentage of compensation or dollar amount permissible by the Internal Revenue Code (IRC). The Company may make a matching contribution equal to a discretionary percentage to be determined by the Company. For 2009 and 2008, the matching contribution was 10% of the first 4% of eligible compensation that a Participant contributes to the Plan. Participants are permitted to contribute catch-up contributions in accordance with IRC requirements. Participants direct the investments of their contributions into various investments offered by the Plan.

D. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant salary or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

E. Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive: a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participant rollover contributions are distributable as a lump-sum distribution at any time. Participant's age 59 1/2 or older may elect to receive a lump-sum distribution of the vested portion of his account balance regardless of employment. The benefit to which a participant is entitled consists of his or her contributions and earnings thereon and his or her accumulated share of vested annual employer contributions and investment earnings that are allocated according to length of service and amount of annual compensation.

F. Hardship Withdrawals

Funds may also be accessed prior to the date they become distributable by way of a financial hardship withdrawal. Hardship withdrawals are allowable in accordance with current Internal Revenue Service guidelines.

NOTE 1 - PLAN DESCRIPTION -- (Continued)

G. Vesting

Participants are fully vested with respect to their employee contributions plus actual earnings thereon. Vesting of employer matching and profit sharing contributions is based on years of continuous service beginning with the participant's date of hire and thereafter, as follows:

Years of Service	Vested Percentage
Less than 1	0%
1 Year	20%
2 Years	40%
3 Years	60%
4 Years	80%
5 Years	100%

Forfeited nonvested contributions are used to reduce Company matching contributions. At December 31, 2008, forfeited nonvested accounts totaled $361. During 2009, employer contributions were reduced by $404 and plan administrative expenses of $1,375 were paid to the custodian from forfeited nonvested accounts. There were no forfeited nonvested accounts as of December 31, 2009.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

B. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -- (Continued)

C. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of non-benefit-responsive investment contracts is determined to be book value less a withdrawal charge. Pooled separate accounts are valued at market value as determined by the custodian. Because of the inherent uncertainties in estimated market value, it is reasonably possible that the estimates used will change within the near term. The Plan presents in the statement of changes in net assets available for plan benefits, the net appreciation (decline) in the fair value of its investments which consists of the net change in market value of pooled separate accounts during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis.

D. Payment of Benefits

Benefit payments to participants are recorded when paid.

E. Administration

The Company serves as the administrator for the Plan and has sole responsibility for the administration of the Plan. Those services are provided without charge to the Plan. Other administrative expenses such as Plan accounting and auditing fees are paid by the Company.

F. Events Occurring After Reporting Date

The Plan has evaluated events and transactions that occurred between December 31, 2009 and July 22, 2010, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan's current custodian, Principal Life Insurance Company, has certified that the investments and investment transactions are complete and accurate as of and for the year ended December 31, 2009 and as of December 31, 2008 and for the period July 1, 2008 through December 31, 2008. The Plan's former custodian, Great-West Life & Annuity Insurance Company, and former trustee, Orchard Trust Company, LLC, has certified that the investments and investment transactions are complete and accurate to the best of their knowledge as of September 3, 2008 and for the period then ended.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and lowest priority to unobservable inputs (level 3 inputs). The three broad levels of the fair value hierarchy are:

Level 1 - Inputs consist of unadjusted quoted prices in active markets for identical investments in active markets.
Level 2 - Inputs include quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.
Level 3 - Inputs consist of investment valuations whose significant value drivers are not observable.

The investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

The fair value of pooled separate accounts is based on the net asset value per unit. The net asset value per unit is derived from the underlying investments and is included as a level 2 or level 3 input depending on the valuation methodology used to value the underlying investments.

The guaranteed investment contract with an insurance company is not actively traded and significant other inputs are not available. The guaranteed investment contract is not benefit responsive; therefore, fair value represents the amount the Company would receive if the contract were terminated. Fair value has been determined to be book value less an early withdrawal charge and is included in level 3 inputs.

While the Plan believes its valuation methods are consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS -- (Continued)

The following table presents the Plan's investments at fair value, categorized by level within the fair value hierarchy, on a recurring basis at:

December 31, 2009

NOTE 4 - FAIR VALUE MEASUREMENTS -- (Continued)

Transfers into and out of Level 3 are considered to occur at the beginning of the period. There were no transfers during 2009 and 2008.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2009 and 2008 are reported in the net appreciation (decline) in fair value of investments.

NOTE 5 - INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets:

	2009	2008
Principal Lifetime 2015 Separate Account	$ 177,945	$ 126,249

Principal Lifetime 2035 Separate Account	$ 45,829	$ 35,877
Principal International I Separate Account	$ 44,905	$ 30,109

NOTE 6 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY

Benefit-Responsive Investment Contract - Through September 3, 2008 the Plan maintained a benefit-responsive investment contract with Great-West Life and Annuity Insurance Company (Great-West). Great-West maintained the contributions in a general account. The account was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than zero percent. Such interest rates were reviewed on a quarterly basis for resetting.

Certain events limited the ability of the Plan to transact at contract value with the issuer. As of September 3, 2008 the benefit-responsive investment contract with Great-West was terminated.

NOTE 6 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY -- (Continued)

Non-Benefit-Responsive Investment Contract - The Plan maintains non-benefit-responsive investment contracts from Principal Life Insurance Company. Principal maintains the Plan's deposits in general accounts, the Guaranteed Interest Accounts, which provide for a guaranteed interest rate over a specified period of time. The rate credited is the rate in effect on the day of each deposit into the contracts and all rates credited to the contracts during the year are averaged into a single composite rate. The weighted average contractual rate was 1.11% and 1.27% for 2009 and 2008, respectively. The weighted average rate earned by participants for 2009 and 2008 was 2.90% and 0.97%, respectively.

The investment contracts promise contract value for a benefit event (termination, death, disability, and retirement); there is a possible market value adjustment when funds are withdrawn prior to their maturity. Due to the market value adjustment, the investment contracts have been determined not to be benefit-responsive. Fair value of the contracts has been determined to be the value paid when funds are withdrawn prior to their maturity and is calculated as book value at December 31, 2009 and 2008 less a withdrawal charge.

NOTE 7 - INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service dated March 31, 2008 which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the Internal Revenue Code. Management is not aware of any uncertain tax positions that would require disclosure or accrual in accordance with generally accepted accounting principles. The Plan is no longer subject to tax examinations by tax authorities for years before 2006.

NOTE 8 - TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participant's account balances shall become fully vested and non-forfeitable. Plan assets will be allocated to provide benefits to participants based on their individual account balances. As benefits are based on account balances, they are not insured by the Pension Benefit Guaranty Corporation.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

One investment option offered by the Plan, *Principal U.S. Property Separate Account* (USPSA), invests in commercial real estate in the United States and has experienced significant challenges during 2008 and through 2009. Market conditions have had a negative impact on the estimated fair value of the investments held by USPSA. Severe restrictions on the availability of real estate financing, as well as the economic uncertainties in the current environment, have resulted in a low volume of purchase and sale transactions, limiting the amount of observable inputs available to USPSA management in making their estimates of fair value. As discussed in Note 4, in the absence of observable inputs USPSA's management estimates fair value based on the best information available to management as of the date of the valuation. Should market conditions continue to deteriorate, or should USPSA's management's assumptions change, the USPSA may record additional unrealized losses in future periods.

On September 26, 2008 Principal Life Insurance Company applied a limitation which delays the payment of withdrawal requests from the USPSA and provides for payment of such requests on a pro rata basis (a "Queue") as cash becomes available for distribution, as determined by Principal Life Insurance Company. The outstanding balance of the Queue was approximately $1,173 million and $837 million as of December 31, 2009 and 2008, respectively. As of March 31, 2010 the outstanding balance in the Queue was $1,045.8 million (31.7% of the USPSA net asset value).
